CHAPTER THREE
RULES OF ORIGIN AND ORIGIN PROCEDURES

SECTION A: RULES OF ORIGIN

ARTICLE 3.1: ORIGINATING GOODS

Except as otherwise provided in this Chapter, a good shall be treated as originating under this Agreement where:

- (a) the good satisfies one of the following conditions:
 - (i) the good is wholly obtained or produced entirely in the territory of one or both of the Parties within the meaning of Article 3.2;
 - (ii) the good satisfies all applicable requirements set out in Annex 3-A, as a result of processes performed entirely in the territory of one or both of the Parties; or
 - (iii) the good is produced entirely in the territory of one or both of the Parties, exclusively from originating materials; and
- (b) the good satisfies all other applicable requirements under this Chapter.

ARTICLE 3.2: WHOLLY OBTAINED OR PRODUCED GOODS

For purposes of Article 3.1(a), the following goods shall be considered to be wholly obtained or produced entirely in the territory of one or both of the Parties:

- (a) mineral goods and other natural resources extracted or taken from the territory of one or both of the Parties;
- (b) vegetable goods grown and harvested in the territory of one or both of the Parties;
- (c) live animals born and raised in the territory of one or both of the Parties;
- (d) goods obtained from live animals born and raised in the territory of one or both of the Parties;
- (e) goods obtained from hunting or trapping within the land territory, or fishing or aquaculture conducted within the territory of one or both of the Parties¹;

¹ Notwithstanding subparagraph (e), goods of sea-fishing and other goods taken from the sea within the territories of the Parties by vessels registered or recorded with a non-Party and flying its flag shall not be regarded as wholly obtained or produced entirely in the territory of one or both of the Parties under Article 3.2.

- (f) fish, shellfish, and other marine life taken from the sea, seabed, ocean floor, or subsoil, outside the territory of the Parties by a vessel registered or recorded with a Party and entitled to fly its flag;
- (g) goods produced on board a factory ship from the fish, shellfish, or other marine life referred to in subparagraph (f), provided that such a factory ship is registered or recorded with a Party and entitled to fly its flag;
- (h) goods, other than fish, shellfish, and other marine life, taken or extracted from the seabed, ocean floor, or subsoil, outside the territory of one or both of the Parties by a Party or a person of a Party, provided that the Party or the person of the Party has a right to exploit such seabed, ocean floor, or subsoil;
- (i) goods taken from outer space, provided that they are obtained by a Party or a person of a Party and not processed in the territory of a non-Party;
- (j) waste and scrap derived from:
 - (i) production in the territory of one or both of the Parties; or
 - (ii) used goods collected in the territory of one or both of the Parties,
 provided that such waste and scrap is fit only for the recovery of raw materials; and
- (k) goods produced entirely in the territory of one or both of the Parties exclusively from goods referred to in this Article or from their derivatives.

ARTICLE 3.3: REGIONAL VALUE CONTENT

1. Where Annex 3-A specifies a regional value content requirement, the regional value content shall be calculated in accordance with one of the following methods:

- (a) Build-down Method

$$RVC = \frac{AV - VNM}{AV} \times 100$$

- (b) Build-up Method

$$RVC = \frac{VOM}{AV} \times 100$$

where,

RVC is the regional value content, expressed as a percentage;

AV is the adjusted value of the good;

VNM is the value of non-originating materials, other than indirect materials, acquired and used by the producer in the production of the good; VNM does not include the value of a material that is self-produced; and

VOM is the value of originating materials used in the production of the good, as determined in Article 3.4.

2. All costs considered for the calculation of the regional value content shall be recorded and maintained in conformity with the Generally Accepted Accounting Principles applicable in the territory of the Party where the good is produced.

3. All values for the purpose of calculating the regional value content shall be determined pursuant to the Customs Valuation Agreement. For this purpose, the Customs Valuation Agreement shall apply, *mutatis mutandis*, to domestic transactions.

4. Where Annex 3-A specifies a regional value content requirement to determine if an automotive good² is originating, each Party shall provide that the exporter or producer may calculate the regional value content of that good as provided in paragraph 1 or based on the following method:

Net Cost Method (for Automotive Goods)

$$RVC = \frac{NC - VNM}{NC} \times 100$$

where,

RVC is the regional value content, expressed as a percentage;

NC is the net cost of the good; and

VNM is the value of non-originating materials, other than indirect materials, acquired and used by the producer in the production of the good; VNM does not include the value of a material that is self-produced.

5. Each Party shall provide that, for purposes of the regional value content method in paragraph 4, the exporter or producer may use a calculation averaged over the producer's fiscal year, using any one of the following categories, on the basis of all motor vehicles in the category or only those motor vehicles in the category that are exported to the territory of the other Party:

² Paragraph 4 applies solely to goods classified under the following HS headings: 87.01 through 87.05 (motor vehicles) and 87.06 (chassis).

- (a) the same model line of motor vehicles in the same class of vehicles produced in the same plant in the territory of a Party;
- (b) the same class of motor vehicles produced in the same plant in the territory of a Party; or
- (c) the same model line of motor vehicles produced in the territory of a Party.

ARTICLE 3.4: VALUE OF MATERIALS

1. Subject to paragraphs 2 and 3, the value of a material referred to in Article 3.3 shall be:

- (a) for a material imported directly by the producer of a good, the CIF value at the time of importation of the material;
- (b) for a material acquired by the producer in the territory where the good is produced, the value, determined in accordance with Articles 1 through 8, Article 15, and the corresponding interpretative notes of the Customs Valuation Agreement, *i.e.*, in the same manner as for imported goods, with such reasonable modifications as may be required due to the absence of an importation by the producer; or
- (c) for a material that is self-produced, the sum of all costs incurred in the production of the material, including general expenses, and an amount for profit equivalent to the profit added in the normal course of trade.

2. For purposes of paragraph 1, the following, where included under paragraph 1, may be deducted from the value of the non-originating materials:

- (a) the costs of freight³, insurance, packing, and all other costs incurred in transporting the material within a Party's territory or between the territories of the Parties to the location of the producer;
- (b) duties, taxes, and customs brokerage fees on the material paid in the territory of one or both of the Parties, other than duties and taxes that are waived, refunded, refundable, or otherwise recoverable, including credit against duty or tax paid or payable;
- (c) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-product; and
- (d) the cost of processing incurred in the territory of one or both of the Parties in the production of the non-originating material.

³ For greater certainty and for purposes of Articles 3.4.2(a) and 3.4.3(a), "costs of freight" includes the costs of all types of freight, including in-land freight, incurred within a Party's territory, regardless of the mode of transportation.

3. For purposes of paragraph 1, the following, where not included under paragraph 1, may be added to the value of the originating materials:

- (a) the costs of freight, insurance, packing, and all other costs incurred in transporting the material within a Party's territory or between the territories of the Parties to the location of the producer;
- (b) duties, taxes, and customs brokerage fees on the material paid in the territory of one or both of the Parties, other than duties and taxes that are waived, refunded, refundable, or otherwise recoverable, including credit against duty or tax paid or payable; and
- (c) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-product.

ARTICLE 3.5: INTERMEDIATE GOODS

1. When an originating good is used in the subsequent production of another good, no account shall be taken of the non-originating materials contained in the originating good for the purpose of determining the originating status of the subsequently produced good.⁴

2. When a non-originating good is used in the subsequent production of another good, notwithstanding Article 3.4, an account shall be taken only of the non-originating materials contained in the non-originating good for the purpose of determining the originating status of the subsequently produced good.

ARTICLE 3.6: ACCUMULATION

1. Originating goods or materials of a Party, incorporated into a good in the territory of the other Party, shall be considered to be originating in the territory of the other Party.

2. A good is originating where the good is produced in the territory of one or both of the Parties by one or more producers, provided that the good satisfies the requirements in Article 3.1 and all other applicable requirements in this Chapter.

ARTICLE 3.7: DE MINIMIS

1. A good that does not satisfy a change in tariff classification requirement pursuant to Annex 3-A is nonetheless originating if the value of all non-originating materials that have

⁴ The requirements set out in Annex 3-A shall apply only to non-originating materials used in the production of a good. Accordingly, if a good has acquired originating status by satisfying the requirements set out in Annex 3-A and is used as a material in the production of another good, the requirements applicable to such other good do not apply to the good that is used as a material, and therefore no account shall be taken of any non-originating materials incorporated into such a good used as a material in the production of another good.

been used in the production of the good and that do not undergo the applicable change in tariff classification does not exceed 10 percent of the adjusted value of the good, provided that:

- (a) the value of such non-originating materials shall be included in the value of non-originating materials for any applicable regional value content requirement; and
 - (b) the good meets all other applicable requirements in this Chapter.
2. Paragraph 1 shall not apply to non-originating materials used in the production of goods classified in Chapters 1 through 24 of the HS, unless they are classified in a different subheading from that of the goods for which the origin is being determined under this Article.
3. Notwithstanding paragraph 2, paragraph 1 shall not apply to non-originating materials classified in Chapter 15 of the HS that are used in the production of goods classified under headings 15.01 through 15.08 or 15.11 through 15.15 of the HS.
4. Paragraph 1 shall not apply to goods classified in Chapters 50 through 63 of the HS. A good classified in Chapters 50 through 63 of the HS, produced in the territory of a Party, shall be considered to be an originating good if the total weight of all non-originating fibers or yarns used in the production of the component that determines the tariff classification of the good, that do not undergo the applicable change in tariff classification, does not exceed ten percent of the weight of the good.

ARTICLE 3.8: FUNGIBLE GOODS

1. In determining whether a good is originating for the purpose of preferential tariff treatment, any fungible goods shall be distinguished by:
- (a) physical segregation of the goods; or
 - (b) any inventory management method, such as averaging, last-in-first-out (“LIFO”) or first-in-first-out (“FIFO”), recognized in the Generally Accepted Accounting Principles of the Party in which the production is performed or otherwise accepted by the Party in which the production is performed.
2. The inventory management method selected under paragraph 1 for a particular fungible good shall continue to be used for that good throughout the fiscal year of the person that selected the inventory management method.

ARTICLE 3.9: ACCESSORIES, SPARE PARTS, AND TOOLS

The origin of the accessories, spare parts, or tools delivered with a good at the time of importation:

- (a) shall be disregarded if the good is subject to a change in tariff classification requirement; and
- (b) shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good, if the good is subject to a regional value content requirement;

provided that:

- (a) the accessories, spare parts, or tools are not invoiced separately from the good, regardless of whether they appear specified or separately identified in the invoice itself; and
- (b) the quantities and value of the accessories, spare parts, or tools are customary for the good.

ARTICLE 3.10: SETS OF GOODS

Notwithstanding the rules set out in Annex 3-A, a set or assortment of goods, as referred to in General Rule 3 of the HS, shall be regarded as originating, provided that:

- (a) all the component goods, including packaging materials and containers, are originating; or
- (b) where the set or assortment of goods contains non-originating component goods, including packaging materials and containers, the value of the non-originating goods, including any non-originating packaging materials and containers for the set or assortment of goods, does not exceed 15 percent of the adjusted value of the set or assortment of goods.

ARTICLE 3.11: PACKAGING MATERIALS AND CONTAINERS FOR RETAIL SALE

1. Packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good, be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in Annex 3-A.

2. If a good is subject to a regional value content requirement, the value of packaging materials and containers described in paragraph 1 shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

3. Packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good, be disregarded in determining whether the good is wholly obtained or produced entirely in the territory of one or both of the Parties within the meaning of Article 3.2.

ARTICLE 3.12: PACKING MATERIALS AND CONTAINERS FOR SHIPMENT

The packing materials and containers for transportation and shipment shall not be taken into account when determining the origin of the good.

ARTICLE 3.13: INDIRECT MATERIALS

In order to determine whether a good is originating, the origin of indirect materials shall not be taken into account.

ARTICLE 3.14: NON-QUALIFYING OPERATION

Notwithstanding other provisions of this Chapter, a good shall not be considered to be originating merely by reason of going through one or a combination of the following operations or processes:

- (a) preserving operations to ensure that the goods remain in good condition during transport and storage;
- (b) change of packaging, or breaking-up or assembly of packages;
- (c) washing, cleaning, removal of dust, oxide, oil, paint or other coverings;
- (d) ironing or pressing of textiles;
- (e) simple⁵ painting and polishing operations;
- (f) husking, partial or total bleaching, polishing, and glazing of cereals and rice;
- (g) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
- (h) affixing marks, labels, logos, and other like distinguishing signs on the good or its packaging;

⁵ **Simple** means activities which need neither special skills nor machines, apparatus, or equipment especially produced or installed for carrying out the activity. However, simple mixing does not include chemical reaction. **Chemical reaction** means a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for purposes of this definition:

- (a) dissolving in water or other solvents;
- (b) the elimination of solvents, including solvent water; or
- (c) the addition or elimination of water of crystallization.

- (i) simple mixing of products, whether or not of different kinds; mixing of sugar with any material; operations to color or flavor sugar or form sugar lumps; partial or total milling of crystal sugar;

3. Notwithstanding paragraphs 1 and 2, goods listed in Annex 3-B shall be considered to be originating in accordance with Annex 3-B, even if such goods have undergone operations and processes outside the territories of the Parties.

SECTION B: ORIGIN PROCEDURES

ARTICLE 3.18: CERTIFICATE OF ORIGIN

1. A claim that a good should be treated as originating and accepted as eligible for a preferential tariff shall be supported by a certificate of origin.

2. The certificate of origin shall be completed and signed by the exporter or the producer and shall:

- (a) specify that the goods described therein are originating;
- (b) be in a printed format or such other medium including electronic format; and
- (c) be completed in English in conformity with the specimen and the instructions contained therein as set out in Annex 3-C, which may be amended by agreement between the Parties. Nonetheless, if necessary for the review procedures according to Article 4.10 (Review and Appeal), each Party may require the importer to submit a translation of the certificate of origin in a language required by its law.

3. Where an exporter in its territory is not the producer of the good, the exporter may complete and sign a certificate of origin on the basis of:

- (a) its knowledge that the good qualifies as an originating good; or
- (b) a certificate of origin, or a written declaration that the good qualifies as an originating good, provided by the producer.

4. Nothing in paragraph 3 shall be construed to require a producer who is not the exporter of the good to provide a certificate of origin, or written declaration that the good qualifies as an originating good.

5. A certificate of origin shall be applicable to:

- (a) a single importation of one or more goods into the Party's territory; or
- (b) multiple importations of the goods described therein that occur within a specified period, not exceeding 12 months, set out therein.

6. A certificate of origin shall remain valid for one year, or for such longer period specified by the laws and regulations of the importing Party, after the date on which the certificate of origin was signed.

7. Notwithstanding paragraph 6, the customs authority in the importing Party may accept such certificate of origin, provided that the goods have been imported into the territory of a Party before the expiration date of the said certificate of origin.

8. For any originating good of which import declaration is made on or after the date of entry into force of this Agreement, each Party shall accept a certificate of origin that has been completed and signed no more than six months prior to that date.

ARTICLE 3.19: CLAIMS FOR PREFERENTIAL TARIFF TREATMENT

1. Except as otherwise provided in this Chapter, each Party shall require an importer in its territory that claims preferential tariff treatment for a good imported into its territory from the territory of the other Party to:

- (a) request preferential tariff treatment at the time of importation of an originating good, in accordance with the procedures applicable in the importing Party;
- (b) make a written declaration, if it deems necessary, that the good qualifies as an originating good;
- (c) have the certificate of origin in its possession at the time the claim referred to in subparagraph (a) is made; and

- (d) provide, on the request of that Party's customs authority, a copy of the certificate of origin and such other documentation related to the importation of the good in accordance with the laws and regulations of the importing Party.

2. An importer should promptly make a corrected declaration in a manner required by the customs authority of the importing Party and pay any duties owing where the importer has reason to believe that a certificate of origin on which a claim was based contains information that is not correct.

ARTICLE 3.20: POST-IMPORTATION CLAIMS FOR PREFERENTIAL TARIFF TREATMENT

Where a good was originating when it was imported into the territory of a Party, but the importer of the good did not make a claim for preferential tariff treatment at the time of importation, that importer of the good may, within a period of at least one year or for such longer period specified by the laws and regulations of the importing Party after the date on which the good was imported, make a claim for preferential tariff treatment and apply for a refund of any excess duties paid as a result of the good not having been accorded preferential tariff treatment, on presentation to the importing Party of:

- (a) a certificate of origin and, where appropriate, other evidence that the good qualifies as an originating good; and
- (b) such other documentation in relation to the importation of the good as the importing Party may require.

ARTICLE 3.21: WAIVER OF CERTIFICATE OF ORIGIN

Notwithstanding Article 3.19, a certificate of origin shall not be required where:

- (a) the customs value of the importation does not exceed US\$1,000 or its equivalent amount in the currency of the importing Party, or such higher amount as may be established by the importing Party; or
- (b) the importing Party has waived the requirement for a certificate of origin in accordance with its laws and regulations;

provided that the importation does not form part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the requirements of Articles 3.18 and 3.19.

ARTICLE 3.22: OBLIGATIONS REGARDING EXPORTATIONS

1. Each Party shall provide that an exporter or a producer in its territory that has provided a certificate of origin shall provide a copy of the certificate of origin, or such other documentation to its customs authority on request.

2. Each Party shall provide that an exporter or a producer in its territory that has provided a certificate of origin, and that has reason to believe that the certificate of origin contains information that is not correct, shall promptly notify, in writing, all persons to whom the certificate of origin was given by the exporter or producer of any change that could affect the accuracy or validity of the certificate of origin.

3. Each Party shall provide that a false certification by an exporter or a producer in its territory specifying that a good to be exported to the territory of the other Party qualifies as an originating good shall be subject to penalties for a contravention of its customs laws and regulations regarding the making of a false certification or declaration. Furthermore, each Party may apply such measures as the circumstances may warrant where an exporter or a producer in its territory fails to comply with any requirement of this Chapter.

ARTICLE 3.23: RECORD KEEPING REQUIREMENTS

1. Each Party shall provide that the exporter or the producer in its territory that has provided a certificate of origin shall maintain in its territory, for five years after the date on which the certificate of origin was issued or for such longer period as the exporting Party may specify, all records necessary to demonstrate that the good for which the producer or exporter provided the certificate of origin was an originating good, which may consist of, *inter alia*, the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;
- (b) documents proving the originating status of materials used, issued or made out in a Party where these documents are used, as provided for in its law;
- (c) documents proving the working or processing of materials in a Party, issued or made out in a Party where these documents are used, as provided for in its law; and
- (d) certificate of origin proving the originating status of materials used, completed in a Party.

2. Each Party shall provide that the importer claiming preferential tariff treatment for a good imported into the Party's territory shall maintain, for five years after the date of importation of the good or for such longer period as the Party may specify, such documentation, including a copy of the certificate of origin, as the Party may require relating to the importation of the good.

3. Each Party shall provide that the importer, exporter, or producer may choose to maintain the records in any medium that allows for prompt retrieval, including but not limited to, digital, electronic, optical, magnetic, or written form.

ARTICLE 3.24: DISCREPANCIES AND FORMAL ERRORS

1. The discovery of slight discrepancies between the statements made in the certificate of origin and those made in the documents submitted to the customs authority for the purpose of carrying out the formalities for importing goods shall not *ipso facto* render the certificate of origin null and void if it is duly established that such document does correspond to the goods submitted.
2. Obvious formal errors such as typing errors in a certificate of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

ARTICLE 3.25: ORIGIN VERIFICATION

1. For the purpose of determining whether a good imported into one Party from the other Party qualifies as an originating good, the customs authority of the importing Party may conduct a verification process by means of:
 - (a) written requests for additional information from the importer;
 - (b) written requests for additional information from the exporter or producer;
 - (c) requests to the customs authority of the exporting Party for assistance in verifying the origin of the good;
 - (d) verification visits to the premises of an exporter or a producer in the territory of the other Party, along with the customs authority of the exporting Party to observe the facilities and the production processes of the good and to review the records referring to origin, including accounting files. Officials of the customs authority of the exporting Party should come along as observers to the verification visit when requested by the importing Party; or
 - (e) any other procedures to which the Parties may agree.
2. For purposes of paragraph 1(a) and 1(b),
 - (a) the written request for additional information made by the importing Party will indicate that the time period the importer, exporter, or producer has to provide the information and documentation required will be 30 days from the date of the receipt of the written request or for such longer period as the Parties may agree; and
 - (b) where an exporter or producer fails to provide the information and documentation required within the period referred to in subparagraph (a), the importing Party may deny preferential tariff treatment to the good in question after providing at least a 30-day written notice to the importer, exporter or

producer to provide written comments or additional information that will be taken into account prior to completing the verification.

3. For purposes of paragraph 1(c):

- (a) the customs authority of the importing Party shall provide the customs authority of the exporting Party with:
 - (i) the reasons why such assistance for verification is requested;
 - (ii) the certificate of origin of the good, or a copy thereof; and
 - (iii) any information and documents as may be necessary for the purpose of such request;
- (b) the customs authority of the exporting Party shall provide the customs authority of the importing Party with a written statement in English, including findings and facts, and any supporting documents made available by the exporter or producer. Nonetheless, the exporting Party may issue the above mentioned written statement both in English and in the language required by its law. This statement shall indicate clearly whether the documents are authentic and whether the goods concerned can be considered an originating good and fulfill the other requirements of this Chapter. If the good can be considered an originating good, the statement shall include a detailed explanation of how the good obtained the originating status; and
- (c) in the cases where the customs authority of the exporting Party does not provide the written statement within 150 days of the date of request or where the written statement does not contain sufficient information, the importing Party may deny the preferential tariff treatment to the relevant good.

4. For purposes of paragraph 1(d):

- (a) prior to conducting a verification visit, the importing Party shall, through its customs authority:
 - (i) deliver a written notification of its intention to conduct the visit to the exporter or producer whose premises are to be visited and the customs authority of the other Party; and
 - (ii) obtain the written consent of the exporter or producer whose premises are to be visited;
- (b) where an exporter or producer has not given its written consent to a proposed verification visit within 30 days of the receipt of notification pursuant to subparagraph (a), the notifying Party may deny preferential tariff treatment to the relevant good;

- (c) upon receipt of notification pursuant to subparagraph (a), such an exporter or producer may, within 15 days of receiving the notification, have one opportunity to request to the Party conducting the verification for a postponement of the proposed verification visit, for a period not exceeding 60 days. This extension shall be notified to the customs authority of the importing and exporting Parties; and
- (d) after the conclusion of a verification visit, the Party conducting the verification, shall provide the exporter or producer whose good was verified, with a written determination of whether the good is eligible for preferential tariff treatment, based on the relevant law and findings of fact.

5. For purposes of paragraphs 1(b) and 1(c), all the information requested by the customs authority of the importing Party and responded by the customs authority of the exporting Party shall be communicated in English. Nonetheless, the customs authority of each Party may issue the above mentioned information both in English and in the language required by its law.

ARTICLE 3.26: DENIAL OF PREFERENTIAL TARIFF TREATMENT

Except as otherwise provided in this Chapter, the importing Party may deny a claim for preferential tariff treatment or recover unpaid duties, in accordance with its laws and regulations, where:

- (a) the good does not meet the requirements of this Chapter; or
- (b) the exporter, producer, or importer of the good fails or has failed to comply with any of the relevant requirements for obtaining preferential tariff treatment.

ARTICLE 3.27: NON-PARTY INVOICES

The customs authority in the importing Party shall not reject a certificate of origin only for the reason that the invoice is issued either by a company located in a non-Party or by an exporter for the account of the said company.

ARTICLE 3.28: UNIFORM REGULATIONS

1. The Parties may jointly establish and implement, through their respective laws, regulations, or administrative policies, uniform regulations regarding the interpretation, application and administration of this Chapter.

CHAPTER 27	MINERAL FUELS, MINERAL OILS AND PRODUCTS OF THEIR DISTILLATION; BITUMINOUS SUBSTANCES; MINERAL WAXES
Note to Chapter 27	For purposes of this chapter, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for purposes of this definition: (a) dissolving in water or other solvents; (b) the elimination of solvents, including solvent water; or (c) the addition or elimination of water of crystallization. For purposes of heading 2710, the following processes confer origin:

SUBHEADING	ORIGIN CRITERIA
	(a) Atmospheric distillation: A separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapor then condensed into different liquefied fractions. (b) Vacuum distillation: Distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation.

SECTION VI	PRODUCTS OF THE CHEMICAL OR ALLIED INDUSTRIES (CHAPTER 28-38)
Note to Section VI (Chapter 28-38):	Note 1: A good of any chapter or heading in Section VI that satisfies one or more of Rules 1 through 7 of this Section shall be treated as an originating good, except as otherwise specified in those rules. Note 2: Notwithstanding Note 1, a good is an originating good if it meets the applicable change in tariff classification or satisfies the applicable value content requirement specified in the rules of origin in this Section. Rule 1: Chemical Reaction Origin A good of Chapters 28 through 38, except goods of heading 3823, that results from a chemical reaction in the territory of one or both of the Parties shall be treated as an originating good. Note: For purposes of this section, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for the purpose of determining whether a good is an originating good: (a) dissolution in water or in another solvent; (b) the elimination of solvents including solvent water; or (c) the addition or elimination of water of crystallization. Rule 2: Purification A good of Chapters 28 through 38 that is subject to purification shall be treated as an originating good provided that the purification occurs in the territory of one or both of the Parties and results in the following: (a) the elimination of not less than 80 percent of the impurities; or (b) the reduction or elimination of impurities resulting in a good suitable: (i) as a pharmaceutical, medicinal, cosmetic, veterinary, or food grade substance; (ii) as a chemical product or reagent for analytical, diagnostic, or laboratory uses; (iii) as an element or component for use in micro-elements; (iv) for specialized optical uses; (v) for non-toxic uses for health and safety;

SUBHEADING	ORIGIN CRITERIA
	(vi) for biotechnical use; (vii) as a carrier used in a separation process; or (viii) for nuclear grade uses. Rule 3: Mixtures and Blends A good of Chapters 30, 31, or 33 through 38, except for heading 3808, shall be treated as an originating good if the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications, resulting in the production of a good having different essential physical or chemical characteristics that are relevant to the purposes or uses of the good and are different from the input materials, occurs in the territory of one or both of the Parties. Rule 4: Change in Particle Size A good of Chapters 30, 31, or 33, shall be treated as an originating good if the deliberate and controlled modification in particle size of the good, including micronizing by dissolving a polymer and subsequent precipitation, other than by merely crushing or pressing, resulting in a good having a defined particle size, defined particle size distribution, or defined surface area, which is relevant to the purposes of the resulting good and having different essential physical or chemical characteristics from the input materials, occurs in the territory of one or both of the Parties. Rule 5: Standards Materials A good of Chapters 28 through 38 shall be treated as an originating good if the production of standards materials occurs in the territory of one or both of the Parties. For purposes of this rule, “standards materials” (including standard solutions) are preparations suitable for analytical, calibrating, or referencing uses, having precise degrees of purity or proportions that are certified by the manufacturer. Rule 6: Isomer Separation A good of Chapters 28 through 38 shall be treated as an originating good if the isolation or separation of isomers from mixtures of isomers occurs in the territory of one or both of the Parties. Rule 7: Separation Prohibition A good of Chapters 28 through 38 that undergoes a change from one classification to another in the territory of one or more of the Parties as a result of the separation of one or more materials from a man-made mixture shall not be treated as an originating good unless the isolated material underwent a chemical reaction in the territory of one or both of the Parties.

SECTION VII	PLASTICS AND ARTICLES THEREOF; RUBBER AND ARTICLES THEREOF (CHAPTER 39-40)
Note to Section VII (Chapter 39-40):	Note 1: A good of any chapter or heading in Section VII that satisfies one or more of Rules 1 through 5 of this Section shall be treated as an originating good, except as otherwise specified in those rules. Note 2: Notwithstanding Note 1, a good is an originating good if it meets the applicable change in tariff classification or satisfies the applicable value content requirement specified in the rules of origin in this Section. Rule 1: Chemical Reaction Origin A good of Chapters 39 and 40 that results from a chemical reaction in the territory of one or both of the Parties shall be treated as an originating good.

SUBHEADING	ORIGIN CRITERIA
	Note: For purposes of this section, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for the purpose of determining whether a good is an originating good: (a) dissolution in water or in another solvent; (b) the elimination of solvents including solvent water; or (c) the addition or elimination of water of crystallization. Rule 2: Purification A good that is subject to purification shall be treated as an originating good provided that the purification occurs in the territory of one or both of the Parties and results in the following: (a) the elimination of not less than 80 percent of the impurities; or (b) the reduction or elimination of impurities resulting in a good suitable: (i) as a pharmaceutical, medicinal, cosmetic, veterinary, or food grade substance; (ii) as a chemical product or reagent for analytical, diagnostic, or laboratory uses; (iii) as an element or component for use in micro-elements; (iv) for specialized optical uses; (v) for non-toxic uses for health and safety; (vi) for biotechnical use; (vii) as a carrier used in a separation process; or (viii) for nuclear grade uses. Rule 3: Mixtures and Blends A good of Chapters 39 and 40 shall be treated as an originating good if the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications, resulting in the production of a good having different essential physical or chemical characteristics that are relevant to the purposes or uses of the good and are different from the input materials, occurs in the territory of one or both of the Parties. Rule 4: Change in Particle Size A good of Chapter 39 shall be treated as an originating good if the deliberate and controlled modification in particle size of the good, including micronizing by dissolving a polymer and subsequent precipitation, other than by merely crushing or pressing, resulting in a good having a defined particle size, defined particle size distribution, or defined surface area, which is relevant to the purposes of the resulting good and having different essential physical or chemical characteristics from the input materials, occurs in the territory of one or both of the

SUBHEADING	ORIGIN CRITERIA
	Parties. Rule 5: Isomer Separation A good of Chapter 39 shall be treated as an originating good if the isolation or separation of isomers from mixtures of isomers occurs in the territory of one or both of the Parties.

ANNEX 3-B

EXEMPTION FROM THE PRINCIPLE OF TERRITORIALITY

Treatment of Operations and Processes Performed outside the Territories of the Parties

1. In determining the originating status of a good included in the list contained in paragraph 9 of this Annex, operations and processes performed in the Gaeseong Industrial Complex located in North Korea, on materials exported there from Korea and subsequently re-imported to Korea, shall be considered to have been performed in the territory of Korea, provided that the total value of non-originating input⁷ does not exceed 40 percent of the FOB price of the final good for which originating status is claimed.

Origin Conferring

2. Chapter 3 (Rules of Origin and Origin Procedures) shall apply, *mutatis mutandis*, to the originating status of a good included in this Annex. Accordingly, a good shall be treated as non-originating if it does not satisfy all applicable requirements set out in Articles 3.1 through 3.15 and Annex 3-A (Product Specific Rules of Origin).

Origin Procedures

3. An exporter or producer who claims that a good qualifies as originating on the basis of paragraphs 1 and 2 shall make such a reference in the certificate of origin.

4. Each Party shall assist the competent authority of the importing Party to conduct verification on the goods included in this Annex, in accordance with relevant provisions of Section B (Origin Procedures).

Review

5. When a Party requests an amendment or modification to the list of the goods included in this Annex, the other Party shall give sympathetic consideration to such a request and provide opportunities for consultations. The other Party may request information as it considers necessary for such consideration. If the Parties agree to amend or modify the list of the goods, they may take a joint decision at the Joint Commission to amend the list.

6. Upon request of a Party, the Parties shall review the implementation of this Annex. Either Party may request information as it considers necessary for such review. Taking into account the result of the review, the Parties may take a joint decision at the Joint Commission to amend or modify this Annex.

⁷ For purposes of Annex 3-B, **total value of non-originating input** means the value of any non-originating materials added within the territories of the Parties as well as any materials added and all other costs accumulated outside the territories of the Parties, including transport costs. Non-originating materials which have already acquired originating status in a Party shall not be considered to be non-originating input.

Suspension of the Application of this Annex

7. When a Party considers that an originating good included in this Annex is being imported under preferential tariff treatment into its territory in such increased quantities and under such conditions as to cause, or threaten to cause, serious injury to its domestic industry, the Party may suspend the application of this Annex to the good for a period of time as it considers necessary to prevent or remedy such injury or threat thereof to the domestic industry of the Party.

8. A Party that intends to suspend the application of this Annex in accordance with paragraph 7 shall notify the other Party two months in advance and afford the other Party an opportunity to exchange views with it in respect of the proposed suspension.

- Field 1: State the full legal name, address (including city and country), telephone number, fax number, e-mail address, and optionally any identification number such as fiscal code of the exporter.
- Field 2: Complete this Field if the Certificate covers multiple shipments of identical goods as described in Field 5 that are imported into Korea or Colombia for a specified period of up to 12 months (blanket period). "FROM" is the date upon which the Certificate becomes applicable to the good covered by the blanket Certificate (it may be earlier than the date this Certificate is signed). "TO" is the date upon which the blanket period expires. The importation of a good for which preferential tariff treatment is claimed based on this Certificate must occur between these dates.
- Field 3: If there is one producer, state the full legal name, address (including city and country), telephone number, fax number, e-mail address and optionally any identification number such as fiscal code, of the said producer. - Field 6: For each good described in Field 5, identify the HS tariff classification to six digits.
- Field 7: For each good described in Field 5, state which criterion (A through D) is applicable. The rules of origin are contained in Chapter 3 (Rules of Origin) and Annex 3-A (Specific Rules of Origin).

Preference Criteria

- A The good is "wholly obtained" in the territory of one or both of the Parties, as referred to in Article 3.1(a).
- B The good is produced entirely in the territory of one or both of the Parties and satisfies the specific rule of origin, set out in Annex 3-A, as referred to in Article 3.1(b).

5. Each Party shall publish or otherwise make available to the public, in print or electronically, its responses, or a summary of its responses, to comments received from the

other Party, no later than the date it publishes the final technical regulation or conformity assessment procedure.

6. Each Party shall, upon request of the other Party, provide information regarding the objectives of, and rationale for, a technical regulation or conformity assessment procedure that the Party has adopted or is proposing to adopt.

7. A Party shall give positive consideration to a reasonable request of the other Party, received prior to the end of the period for comments following the notification of a proposed technical regulation, for extending the period of time between the adoption of the technical regulation and its entry into force, except where this would be ineffective in fulfilling the legitimate objectives pursued.

8. Except in urgent circumstances, the Parties shall allow a reasonable interval² between the publication of technical regulations and their entry into force in order to allow time for producers in the exporting Party to adapt their products or methods of production to the requirements of the importing Party.

9. The Parties shall ensure that all adopted technical regulations and conformity assessment procedures are available on an official website that is freely accessible and publicly available.

ARTICLE 6.8: JOINT COOPERATION

1. The Parties shall strengthen their cooperation in the field of standards, technical regulations, and conformity assessment procedures with a view to increasing the mutual understanding of their respective systems and facilitating access to their respective markets. In particular, the Parties shall seek to identify, develop, and promote trade facilitating initiatives regarding standards, technical regulations, and conformity assessment procedures that are appropriate for particular issues or sectors.

2. These initiatives may include:

- (a) cooperation on regulatory issues, such as transparency, promotion of good regulatory practices, harmonization with international standards, and use of accreditation to qualify conformity assessment bodies;
- (b) technical assistance directed at reaching effective and full compliance with metrology demands arising from this Chapter and the TBT Agreement;
- (c) initiatives to develop common views on good regulatory practices such as transparency, use of equivalency, and regulatory impact assessment; and
- (d) use of mechanisms to facilitate the acceptance of results of conformity assessment procedures conducted in the other Party's territory.

² **Reasonable interval** shall be understood to normally mean a period of not less than six months, except when this would be ineffective in fulfilling the legitimate objectives pursued, in accordance with paragraph 5 of the *Implementation-Related Issues and Concerns*, Decision of 14 November 2001(WT/MIN(01)/17).

3. The cooperation described on this article may be preferably focused on fields such as: (i) auto parts, (ii) textiles, clothing, and design, (iii) cosmetics and hygienic products, and (iv) pharmaceutical products and medical devices. However, upon request, a Party shall give favorable consideration to any sector-specific proposal that the other Party makes for further cooperation under this Chapter.

ARTICLE 6.9: COMMITTEE ON TECHNICAL BARRIERS TO TRADE

1. The Parties hereby establish a Committee on Technical Barriers to Trade (hereinafter referred to as the “Committee”), composed of representatives of each Party.
2. The Committee’s functions shall include:
 - (a) working to facilitate the implementation of this Chapter and cooperation between the Parties in all matters pertaining to this Chapter;
 - (b) monitoring the implementation, enforcement, and administration of this Chapter;
 - (c) promptly addressing any issue that a Party raises related to the development, adoption, application, or enforcement of standards, technical regulations, or conformity assessment procedures;
 - (d) enhancing joint cooperation between the Parties in the areas set out in Article 6.8;
 - (e) facilitating the process for the negotiation of a mutual recognition agreement;
 - (f) exchanging information, upon request of a Party, on standards, technical regulations, and conformity assessment procedures, including the Parties’ respective views regarding non-party issues;
 - (g) exchanging information on developments in non-governmental, regional, and multilateral fora engaged in activities related to standards, technical regulations, and conformity assessment procedures;
 - (h) upon written request of a Party, consulting with the aim of solving any matter arising under this Chapter within a reasonable period of time;
 - (i) reviewing this Chapter in light of any development under the TBT Committee and, if necessary, developing recommendations for amendments to this Chapter;
 - (j) establishing, if necessary to achieve the objectives of this Chapter, issue-specific or sector-specific *ad-hoc* working groups;

- (k) as it considers appropriate, reporting to the Joint Commission on the implementation of this Chapter; and
- (l) taking any other step that the Parties consider will assist them in implementing this Chapter.

3. The Committee shall meet upon request of a Party. Meetings may be conducted in person, or via teleconference, videoconference, or any other means as mutually agreed by the Parties.

4. Where the Parties have had recourse to consultations under paragraph 2(h), the consultations shall, if the Parties agree, constitute consultations under Article 20.4 (Consultations).

5. The authorities set out in paragraph 1 of Annex 6-A shall be responsible for coordinating with the relevant institutions and persons in their respective territories as well as for ensuring that such institutions and persons are engaged. The Committee shall carry out its work through the communication channels agreed by the Parties, which may include electronic mail, teleconferencing, videoconferencing, or other means.

ARTICLE 6.10: INFORMATION EXCHANGE

1. Any information or explanation that a Party provides upon request of the other Party pursuant to this Chapter shall be communicated within a reasonable period, in written form through regular mail or any other means accepted by the Parties, including electronic mail. A Party shall endeavor to respond to each such request within 60 days.

2. Nothing in this Chapter shall be construed to require a Party to furnish any information the disclosure of which it considers is contrary to its essential security interests.

ARTICLE 6.11: DEFINITIONS

For purposes of this Chapter, the terms and definitions of Annex 1 of the TBT Agreement shall apply.

ARTICLE 6.12: BORDER CONTROL AND MARKET SURVEILLANCE

The Parties undertake to:

- (a) exchange information and experiences on their border control and market surveillance activities, except in those cases in which the documentation is confidential; and
- (b) ensure that border control and market surveillance activities are undertaken by the competent authorities, to which end these authorities may use accredited,

designated, or delegated bodies, avoiding conflicts of interest between those bodies and the economic agents subject to control or supervision.

ANNEX 6-A
COMMITTEE AND COORDINATOR ON TECHNICAL BARRIERS TO TRADE

1. For purposes of Article 6.9, the Committee on Technical Barriers to Trade shall be coordinated by:

- (a) for Korea, the *Korean Agency for Technology and Standards*, or its successor; and
- (b) for Colombia, the *Ministry of Trade, Industry and Tourism (Ministerio de Comercio, Industria y Turismo)*, or its successor.

Depending on the issue, responsible ministries or regulatory agencies shall participate in the Committee meetings.

2. For purposes of Article 6.7, the Coordinator on Technical Barriers to Trade shall be:

- (a) for Korea, the *Korean Agency for Technology and Standards*, or its successor; and
- (b) for Colombia, the enquiry point at the Central Registry of Notifications in accordance with the TBT Agreement.

CHAPTER SEVEN TRADE REMEDIES

SECTION A: SAFEGUARD MEASURES

ARTICLE 7.1: APPLICATION OF A SAFEGUARD MEASURE

If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that the imports of such originating good from the other Party constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good, the Party may:

- (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement; or
- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of:
 - (i) MFN applied rate of duty on the good in effect at the time the measure is applied; and
 - (ii) the base rate as specified in the Schedule to Annex 2-A (Elimination of Customs Duties).

ARTICLE 7.2: STANDARDS FOR A SAFEGUARD MEASURE

1. A Party shall notify immediately the other Party in writing upon initiation of an investigation described in paragraph 2 and shall consult with the other Party within 30 days after the initiation of the investigation, with a view to reviewing the information arising from the investigation and exchanging views on the measure.

2. A Party shall apply a safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2 of the Safeguards Agreement, and to this end, Articles 3 and 4.2 of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.

3. Each Party shall ensure that its competent authorities complete any such investigation within one year of its date of initiation.

4. Neither Party shall apply a safeguard measure:

- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;

- (b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years; or
 - (c) beyond the expiration of the transition period.
- 5. Neither Party shall apply a safeguard measure more than once against the same good.
- 6. Where the expected duration of the safeguard measure is over one year, the Party applying a measure shall progressively liberalize it at regular intervals during the period of application.
- 7. When a Party terminates a safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule to Annex 2-A (Elimination of Customs Duties), would have been in effect but for the measure.

ARTICLE 7.3: PROVISIONAL MEASURES

- 1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.
- 2. Before a Party's competent authorities may make a preliminary determination, the Party shall publish a public notice in its official journal setting forth how interested parties, including importers and exporters, may obtain a non-confidential copy of the application requesting a provisional safeguard measure, and shall provide interested parties at least 20 days after the date it publishes the notice to submit evidence and views regarding the application of a provisional measure. A Party shall not apply a provisional measure until at least 45 days after the date its competent authorities initiate an investigation.
- 3. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Article 7.2.2.
- 4. The Party shall promptly refund any tariff increase if the investigation described in Article 7.2.2 does not result in a finding that the requirements of Article 7.1 are met. The duration of any provisional measure shall be counted as part of the period described in Article 7.2.4(b).

ARTICLE 7.4: COMPENSATION

1. No later than 30 days after it applies a bilateral safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.
2. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating good the bilateral safeguard measure is applied may suspend the application of substantially equivalent concessions with respect to originating goods of the Party applying the safeguard measure.
3. The right of suspension referred to in paragraph 2 shall not be exercised for the first two years during which a bilateral safeguard measure is in effect, provided that the safeguard measure has been taken as a result of an absolute increase in imports and that such measure conforms to this Agreement.

ARTICLE 7.5: GLOBAL SAFEGUARD MEASURES

1. Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to measures taken under Article XIX of the GATT 1994 and the Safeguards Agreement, except that a Party taking a global safeguard measure may exclude imports of an originating good of the other Party if such imports are not a substantial cause of serious injury or threat thereof.
2. Neither Party shall apply, with respect to the same good, at the same time:
 - (a) a safeguard measure; and
 - (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.
3. The provisions of this Article shall not be subject to Chapter 20 (Dispute Settlement), except for paragraph 2.

ARTICLE 7.6: DEFINITIONS

For purposes of Section A:

competent authority means

- (a) for Korea, the *Korea Trade Commission*, or its successor; and
- (b) for Colombia, the *Ministry of Trade, Industry and Tourism (Ministerio de Comercio, Industria y Turismo)*, or its successor;

domestic industry means, with respect to an imported good, the producers as a whole of the like or directly competitive good operating in the territory of a Party, or those whose

collective output of the like or directly competitive good constitutes a major proportion of the total domestic production of that good;

global safeguard measure means a measure applied under Article XIX of the GATT 1994 and the Safeguards Agreement;

safeguard measure means a measure described in Article 7.1;

serious injury means a significant overall impairment in the position of a domestic industry;

substantial cause means a cause that is important and not less than any other cause;

threat of serious injury means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

transition period means the ten-year period following the date this Agreement enters into force, except that for any good for which the Schedule to Annex 2-A (Elimination of Customs Duties) of the Party applying the safeguard measure provides for the Party to eliminate its tariffs on the good over a period of more than ten years, **transition period** means the tariff elimination period for the good set out in that Schedule.

SECTION B: ANTI-DUMPING AND COUNTERVAILING MEASURES

ARTICLE 7.7: ANTI-DUMPING AND COUNTERVAILING MEASURES

1. Except as otherwise provided for in this Agreement, each Party retains its rights and obligations under Article VI of the GATT 1994, the AD Agreement, and the SCM Agreement, with regard to the application of anti-dumping and countervailing measures.

2. The Parties shall endeavor to observe the following practices in anti-dumping or countervailing cases between them in order to enhance transparency in the implementation of the WTO Agreement:

- (a) when anti-dumping margins are established, assessed, or reviewed under Articles 2, 9.3, 9.5, and 11 of the AD Agreement regardless of the comparison bases under Article 2.4.2 of the AD Agreement, all individual margins, whether positive or negative, should be counted toward the average; and
- (b) if a decision is taken to impose an anti-dumping duty pursuant to Article 9.1 of the AD Agreement, the Party taking such a decision should apply the 'lesser duty' rule, by imposing a duty which is less than the dumping margin where such lesser duty would be adequate to remove the injury to the domestic industry.

ARTICLE 7.8: NOTIFICATION AND CONSULTATIONS

1. (a) Upon receipt by a Party's competent authorities of a properly documented anti-dumping application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other Party a meeting or other similar opportunities regarding the application, consistent with the laws of the Party. Such a meeting or similar opportunities shall not interfere with a Party's procedures towards the initiation of an anti-dumping investigation.
- (b) Where a Party's authorities have made a preliminary affirmative determination of dumping and injury caused by such dumping, the Party shall afford due consideration, and adequate opportunity for consultations, to exporters of the other Party, regarding proposed price undertakings which, if accepted, may result in suspension of the investigation without imposition of anti-dumping duties, through the means provided for in the laws and procedures of the Party.
2. (a) Upon receipt by a Party's competent authorities of a properly documented countervailing duty application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other Party a meeting to consult with its competent authorities regarding the application.
- (b) Where a Party's authorities have made a preliminary affirmative determination of subsidization and injury caused by such subsidization, the Party shall afford due consideration, and adequate opportunity for consultations, to the other Party and exporters of the other Party, regarding proposed price undertakings, which, if accepted, may result in suspension of the investigation without imposition of countervailing duties, through the means provided for in the laws and procedures of the Party.

ARTICLE 7.9: DISPUTE SETTLEMENT

The provisions of this Section shall not be subject to Chapter 20 (Dispute Settlement), except for Article 7.7.2 and Article 7.8.

CHAPTER EIGHT INVESTMENT

SECTION A: INVESTMENT

ARTICLE 8.1: SCOPE¹

1. This Chapter shall apply to measures adopted or maintained by a Party related to:
 - (a) investors of the other Party;
 - (b) covered investments; and
 - (c) with respect to Articles 8.9 and 8.11, all investments in the territory of the Party.
2. For greater certainty, this Chapter shall not bind either Party in relation to any act or fact that took place or any situation that ceased to exist before the date of entry into force of this Agreement.
3. For purposes of this Chapter, **measures adopted or maintained by a Party** means measures adopted or maintained by:
 - (a) central or local governments and authorities; and
 - (b) non-governmental bodies in the exercise of powers delegated by central or local governments or authorities.
4. This Chapter shall not apply to measures adopted or maintained by a Party related to investors of the other Party, and investments of such investors, in financial institutions in the Party's territory.
5. This Chapter shall not apply to services supplied in the exercise of governmental authority in a Party's territory. A **service supplied in the exercise of governmental authority** means any service which is supplied neither on a commercial basis, nor in competition with one or more service suppliers.

ARTICLE 8.2: RELATION TO OTHER CHAPTERS

1. In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of the inconsistency.

¹ For greater certainty, nothing in this Chapter shall be construed to impose an obligation on a Party to privatize any investment that it owns or controls or to prevent a Party from designating a monopoly.

2. A requirement by a Party that a service supplier of the other Party post a bond or other form of financial security as a condition of the cross-border supply of a service into its territory does not of itself make this Chapter applicable to measures adopted or maintained by the Party relating to such cross-border supply of the service. This Chapter shall apply to measures adopted or maintained by the Party relating to the posted bond or financial security, to the extent that such bond or financial security is a covered investment.

ARTICLE 8.3: NATIONAL TREATMENT

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

ARTICLE 8.4: MOST-FAVORED-NATION TREATMENT²

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

ARTICLE 8.5: MINIMUM STANDARD OF TREATMENT³

1. Each Party shall accord to covered investments treatment in accordance with customary international law, including fair and equitable treatment and full protection and security.

2. For greater certainty, paragraph 1 prescribes the customary international law minimum standard of treatment of aliens as the minimum standard of treatment to be afforded to covered investments. The concepts of “fair and equitable treatment” and “full protection and security” do not require treatment in addition to or beyond that which is required by that

² For greater certainty, Article 8.4 shall not apply to investor-state dispute settlement mechanisms such as those set out in Section B (Investor-State Dispute Settlement).

³ Article 8.5 shall be interpreted in accordance with Annex 8-A.

standard, and do not create additional substantive rights. The obligation in paragraph 1 to provide:

- (a) “fair and equitable treatment” includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings in accordance with the principle of due process embodied in the principal legal systems of the world; and
- (b) “full protection and security” requires each Party to provide the level of police protection required under customary international law.

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

ARTICLE 8.6: LOSSES AND COMPENSATION

1. Notwithstanding Article 8.13.5(b), each Party shall accord to investors of the other Party, and to covered investments, non-discriminatory treatment with respect to measures it adopts or maintains related to losses suffered by investments in its territory owing to armed conflict or civil strife.

2. Notwithstanding paragraph 1, if an investor of a Party, in the situations referred to in paragraph 1, suffers a loss in the territory of the other Party resulting from:

- (a) requisitioning of its covered investment or part thereof by the latter’s forces or authorities; or
- (b) destruction of its covered investment or part thereof by the latter’s forces or authorities, which was not caused in combat action or was not required by the necessity of the situation,

the latter Party shall provide the investor restitution, compensation, or both, as appropriate, for such loss. Any compensation shall be prompt, adequate, and effective in accordance with Articles 8.7.2 through 8.7.4, *mutatis mutandis*.

3. Paragraph 1 shall not apply to existing measures related to subsidies or grants that would be inconsistent with Article 8.3 but for Article 8.13.5(b).

ARTICLE 8.7: EXPROPRIATION AND COMPENSATION⁴

1. Neither Party may expropriate or nationalize a covered investment either directly or indirectly through measures equivalent to expropriation or nationalization (expropriation), except:

⁴ Article 8.7 shall be interpreted in accordance with Annexes 8-A and 8-B.

- (a) for a public purpose⁵;
 - (b) in a non-discriminatory manner;
 - (c) on payment of prompt, adequate, and effective compensation; and
 - (d) in accordance with the principle of due process of law embodied in the principal legal systems of the world.
2. The compensation referred to in paragraph 1(c) shall:
- (a) be paid without undue delay;
 - (b) be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place (hereinafter referred to as the “date of expropriation”);
 - (c) not reflect any change in value occurring because the intended expropriation had become known earlier; and
 - (d) be fully realizable and freely transferable.
3. If the fair market value is denominated in a freely usable currency, the compensation referred to in paragraph 1(c) shall be no less than the fair market value on the date of expropriation, plus interest at a commercially reasonable rate for that currency, accrued from the date of expropriation until the date of payment.
4. If the fair market value is denominated in a currency that is not freely usable, the compensation referred to in paragraph 1(c) – converted into the currency of payment at the market rate of exchange prevailing on the date of payment – shall be no less than:
- (a) the fair market value on the date of expropriation, converted into a freely usable currency at the market rate of exchange prevailing on that date, plus
 - (b) interest, at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation until the date of payment.
5. This Article does not apply to the issuance of compulsory licenses granted in relation to intellectual property rights in accordance with the TRIPS Agreement, or to the revocation, limitation, or creation of intellectual property rights, to the extent that such issuance, revocation, limitation, or creation is consistent with Chapter 15 (Intellectual Property Rights).

⁵ The term “public purpose” is a concept of public international law and shall be interpreted in accordance with international law. Domestic law may express this or a similar concept using different terms, such as “social interest,” “public necessity,” or “public use.”

ARTICLE 8.8: TRANSFERS⁶

1. Each Party shall permit all transfers related to a covered investment to be made freely, and without undue delay, into and out of its territory. Such transfers include:

- (a) contributions to capital, including the initial contribution;
- (b) profits, dividends, capital gains, and proceeds from the sale of all or any part of the covered investment or from the partial or complete liquidation of the covered investment;
- (c) interest, royalty payments, management fees, and technical assistance and other fees;
- (d) payments made under a contract, including a loan agreement;
- (e) payments made pursuant to Articles 8.6.1 and 8.6.2 and Article 8.7; and
- (f) payments arising out of a dispute.

2. Each Party shall permit transfers related to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Each Party shall permit returns in kind related to a covered investment to be made as authorized or specified in a written agreement between the Party and a covered investment or an investor of the other Party.

4. Notwithstanding paragraphs 1 through 3, a Party may prevent a transfer through the equitable, non-discriminatory, and good faith application of its laws related to:

- (a) bankruptcy, insolvency, or the protection of the rights of creditors;
- (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
- (c) criminal or penal offenses;
- (d) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities; or
- (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

ARTICLE 8.9: PERFORMANCE REQUIREMENTS

1. Neither Party may, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory

⁶ For greater certainty, Annex 8-C shall apply to Article 8.8.

of an investor of a Party or of a non-Party, impose or enforce any requirement or enforce any commitment or undertaking⁷:

- (a) to export a given level or percentage of goods or services;
- (b) to achieve a given level or percentage of domestic content;
- (c) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;
- (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment;
- (e) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings;
- (f) to transfer a particular technology, a production process, or other proprietary knowledge to a person in its territory; or
- (g) to supply exclusively from the territory of the Party the goods that such investment produces or the services that it supplies to a specific regional market or to the world market.

2. Neither Party may condition the receipt or continued receipt of an advantage, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party, on compliance with any requirement:

- (a) to achieve a given level or percentage of domestic content;
- (b) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;
- (c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment; or
- (d) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings.

3. (a) Nothing in paragraph 2 shall be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, in connection with an

investment in its territory of an investor of a Party or of a non-Party, on compliance with a requirement to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory⁸.

- (b) Paragraph 1(f) shall not apply:
 - (i) when a Party authorizes use of an intellectual property right in accordance with Article 31 of the TRIPS Agreement, or to measures requiring the disclosure of proprietary information that fall within the scope of, and are consistent with, Article 39 of the TRIPS Agreement; or
 - (ii) when the requirement is imposed or the commitment or undertaking is enforced by a court, administrative tribunal, or competition authority to remedy a practice determined after judicial or administrative process to be anticompetitive under the Party's competition laws⁹.
- (c) Provided that such measures are not applied in an arbitrary or unjustifiable manner, and provided that such measures do not constitute a disguised restriction on international trade or investment, paragraphs 1(b), (c), and (f), and 2(a) and (b), shall not be construed to prevent a Party from adopting or maintaining measures, including environmental measures:
 - (i) necessary to secure compliance with laws and regulations that are not inconsistent with this Agreement;
 - (ii) necessary to protect human, animal, or plant life or health; or
 - (iii) related to the conservation of living or non-living exhaustible natural resources.
- (d) Paragraphs 1(a), (b), and (c), and 2(a) and (b), shall not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programs.
- (e) Paragraphs 1(b), (c), (f), and (g), and 2(a) and (b), shall not apply to government procurement.
- (f) Paragraphs 2(a) and (b) shall not apply to requirements imposed by an importing Party related to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

⁸ For greater certainty, nothing in paragraph 1 shall be construed to prevent a Party, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory, from imposing or enforcing a requirement or enforcing a commitment or undertaking to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory, provided that such activity is consistent with paragraph 1(f).

⁹ The Parties recognize that a patent does not necessarily confer market power.

4. For greater certainty, paragraphs 1 and 2 shall not apply to any commitment, undertaking, or requirement other than those set out in those paragraphs.

5. This Article shall not preclude enforcement of any commitment, undertaking, or requirement between private parties, where a Party did not impose or require the commitment, undertaking, or requirement. For purposes of this Article, private parties include designated monopolies or state enterprises, where such entities are not exercising delegated governmental authority.

ARTICLE 8.10: SENIOR MANAGEMENT AND BOARDS OF DIRECTORS

1. Neither Party may require that an enterprise of that Party that is a covered investment appoint to senior management positions natural persons of any particular nationality.

2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment, be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

ARTICLE 8.11: INVESTMENT AND ENVIRONMENT

Nothing in this Chapter shall be construed to prevent a Party from adopting, maintaining, or enforcing any measure otherwise consistent with this Chapter that it considers appropriate to ensure that investment activity in its territory is undertaken in a manner sensitive to environmental concerns.

ARTICLE 8.12: DENIAL OF BENEFITS

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if:

- (a) persons of a non-Party own or control the enterprise; and
- (b) the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.

2. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if the enterprise has no substantial business activities in the territory of the other Party and persons of a non-Party, or of the denying Party, own or control the enterprise. If, before denying the benefits of this Chapter, the denying Party knows that the enterprise has no substantial business activities in the territory of the other Party and that persons of a non-Party, or of the denying Party, own or control the enterprise, the denying Party shall, to the extent practicable, notify the other

Party before denying the benefits. If the denying Party provides such notice, it shall consult with the other Party at the request of the other Party.

ARTICLE 8.13: NON-CONFORMING MEASURES

1. Articles 8.3, 8.4, 8.9, and 8.10 shall not apply to:
 - (a) any existing non-conforming measure that is maintained by a Party at:
 - (i) the central level of government, as set out by that Party in its Schedule to Annex I; or
 - (ii) a local level of government^{10 11};
 - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
 - (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 8.3, 8.4, 8.9, or 8.10.
2. Articles 8.3, 8.4, 8.9, and 8.10 shall not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in its Schedule to Annex II.
3. Neither Party may, under any measure adopted after the date of entry into force of this Agreement and covered by its Schedule to Annex II, require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.
4. Articles 8.3 and 8.4 shall not apply to any measure that is an exception to, or derogation from, the obligations under Article 15.4.2 (Basic Principles) as specifically provided in that Article.
5. Articles 8.3, 8.4, and 8.10 shall not apply to:
 - (a) government procurement; or
 - (b) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance.

ARTICLE 8.14: SPECIAL FORMALITIES AND INFORMATION REQUIREMENTS

¹⁰ For Korea, **local level of government** means a local government as defined in the *Local Autonomy Act*.

¹¹ For greater certainty, for Colombia the *Departamentos* are part of the local level of government.

1. Nothing in Article 8.3 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with covered investments, such as a requirement that covered investments be legally constituted under its laws or regulations, provided that such formalities do not materially impair the protections afforded by the Party to investors of the other Party and covered investments pursuant to this Chapter.

2. Notwithstanding Articles 8.3 and 8.4, a Party may require an investor of the other Party or its covered investment to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect any confidential business information from any disclosure that would prejudice the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

ARTICLE 8.15: SUBROGATION

1. Where a Party or a designated agency of a Party makes a payment to any of its investors under a guarantee, a contract of insurance, or other form of indemnity, against non-commercial risks it has granted in respect of an investment of an investor of that Party, the other Party shall recognize the subrogation of any right or claim in respect of such investment.

2. Where a Party or the agency authorized by that Party has made a payment to its investor and has taken over rights and claims of the investor, that investor shall not, unless authorized to act on behalf of the Party or agency authorized by the Party making the payment, pursue those rights and claims against the other Party.

SECTION B: INVESTOR-STATE DISPUTE SETTLEMENT

ARTICLE 8.16: SETTLEMENT OF INVESTMENT DISPUTES BETWEEN A PARTY AND AN INVESTOR OF THE OTHER PARTY

1. This Section shall apply to disputes between a Party and an investor of the other Party concerning an alleged breach by the former Party of an obligation under Section A, provided that such breach causes loss or damage to the investor or its investments.

2. An investor of a Party may not, under this Section, submit a claim to arbitration, concerning the breach of the other Party's obligations under Articles 8.2, 8.11, and 8.14.1.

3. The Parties shall refrain from pursuing through diplomatic channels matters related to disputes between a Party and an investor of the other Party, submitted to court proceedings or international arbitration in accordance with the provisions of this Section, unless one of the disputing parties has failed to comply with the court decision or arbitral award, under the terms established in the respective decision or arbitral award.

ARTICLE 8.17: CONSULTATION AND NEGOTIATION

1. Any dispute arising in accordance with Article 8.16.1 shall be settled, to the extent possible, by consultation and negotiation and shall be notified by submitting a notice of the dispute (notice of dispute) in writing, including detailed information of the factual and legal basis, by the investor to the Party receiving the investment. The claimant must deliver evidence, establishing that he or she is an investor of the other Party with its notice of dispute.
2. Nothing in this Section shall be construed as to prevent the disputing parties from referring their dispute, by mutual agreement, to *ad hoc* or institutional mediation or conciliation before or during an arbitral proceeding.

ARTICLE 8.18: SUBMISSION OF A CLAIM

1. If the dispute has not been settled within eight months from the date of notice of dispute, a claim may be submitted, at the discretion of the investor, to:
 - (a) any competent court or administrative tribunal of the Party to the dispute; or
 - (b) arbitration in accordance with this Section under:
 - (i) the ICSID Convention, if the ICSID Convention is available;
 - (ii) the ICSID Additional Facility Rules, if the ICSID Additional Facility Rules are available;
 - (iii) the UNCITRAL Arbitration Rules; or
 - (iv) if agreed by both parties to the dispute, any other arbitration institution or any other arbitration rules.
2. The respondent may require the claimant to initiate the domestic non-judicial administrative review procedure, in accordance with applicable laws and regulations of the respondent before submission of a claim for settlement under paragraph 1(b)¹².
3. The claimant may only submit a claim to arbitration if the term established in paragraph 1 has elapsed, and if the claimant has delivered to the respondent, at least 90 days before the claim to arbitration is submitted, a written notice of its intention to submit a claim to arbitration (notice of intent). Such a notice shall specify:
 - (a) the name and address of the claimant and its investment;
 - (b) the provisions of this Chapter alleged to have been breached and any other related provisions;

¹² Such procedure shall normally not exceed three months from the date of its initiation by the claimant and any decision made under the domestic administrative review procedure shall not prevent the claimant from submitting the investment dispute to the arbitration set out in paragraph 1.

- (c) the legal and factual basis for the claim; and
- (d) the relief sought, including the approximate amount of any damages claimed.

4. Once the investor has submitted the dispute to either a competent court or administrative tribunal of the Party, in whose territory the investment has been admitted, or any of the arbitration mechanisms set out in paragraph 1, the choice of the procedure shall be final and the investor shall not submit the same dispute to a different forum.

ARTICLE 8.19: CONSENT OF EACH PARTY TO ARBITRATION

Each Party hereby gives irrevocable consent to the submission of a dispute to international arbitration established in Article 8.18.1(b), in accordance with the procedures set out in this Agreement. The consent and the submission of a claim to arbitration under this Section shall satisfy the requirements of:

- (a) Chapter II (Jurisdiction of the Centre) of the ICSID Convention and the ICSID Additional Facility Rules with regards to the written consent of the parties to the dispute; and
- (b) Article II of the New York Convention for an “agreement in writing.”

ARTICLE 8.20: CONDITIONS AND LIMITATIONS ON CONSENT OF EACH PARTY

1. No claim may be submitted to arbitration under this Section if more than three years and six months have elapsed from the date the claimant first acquired, or should have first acquired, knowledge of the events which gave rise to the dispute and of the alleged losses and damages incurred by the claimant or its investment.
2. The seeking of interim injunctive relief not involving the payment of monetary damages, before judicial or administrative tribunals of the respondent, by the claimant for the preservation of its rights and interests pending resolution of the dispute, is not deemed to be a submission of the dispute for resolution for purposes of Article 8.18.4, and is permissible in arbitration under any of the provisions of Article 8.18.1(b).

ARTICLE 8.21: CONSTITUTION OF AN ARBITRAL TRIBUNAL

1. Unless the disputing parties otherwise agree, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties. If a tribunal has not been constituted within the terms established under the applicable arbitration rules from the date a claim is submitted to arbitration under this Section, the Secretary-General, on the request of a disputing party, shall appoint, in his or her discretion, after consulting the disputing parties, the arbitrator or arbitrators not yet appointed. The Secretary-General shall not appoint a national of either Party as the presiding arbitrator.

2. The arbitrators shall:

- (a) have experience or expertise in public international law, international investment rules, or in dispute settlement derived from international investment agreements; and
- (b) be independent from the Parties and the claimant, and not be affiliated with or receive instructions from any of them.

3. The decision on any proposal by a disputing party to disqualify an arbitrator shall be taken by the Secretary-General. If it is decided that the disqualification proposal is well-founded the arbitrator shall be replaced.

4. The disputing parties may agree on the fees to be paid to the arbitrators. If the disputing parties do not reach an agreement on the fees to be paid to the arbitrators before the constitution of the tribunal, the fees established for arbitrators by ICSID shall apply.

ARTICLE 8.22: CONDUCT OF THE ARBITRATION

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 8.18.1(b). If the disputing parties fail to reach an agreement, the tribunal shall determine the place in accordance with the applicable arbitral rules, provided that the place shall be in the territory of a State that is a party to the New York Convention.

2. Before ruling on the merits, the tribunal shall address and decide the preliminary questions that a dispute is not within the tribunal's competence or jurisdiction, or that, as a matter of law, a claim submitted is not a claim for which an award in favor of the claimant may be made under Article 8.26. When deciding on the objection of the respondent, the tribunal shall rule on the costs and attorney's fees incurred during the proceedings, considering whether or not the objection prevailed. The tribunal shall consider whether either the claim of the claimant or the objection of the respondent was frivolous, and shall provide the disputing parties a reasonable opportunity to comment. In the event of a frivolous claim or objection, the tribunal shall award costs and attorney's fees to the prevailing disputing party.

3. A respondent shall not assert as a defense, counter-claim, or right of set-off, or for any other reason, that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an indemnity, guarantee, or insurance contract, except with respect to any subrogation as provided for under Article 8.15.

4. In any arbitration conducted under this Section, at the request of a disputing party, the tribunal shall, before issuing a decision or award on liability, provide its draft decision or award to the disputing parties. Within 60 days thereafter, the disputing parties may submit written comments to the tribunal concerning any aspect of the draft decision or award. The tribunal shall consider any such comments and issue its decision or award no later than 45 days after the 60-day comment period expires.

ARTICLE 8.23: GOVERNING LAW

The dispute settlement mechanisms provided in this Section will be based on the provisions of this Agreement and applicable rules of international law.

ARTICLE 8.24: EXPERT REPORTS

Without prejudice to the designation of other kinds of experts as authorized by the applicable arbitration rule, a tribunal, at the request of a disputing party or on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning environmental, health, safety, or other scientific matters raised by a disputing party in a proceeding, subject to the terms and conditions agreed by the disputing parties.

ARTICLE 8.25: CONSOLIDATION

1. Where two or more claims have been submitted separately to arbitration under this Section, and the claims raised have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order, in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms set forth in paragraphs 2 through 10.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order, specifying:

- (a) the names and addresses of all the disputing parties sought to be covered by the order;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

3. Unless the Secretary-General finds within 30 days after receiving a request in conformity with paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.

4. Unless all the disputing parties sought to be covered by the consolidation order otherwise agree, the tribunal established under this Article shall comprise three arbitrators:

- (a) one arbitrator appointed by agreement of the claimants;
- (b) one arbitrator appointed by the respondent; and
- (c) the presiding arbitrator appointed by the Secretary-General, provided, however, that the presiding arbitrator shall not be a national of either Party.

5. If, within 60 days after the Secretary-General receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the Secretary-General, on request of any disputing party sought to be covered by the order, shall appoint the arbitrator or arbitrators not yet appointed. If the respondent fails to appoint an arbitrator, the Secretary-General shall appoint a national of the respondent, and if the claimants fail to appoint an arbitrator, the Secretary-General shall appoint a national of the non-disputing Party.

6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration in accordance with Article 8.18 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

- (a) assume jurisdiction over, and hear and determine together, all or part of the claims;
- (b) assume jurisdiction over, and hear and determine one or more claims, the determination of which it considers would assist in the resolution of the other claims; or
- (c) instruct a tribunal previously established under Article 8.21 to assume jurisdiction over, and hear and determine together, all or part of the claims, provided that:
 - (i) that tribunal, at the request of any claimant not previously a disputing party before that tribunal, shall be reconstituted with its original members, except that the arbitrator for the claimants shall be appointed pursuant to paragraphs 4 (a) and 5; and
 - (ii) that tribunal shall decide whether any previous hearing must be repeated.

7. Where a tribunal has been established under this Article, a claimant that has submitted a claim to arbitration pursuant to Article 8.18 and that has not been named in a request made under paragraph 2 may make a written request to the tribunal that it be included in any order issued under paragraph 6, specifying:

- (a) the name and address of the claimant;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

The claimant shall provide the Secretary-General and the respondent with a copy of its request.

8. A tribunal established pursuant to this Article shall conduct the proceedings in accordance with the UNCITRAL Arbitration Rules, except as modified by this Section.

9. A tribunal established under Article 8.21 shall not have jurisdiction to decide a claim, or a part of a claim, over which a tribunal established or instructed under this Article has assumed jurisdiction.

10. On application of a disputing party, a tribunal established pursuant to this Article, pending its decision under paragraph 6, may order that the proceedings of a tribunal established under Article 8.21 be stayed, unless the latter tribunal has already adjourned its proceedings.

ARTICLE 8.26: AWARDS

1. A tribunal, in its award, shall set out its findings of law and fact, together with the reasons for its ruling, and may, at the request of the claimant, award the following forms of relief:

- (a) a declaration that the respondent has failed to comply with its obligations under this Agreement;
- (b) pecuniary compensation, which shall include applicable interest from the time the loss or damage was incurred until the payment was made;
- (c) restitution in kind as appropriate, in which case the award shall provide that the respondent may pay pecuniary compensation in lieu of restitution where the restitution is not practicable; and
- (d) with the agreement of the disputing parties, any other form of relief.

2. A tribunal may not award punitive damages.

3. A tribunal shall not be competent to rule on the legality of the measure as a matter of domestic law.

4. A tribunal shall be competent to rule on the consistency of the measures at issue with this Agreement and international law. For greater certainty, this shall not preclude any disputing party from submitting, as a matter of fact, evidence related to the legality of a measure under domestic law.

5. Arbitration awards shall be final and binding for the disputing parties, and each Party shall provide for the enforcement of an award in its territory. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.

6. A disputing party may not request enforcement of the final award until:

- (a) in the case the final award was issued under the ICSID Convention,

- (i) 120 days have elapsed since the date the award was rendered and no disputing party has requested revision or annulment of the award; or
 - (ii) the proceedings of revision or annulment have been completed; and
- (b) in the case the final award was issued under the ICSID Additional Facility Rules, the UNCITRAL Arbitration Rules, or the rules selected in accordance with Article 8.18.1.(b)(iv),
 - (i) 90 days have elapsed since the date the award was rendered and no disputing party has commenced a proceeding to revise, set-aside, or annul the award; or
 - (ii) a court has dismissed or admitted an application to revise, set-aside, or annul the award, and there is no further appeal.

ARTICLE 8.27: SERVICE OF DOCUMENTS

Delivery of the notice of intent and other documents to a Party shall be made in the place designated by that Party in Annex 8-D.

SECTION C: DEFINITIONS

ARTICLE 8.28: DEFINITIONS

For purposes of this Chapter:

claimant means an investor of a Party that is a party to an investment dispute with the other Party;

disputing parties means the claimant and the respondent;

disputing party means either the claimant or the respondent;

enterprise means an enterprise as defined in Article 1.3 (Definitions), and a branch of an enterprise;

enterprise of a Party means an enterprise constituted or organized under the law of a Party, and a branch located in the territory of a Party and carrying out business activities there;

ICSID means the International Centre for Settlement of Investment Disputes (ICSID) established by the ICSID Convention;

ICSID Additional Facility Rules means the *Rules Governing the Additional Facility for the Administration of Proceedings by the Secretariat of the International Centre for Settlement of Investment Disputes*;

ICSID Convention means the *Convention on the Settlement of Investment Disputes between States and Nationals of Other States*, done at Washington, March 18, 1965;

investment means every asset that an investor owns or controls, directly or indirectly, that has the characteristics of an investment, including such characteristics as the commitment of capital or other resources, the expectation of gain or profit, or the assumption of risk. Forms that an investment may take include:

- (a) an enterprise;
- (b) shares, stock, and other forms of equity participation in an enterprise;
- (c) bonds, debentures, other debt instruments, and loans¹³;
- (d) futures, options, and other derivatives;
- (e) turnkey, construction, management, production, concession, revenue-sharing, and other similar contracts;
- (f) intellectual property rights;
- (g) licenses, authorizations, permits, and similar rights conferred pursuant to domestic law^{14 15}; and
- (h) other tangible or intangible, movable or immovable property, and related property rights, such as leases, mortgages, liens, and pledges¹⁶.

But **investment** does **not** mean:

- (a) public debt operations¹⁷;

¹³ Some forms of debt, such as bonds, debentures, and long-term notes, are more likely to have the characteristics of an investment, while other forms of debt are less likely to have such characteristics.

¹⁴ Whether a particular type of license, authorization, permit, or similar instrument (including a concession, to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the law of the Party. Among the licenses, authorizations, permits, and similar instruments that do not have the characteristics of an investment are those that do not create any rights protected under domestic law. For greater certainty, the foregoing is without prejudice to whether any asset associated with the license, authorization, permit, or similar instrument has the characteristics of an investment.

¹⁵ The term “investment” does not include an order or judgment entered in a judicial or administrative action.

¹⁶ For greater certainty, market share, market access, expected gains, and opportunities for profit-making are not, by themselves, investments.

¹⁷ Notwithstanding, public debt operations are subject to Articles 8.3 and 8.4. No award may be made in favor of a claimant for a claim under Article 8.18 with respect to default or non-payment of public debt operations, unless the claimant meets its burden of proving that such default or non-payment constitutes a breach of obligation under Article 8.3 or 8.4.

- (b) claims to money that arise solely from:
 - (i) commercial contracts for the sale of goods or services by a national or enterprise in the territory of a Party to an enterprise in the territory of the other Party;
 - (ii) the extension of credit in connection with a commercial transaction, such as trade financing; or
 - (iii) an order entered in a judicial or administrative action;

investor of a non-Party means, with respect to a Party, an investor that attempts to make, is making, or has made an investment in the territory of that Party, that is not an investor of either Party;

investor of a Party means a Party or state enterprise thereof, or a national or an enterprise of a Party, that attempts to make¹⁸, is making, or has made an investment in the territory of the other Party; provided, however, that a natural person who is a dual national shall be deemed to be exclusively a national of the State of his or her dominant and effective nationality;

New York Convention means the *United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards*, done at New York, June 10, 1958;

non-disputing Party means the Party that is not a party to an investment dispute;

respondent means the Party that is a party to an investment dispute;

Secretary-General means the Secretary-General of ICSID; and

UNCITRAL Arbitration Rules means the arbitration rules of the United Nations Commission on International Trade Law.

For greater certainty, a claim under Article 8.18 for breach of obligations under Article 8.3 or 8.4 with respect to default or non-payment of public debt operations shall be solely based in breach of obligations under such articles and shall not be based in breach of obligations under any other article of Section A such as Article 8.7.

¹⁸ For greater certainty, it is understood that an investor “attempts to make an investment” only when the investor has taken concrete steps necessary to make the said investment, such as when the investor has duly filed an application for a permit or a license required to make an investment or has obtained the financing providing it with the funds to set up the investment.

ANNEX 8-A
CUSTOMARY INTERNATIONAL LAW

The Parties confirm their shared understanding that “customary international law”, generally and as specifically referenced in Article 8.5, results from a general and consistent practice of States that they follow from a sense of legal obligation. With regard to Article 8.5, the customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the economic rights and interests of aliens.

ANNEX 8-B

EXPROPRIATION

The Parties confirm their shared understanding that:

1. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right in an investment.
2. Article 8.7.1 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.
3. The second situation addressed by Article 8.7.1 is indirect expropriation, where an action or a series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.
 - (a) The determination of whether an action or a series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers all relevant factors related to the investment, including:
 - (i) the economic impact of the government action, although the fact that an action or a series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
 - (ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations¹⁹; and
 - (iii) the character of the government action, including its objectives and context. Relevant considerations could include whether the investor bears a disproportionate burden²⁰ that exceeds what the investor or investment should be expected to endure for the public interest.
 - (b) Except in rare circumstances, such as, for example, when an action or a series of actions is extremely severe or disproportionate in light of its purpose or effect, non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, the environment, and real estate price stabilization (through, for

¹⁹ For greater certainty, whether an investor's investment-backed expectations are reasonable depends in part on the nature and extent of governmental regulation in the relevant sector. For example, an investor's expectations that regulations will not change are less likely to be reasonable in a heavily regulated sector than in a less heavily regulated sector or whether at the time the investment was made the host Party had particular regulatory power over the relevant sector can be considered.

²⁰ In the case of the government action taken by Korea, whether a special sacrifice has been imposed on the particular investor or investment will be put into consideration.

example, measures to improve the housing conditions for low-income households), do not constitute indirect expropriations²¹.

²¹ For greater certainty, the list of “legitimate public welfare objectives” in subparagraph (b) is not exhaustive.

ANNEX 8-C TRANSFERS

1. Nothing in this Agreement shall be construed to prevent a Party from adopting or maintaining temporary safeguard measures pursuant to the Party's laws and regulations with regard to payments and capital movements:

- (a) in the event of serious balance of payments or external financial difficulties or threat thereof; or
- (b) where, in exceptional circumstances, payments and capital movements cause or threaten to cause serious difficulties for the operation of monetary policy or exchange rate policy in either Party.

2. The measures referred to in paragraph 1 shall:

- (a) not exceed a period of one year; however, under exceptional circumstances and for justified reasons a Party may extend the period for application of such measures for an additional year. The Party seeking an extension shall notify in advance to the other Party of such extension;
- (b) be consistent with the *Articles of Agreement of the International Monetary Fund*;
- (c) not exceed those necessary to deal with the circumstances described in paragraph 1;
- (d) be temporary and phased out progressively as the situation described in paragraph 1 improves;
- (e) not be confiscatory;
- (f) promptly be notified to the other Party;
- (g) be applied on a national treatment basis;
- (h) ensure that the other Party is treated as favorably as any non-Party;
- (i) not constitute a dual or multiple exchange rate practice;
- (j) not restrict payments or transfers for current transactions, unless the imposition of such measures complies with the procedures stipulated in the *Articles of Agreement of the International Monetary Fund*; and

- (k) not restrict outward payments or transfers associated with foreign direct investment²².

3. For the purpose of the present Annex, **foreign direct investment** means an investment of an investor of a Party other than a foreign credit, made in order to:

- (a) establish an enterprise in or increase the capital of an existing enterprise of the other Party; or
- (b) acquire equity of an existing enterprise of the other Party, but excludes such an investment that is of a purely financial character and is designed only to gain indirect access to the financial market of the other Party.

²² For greater certainty, the Parties may exercise any controls on inward capital transfers as are necessary to regulate international capital movements in accordance with the *Articles of Agreement of the International Monetary Fund*. Such measures may include controls, such as an obligation to deposit part of the amount of such transactions.

CHAPTER NINE CROSS-BORDER TRADE IN SERVICES

ARTICLE 9.1: SCOPE

1. This Chapter shall apply to measures adopted or maintained by a Party affecting cross-border trade in services by service suppliers of the other Party. Such measures include measures affecting:

- (a) the production, distribution, marketing, sale, and delivery of a service;
- (b) the purchase or use of, or payment for, a service;
- (c) the access to and use of distribution, transport, or telecommunications networks and services in connection with the supply of a service;
- (d) the presence in its territory of a service supplier of the other Party; and
- (e) the provision of a bond or other form of financial security as a condition for the supply of a service.

2. For purposes of this Chapter, **measures adopted or maintained by a Party** means measures adopted or maintained by:

- (a) central or local governments and authorities; and
- (b) non-governmental bodies in the exercise of powers delegated by central or local governments or authorities.

3. Notwithstanding paragraph 1, Articles 9.4, 9.7, and 9.8 shall also apply to measures adopted or maintained by a Party affecting the supply of a service in its territory by a covered investment¹.

4. Notwithstanding paragraph 1, this Chapter shall not apply to:

- (a) financial services as defined in Article 9.13, except that paragraph 3 shall apply where the financial service is supplied by a covered investment that is not a covered investment in a financial institution as defined in Article 1.3 (Definitions) in the Party's territory;
- (b) government procurement;

¹ For greater certainty, the scope of application of Articles 9.4, 9.7, and 9.8 to measures adopted or maintained by a Party affecting the supply of a service in its territory by a covered investment is limited to the scope specified in Article 9.1, subject to any applicable non-conforming measures and exceptions. Nothing in this Chapter, including paragraph 3, is subject to investor-state dispute settlement under Section B of Chapter 8 (Investment).

- (c) air services, including domestic and international air transportation services, whether scheduled or non-scheduled, and related services in support of air services, other than:
 - (i) aircraft repair and maintenance services during which an aircraft is withdrawn from service;
 - (ii) the selling and marketing of air transport services; and
 - (iii) computer reservation system (CRS) services; or
- (d) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance.

5. This Chapter shall not impose any obligation on a Party with respect to a national of the other Party seeking access to its employment market, or employed on a permanent basis in its territory, and shall not confer any right on that national with respect to that access or employment.

6. This Chapter shall not apply to services supplied in the exercise of governmental authority in a Party's territory. A **service supplied in the exercise of governmental authority** means any service which is supplied neither on a commercial basis, nor in competition with one or more service suppliers.

ARTICLE 9.2: NATIONAL TREATMENT

Each Party shall accord to service suppliers of the other Party treatment no less favorable than that it accords, in like circumstances, to its own service suppliers.

ARTICLE 9.3: MOST-FAVORED-NATION TREATMENT²

Each Party shall accord to service suppliers of the other Party treatment no less favorable than that it accords, in like circumstances, to service suppliers of a non-Party.

ARTICLE 9.4: MARKET ACCESS

Neither Party may adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on:

² For greater certainty, nothing in Article 9.3 shall be interpreted as extending the scope of this Chapter.

- (i) the number of service suppliers, whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirement of an economic needs test;
 - (ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (iii) the total number of service operations or the total quantity of services output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test³; or
 - (iv) the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test; or
- (b) restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service.

ARTICLE 9.5: LOCAL PRESENCE

Neither Party may require a service supplier of the other Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the cross-border supply of a service.

ARTICLE 9.6: NON-CONFORMING MEASURES

1. Articles 9.2 through 9.5 shall not apply to:
 - (a) any existing non-conforming measure that is maintained by a Party at:
 - (i) the central level of government, as set out by that Party in its Schedule to Annex I; or
 - (ii) a local level of government^{4 5};
 - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
 - (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 9.2, 9.3, 9.4, or 9.5.

³ Sub-subparagraph (iii) does not cover measures of a Party which limit inputs for the supply of services.

⁴ For Korea, **local level of government** means a local government as defined in the *Local Autonomy Act*.

⁵ For greater certainty, for Colombia the *Departamentos* are part of the local level of government.

2. Articles 9.2 through 9.5 shall not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors, or activities as set out in its Schedule to Annex II.

ARTICLE 9.7: DOMESTIC REGULATION

1. Where a Party requires authorization for the supply of a service, the Party's competent authorities shall, within a reasonable time after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the Party's competent authorities shall provide, without undue delay, information concerning the status of the application. This obligation shall not apply to authorization requirements that a Party adopts or maintains with respect to sectors, sub-sectors, or activities as set out in its Schedule to Annex II.

2. With a view to ensuring that measures related to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary barriers to trade in services, while recognizing the right to regulate and to introduce new regulations on the supply of services in order to meet national policy objectives, each Party shall endeavor to ensure, as appropriate for individual sectors, that such measures are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service; and
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

3. If the results of the negotiations related to Article VI:4 of the GATS (or the results of any similar negotiations undertaken in other multilateral fora in which both Parties participate) enter into effect, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement. The Parties shall coordinate on such negotiations, as appropriate.

ARTICLE 9.8: TRANSPARENCY IN DEVELOPING AND APPLYING REGULATIONS⁶

Further to Chapter 18 (Transparency):

- (a) Each Party shall establish or maintain appropriate mechanisms for responding to inquiries from interested persons regarding its regulations related to the subject matter of this Chapter.

⁶ For greater certainty, "regulations" includes regulations establishing or applying to licensing authorization or criteria at the central and local levels of government.

- (b) If, consistent with Article 18.1 (Publication), a Party does not provide advance notice of and opportunity for comment on regulations it proposes to adopt related to the subject matter of this Chapter, it shall, to the extent possible, address in writing the reasons for not doing so.
- (c) To the extent possible, each Party shall allow reasonable time between publication of final regulations related to the subject matter of this Chapter and their effective date.

ARTICLE 9.9: RECOGNITION

1. For purposes of the fulfillment, in whole or in part, of its standards or criteria for the authorization, licensing, or certification of services suppliers, and subject to the requirements of paragraph 5, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.
2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in Article 9.3 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.
3. On request of the other Party, a Party shall promptly provide information, including appropriate descriptions, concerning any recognition agreement or arrangement that the Party or relevant bodies in its territory have concluded.
4. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in the other Party's territory should be recognized.
5. Neither Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.
6. Annex 9-A shall apply to measures adopted or maintained by a Party related to the licensing or certification of professional service suppliers as set out in that Annex.

ARTICLE 9.10: PAYMENTS AND TRANSFERS⁷

⁷ For greater certainty, Annex 8-C (Transfers) shall apply to Article 9.10.

1. Each Party shall permit all transfers and payments related to the cross-border supply of services to be made freely and without delay into and out of its territory.
2. Each Party shall permit such transfers and payments related to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.
3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws related to:
 - (a) bankruptcy, insolvency, or the protection of the rights of creditors;
 - (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
 - (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;
 - (d) criminal or penal offences; or
 - (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

ARTICLE 9.11: DENIAL OF BENEFITS

1. A Party may deny the benefits of this Chapter to a service supplier of the other Party if the service supplier is an enterprise owned or controlled by persons of a non-Party, and the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise.
2. A Party may deny the benefits of this Chapter to a service supplier of the other Party if the service supplier is an enterprise owned or controlled by persons of a non-Party or of the denying Party that has no substantial business activities in the territory of the other Party. If, before denying the benefits of this Chapter, the denying Party knows that the enterprise has no substantial business activities in the territory of the other Party and that persons of a non-Party, or of the denying Party, own or control the enterprise, the denying Party shall, to the extent practicable, notify the other Party before denying the benefits. If the denying Party provides such notice, it shall consult with the other Party at the other Party's request.

ARTICLE 9.12: WORK PROGRAM ON FINANCIAL SERVICES

Unless otherwise agreed by the Parties, the authorities responsible for financial services will meet four years after the date of entry into force of this Agreement to discuss the viability and convenience of incorporating financial services into this Agreement.

professional services means services, the supply of which requires specialized post-secondary education, or equivalent training or experience, or examination and for which the right to practice is granted or restricted by a Party, but does not include services supplied by trades-persons or vessel and aircraft crew members;

CHAPTER TEN

TEMPORARY ENTRY FOR BUSINESS PERSONS

ARTICLE 10.1: GENERAL PRINCIPLES

1. This Chapter reflects the preferential trading relationship between the Parties, the Parties' mutual desire to facilitate temporary entry for business persons on a reciprocal basis and to establish transparent criteria and procedures for temporary entry in accordance with Annex 10-A, and the need to ensure border security and to protect the domestic labor force and permanent employment in their respective territories.

2. This Chapter shall not apply to measures affecting natural persons of a Party seeking access to the employment market of the other Party, nor shall it apply to measures regarding citizenship, nationality, permanent residence, or employment on a permanent basis.

ARTICLE 10.2: GENERAL OBLIGATIONS

1. Each Party shall apply its measures related to the provisions of this Chapter in accordance with Article 10.1 and, in particular, shall expeditiously apply those measures so as to avoid unduly impairing or delaying trade in goods or services or conduct of investment activities under this Agreement.

2. Notwithstanding paragraph 1, nothing in this Chapter shall be construed to prevent a Party from applying measures to regulate the entry of business persons into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of its borders, and to ensure the orderly movement of business persons across its borders, provided that such measures are not applied in such a manner as to nullify, delay, or impair the commitments made by a Party under this Agreement. The sole fact of requiring a visa for natural persons of certain countries and not for those of others shall not be regarded as nullifying, delaying, or impairing the commitments made by a Party under this Agreement.

ARTICLE 10.3: GRANT OF TEMPORARY ENTRY

1. Each Party shall grant temporary entry to business persons who comply with immigration measures applicable to temporary entry such as those related to public health and safety and national security in accordance with this Chapter, including Annex 10-A and Appendix 10-A-2.

2. Temporary entry granted pursuant to this Chapter shall not replace the requirements needed to carry out a profession or an activity in accordance with the specific laws and regulations in force in the territory of the Party authorizing the temporary entry.

3. A Party may refuse to issue an immigration document authorizing employment to a business person where the temporary entry of that person might adversely affect:

- (a) the settlement of any labor dispute that is in progress at the place or intended place of employment; or
 - (b) the employment of any person who is involved in such dispute.
- 4. When a Party refuses, pursuant to paragraph 3, to issue an immigration document authorizing employment, it shall:
 - (a) take measures to allow the business person to be informed in writing of the reasons for the refusal; and
 - (b) promptly notify the other Party in writing of the reasons for the refusal.
- 5. Each Party shall limit any fees for processing applications for temporary entry of business persons to the approximate cost of services rendered.

ARTICLE 10.4: PROVISION OF INFORMATION

- 1. Further to Article 18.1 (Publication), each Party shall:
 - (a) provide the other Party with relevant materials that will enable the other Party to become acquainted with its measures related to this Chapter; and
 - (b) no later than six months after the date of entry into force of this Agreement, prepare and publish or otherwise make available in its own territory, and in the territory of the other Party, explanatory material regarding the requirements for temporary entry under this Chapter, in such a manner that will enable business persons of the other Party to become acquainted with those requirements.
- 2. Each Party shall collect, maintain and, upon request, make available to the other Party, in accordance with its laws, data regarding the granting of temporary entry under this Chapter to business persons of the other Party who have been issued immigration documentation, including data specific to each occupation, profession, or activity.

ARTICLE 10.5: WORKING GROUP

- 1. The Parties hereby establish a Temporary Entry Working Group, comprising representatives of each Party, including immigration officials and contact points.

- (b) the development and adoption of common criteria and interpretations for the implementation of this Chapter;
- (c) the development and implementation of measures to further facilitate temporary entry of business persons on a reciprocal basis; and
- (d) any other measures of mutual interest.

ARTICLE 10.6: CONTACT POINTS

1. The Parties hereby establish contact points who shall exchange information as described in Article 10.4 and shall receive and analyze the information mentioned under Article 10.5.

2. The contact points are:

- (a) for Korea,
Coordinator
Border Control Division

- (a) the matter involves a pattern of practice; and
- (b) the business person has exhausted the available administrative remedies regarding the particular matter.

2. The remedies referred to in paragraph 1(b) shall be deemed to be exhausted if a final determination in the matter has not been issued by the competent authority within one year of the institution of an administrative proceeding, and the failure to issue a determination is not attributable to delay caused by the business person.

ARTICLE 10.8: RELATION TO OTHER CHAPTERS

1. Nothing in this Agreement shall be construed to impose any obligation¹ on a Party regarding its immigration measures, except for this Chapter, Chapters 1 (Initial Provisions and General Definitions), 19 (Institutional Provisions), 20 (Dispute Settlement), and 22 (Final Provisions), and Articles 18.1 (Publication), 18.2 (Notification and Provision of Information), and 18.3 (Administrative Proceedings).

2. Nothing in this Chapter shall be construed to impose any obligations or commitments on a Party with respect to other Chapters of this Agreement.

ARTICLE 10.9: TRANSPARENCY IN DEVELOPMENT AND APPLICATION OF REGULATIONS

1. Further to Chapter 18 (Transparency), each Party shall establish or maintain appropriate mechanisms to respond to inquiries from interested persons regarding regulations related to the temporary entry of business persons.

2. Each Party shall, within a reasonable period after an application requesting temporary entry is considered complete under its laws and regulations, inform the applicant of the decision concerning the application. CHAPTER ELEVEN TELECOMMUNICATIONS

ARTICLE 11.1: SCOPE AND COVERAGE

1. This Chapter shall apply to:
 - (a) measures related to access to and use of public telecommunications transport networks and services;
 - (b) measures related to obligations of suppliers of public telecommunications transport networks and services;
 - (c) other measures related to public telecommunications transport networks and services; and
 - (d) measures related to the supply of value-added services.
2. Except to ensure that enterprises operating broadcast stations and cable systems have continued access to and use of public telecommunications transport networks and services, as set out in Article 11.2, this Chapter shall not apply to any measure related to broadcast or cable distribution of radio or television programming.
3. Nothing in this Chapter shall be construed to:
 - (a) require a Party, or require a Party to compel any enterprise, to establish, construct, acquire, lease, operate, or provide telecommunications networks and services not offered to the public generally;
 - (b) require a Party to compel any enterprise exclusively engaged in the broadcast or cable distribution of radio or television programming to make available its broadcast or cable facilities as a public telecommunications transport network;
 - (c) require a Party to authorize an enterprise of the other Party to establish, construct, acquire, lease, operate, or supply telecommunications networks or services, other than as specifically provided in this Agreement; or
 - (d) prevent a Party from prohibiting persons operating private networks from using their networks to supply public telecommunications transport networks and services to third persons.

SECTION A: ACCESS TO AND USE OF PUBLIC TELECOMMUNICATIONS TRANSPORT NETWORKS AND SERVICES

ARTICLE 11.2: ACCESS TO AND USE OF PUBLIC TELECOMMUNICATIONS TRANSPORT NETWORKS AND SERVICES¹

1. Each Party shall ensure that enterprises of the other Party have access to and use of any public telecommunications transport networks and services, including leased circuits, offered in its territory or across its borders, on reasonable and non-discriminatory terms and conditions, including as set out in paragraphs 2 through 6.

2. Each Party shall ensure that enterprises of the other Party are permitted to:

- (a) purchase or lease, and attach terminal or other equipment that interfaces with a public telecommunications transport network;
- (b) provide services to individual or multiple end-users over any leased or owned circuits;
- (c) connect owned or leased circuits with public telecommunications transport networks and services in the territory of that Party or with circuits leased or owned by another enterprise;
- (d) perform switching, signaling, and processing functions; and
- (e) use operating protocols of their choice, other than as necessary to ensure the availability of telecommunications networks and services to the public generally.

3. Each Party shall ensure that enterprises of the other Party may use public telecommunications transport networks and services for the movement of information in its territory or across its borders, including for intra-corporate communications of such enterprises, and for access to information contained in databases or otherwise stored in machine-readable form in the territory of either Party.

4. Notwithstanding paragraph 3, a Party may take such measures as are necessary to ensure the security and confidentiality of messages, provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or disguised restriction on trade in services.

5. Each Party shall ensure that no condition is imposed on access to and use of public telecommunications transport networks and services, other than as necessary to:

¹ For greater certainty, Article 11.2 shall not prohibit a Party from requiring an enterprise to obtain a license, concession, or other type of authorization to supply any public telecommunications transport network or service within its territory. For purposes of Article 11.2, the term “enterprise” shall be interpreted as “service supplier” for Korea.

- (a) safeguard the public service responsibilities of suppliers of public telecommunications transport networks and services, in particular their ability to make their networks or services available to the public generally; or
 - (b) protect the technical integrity of public telecommunications transport networks and services.
6. Provided that conditions for access to and use of public telecommunications transport networks and services satisfy the criteria set out in paragraph 5, such conditions may include:
- (a) a requirement to use specified technical interfaces, including interface protocols, for interconnection with such networks and services;
 - (b) requirements, where necessary, for the inter-operability of such networks and services;
 - (c) type approval of terminal or other equipment which interfaces with the network and technical requirements related to the attachment of that equipment to such networks; or
 - (d) notification, registration, and licensing.

SECTION B: ADDITIONAL OBLIGATIONS RELATING TO MAJOR SUPPLIERS OF PUBLIC TELECOMMUNICATIONS TRANSPORT NETWORKS AND SERVICES

ARTICLE 11.3: TREATMENT BY MAJOR SUPPLIERS

Each Party shall ensure that a major supplier in its territory accords suppliers of public telecommunications transport networks and services of the other Party treatment no less favorable than such major supplier accords to its subsidiaries, its affiliates, or any non-affiliated service suppliers regarding:

- (a) the availability, provisioning, rates, or quality of like public telecommunications transport networks and services; and
- (b) the availability of technical interfaces necessary for interconnection.

ARTICLE 11.4: COMPETITIVE SAFEGUARDS

1. Each Party shall maintain appropriate measures for the purpose of preventing suppliers of public telecommunications transport networks and services that, alone or together, are a major supplier in its territory from engaging in or continuing anti-competitive practices.

2. The anti-competitive practices referred to in paragraph 1 include in particular:

- (a) engaging in anti-competitive cross-subsidization²;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available, on a timely basis, to suppliers of public telecommunications transport networks and services, technical information about essential facilities and commercially relevant information that are necessary for them to provide services.

ARTICLE 11.5: INTERCONNECTION

General Terms and Conditions

1. Each Party shall ensure that a major supplier in its territory is required to provide interconnection at any technically feasible point in the network. Such interconnection shall be provided:

- (a) under non-discriminatory terms, conditions (including technical standards and specifications), and rates;
- (b) of a quality no less favorable than that provided for its own like services, for like services of non-affiliated service suppliers, or for like services of its subsidiaries or other affiliates;
- (c) in a timely fashion, on terms, conditions (including technical standards and specifications), and cost-oriented rates, that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the services to be provided; and
- (d) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

Public Availability of the Procedures for Interconnection Negotiations

2. Each Party shall make publicly available the applicable procedures for interconnection negotiations with a major supplier in its territory.

Transparency of Interconnection Arrangements

² For Colombia, the term “anticompetitive cross-subsidization” shall be interpreted as including margin squeeze.

3. Each Party shall ensure that a major supplier in its territory makes publicly available either its interconnection agreements or a reference interconnection offer.

ARTICLE 11.6: RESALE

Each Party shall ensure that a major supplier in its territory does not impose unreasonable or discriminatory conditions or limitations on the resale of its public telecommunications transport networks and services³.

ARTICLE 11.7: UNBUNDLING OF NETWORK ELEMENTS

1. Each Party shall provide its telecommunications regulatory body or other relevant body with the authority to require major suppliers in its territory to offer access to network elements on an unbundled basis on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory, and transparent for the supply of public telecommunications transport networks and services.
2. Each Party may determine the network elements required to be made available in its territory, and the suppliers that may obtain such elements, in accordance with its laws or regulations.

SECTION C: OTHER MEASURES

ARTICLE 11.8: CONDITIONS FOR THE SUPPLY OF VALUE-ADDED SERVICES

1. Neither Party shall require an enterprise in its territory that it classifies as a supplier of value-added services and that supplies those services over facilities that the enterprise does not own to:
 - (a) supply those services to the public generally;
 - (b) cost-justify its rates for those services;
 - (c) file a tariff for those services;
 - (d) connect its networks with any particular customer for the supply of those services; or
 - (e) conform with any particular standard or technical regulation of the telecommunications regulatory body for connecting to any other network, other than a public telecommunications transport network.
2. Notwithstanding paragraph 1, a Party may take the actions described in paragraph 1

³ Each Party will implement this obligation in accordance with its laws and regulations.

to remedy a practice of a supplier of value-added services that the Party has found in a particular case to be anti-competitive under its laws or regulations, or to otherwise promote competition or safeguard the interests of consumers.

ARTICLE 11.9: INDEPENDENT REGULATORY BODIES

1. Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications transport networks and services.
2. Each Party shall ensure that its regulatory decisions and procedures are impartial with respect to all market participants.

ARTICLE 11.10: UNIVERSAL SERVICE

1. Each Party has the right to define the kind of universal service obligations it wishes to adopt or maintain.
2. Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory, and competitively neutral⁴ manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

ARTICLE 11.11: LICENSING PROCESS

1. When a Party requires a supplier of public telecommunications transport networks or services to have a license, concession, permit, registration, or other type of authorization, the Party shall make publicly available:
 - (a) all the licensing or authorization criteria and procedures it applies;
 - (b) the period of time it normally requires to reach a decision concerning an application for a license, concession, permit, registration, or other type of authorization; and
 - (c) the terms and conditions of all licenses or authorizations.
2. Each Party shall ensure that, upon request, an applicant receives the reasons for the denial of a license, concession, permit, registration, or other type of authorization.

ARTICLE 11.12: ALLOCATION AND USE OF SCARCE RESOURCES

⁴ For Colombia, the term “competitively neutral” includes both competitively and technologically neutral.

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights-of-way, in an objective, timely, transparent, and non-discriminatory manner.

2. Each Party shall make publicly available the current state of allocated frequency bands but retains the right not to provide detailed identification of frequencies allocated or assigned for specific government uses.

3. A Party's measures allocating and assigning spectrum and managing frequencies shall not be considered inconsistent with Article 9.4 (Market Access), as it applies to either Chapters 8 (Investment) or 9 (Cross-Border Trade in Services). Accordingly, each Party retains the right to establish and apply spectrum and frequency management policies that may limit the number of suppliers of public telecommunications transport networks and services. Each Party also retains the right to allocate frequency bands, taking into account present and future needs and spectrum availability.

ARTICLE 11.13: RESOLUTION OF TELECOMMUNICATIONS DISPUTES⁵

Further to Articles 18.3 (Administrative Proceedings) and 18.4 (Review and Appeal), each Party shall ensure the following:

Recourse

- (a) (i) enterprises of the other Party may have recourse to a telecommunications regulatory body or other relevant body of the Party to resolve disputes regarding the Party's measures related to matters set out in Articles 11.2 through 11.5; and
- (ii) suppliers of public telecommunications transport networks and services as well as suppliers of value-added services⁶ of the other Party that have requested interconnection with a major supplier in the Party's territory may have recourse, within a reasonable and publicly specified period after the supplier requests interconnection, to its telecommunications regulatory body to resolve disputes regarding the terms, conditions, and rates for interconnection with such major supplier;

*Reconsideration*⁷

⁵ The Parties understand that for purposes of Article 11.13, the term "enterprise" shall apply only to natural persons or juridical persons organized under the laws of each Party.

⁶ Regarding value-added services, each Party will implement this obligation in accordance with its relevant laws or regulations.

⁷ For Korea, subparagraph (b) does not apply to a determination or decision of the telecommunications regulatory body with respect to disputes between telecommunications service suppliers or between telecommunications service suppliers and users.

- (b) any enterprise whose legally protected interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body may petition the body to reconsider that determination or decision⁸. Neither Party shall permit such a petition to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body unless an appropriate authority stays such determination or decision⁹; and

Judicial Review

- (c) any enterprise whose legally protected interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body may obtain review of the determination or decision by an impartial and independent judicial authority of the Party. Neither Party shall permit an application for judicial review to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body unless the relevant judicial body stays such determination or decision.

ARTICLE 11.14: TRANSPARENCY

Further to Articles 18.1 (Publication) and 18.2 (Notification and Provision of Information), each Party shall ensure that:

- (a) rulemakings, including the basis for such rulemakings, of its telecommunications regulatory body and tariffs filed with its telecommunications regulatory body are promptly published or otherwise made publicly available;
- (b) interested persons are provided with adequate advance public notice of, and the opportunity to comment on, any rulemaking that its telecommunications regulatory body proposes; and
- (c) its measures related to public telecommunications transport networks and services or value-added services¹⁰ are made publicly available, including measures related to:
 - (i) tariffs and other terms and conditions of service;
 - (ii) procedures related to judicial and other adjudicatory proceedings;
 - (iii) specifications of technical interfaces;

⁸ For Colombia, as to subparagraph (b), enterprises may not petition for reconsideration of rulings of general application, as defined in Article 11.17, unless otherwise provided under its laws and regulations.

⁹ Notwithstanding this subparagraph, for Colombia, if a petition for reconsideration is filed, the determination or decision of the telecommunications regulatory body will not become effective, while the outcome of the reconsideration is pending. Petitions for reconsideration shall be ruled upon promptly.

¹⁰ Regarding value-added services, each Party will implement this obligation in accordance with its relevant laws or regulations.

- (iv) information on bodies responsible for preparing, amending, and adopting standard-related measures;
- (v) conditions applying to attachment of terminal or other equipment to the public telecommunications transport network and services; and
- (vi) notification, permit, registration, or licensing requirements, if any.

ARTICLE 11.15: RELATIONSHIP TO OTHER CHAPTERS

In the event of any inconsistency between this Chapter and another Chapter, this Chapter shall prevail to the extent of the inconsistency.

ARTICLE 11.16: TECHNICAL COOPERATION

To encourage the access to and use of technologies related to public telecommunications transport networks and services as well as value-added services, the Parties shall promote collaboration between the private sectors of the Parties and cooperate in the exchange of technical information, the development of government-to-government training programs and other related activities. In implementing this obligation, the Parties shall establish a Committee on Telecommunications Cooperation and give special emphasis to existing exchange and technical cooperation programs.

CHAPTER THIRTEEN

COMPETITION AND CONSUMER POLICY

ARTICLE 13.1: OBJECTIVES

Recognizing the importance of free competition in trade relations, the Parties understand that proscribing anti-competitive practices, implementing competition policies, and cooperating on matters covered by this Chapter will help prevent the benefits of trade liberalization from being undermined.

ARTICLE 13.2: IMPLEMENTATION

1. Each Party shall maintain competition laws that promote and protect the competitive process in its market by proscribing anti-competitive practices. Each Party shall take appropriate actions with respect to anti-competitive practices with the objective of promoting economic efficiency and consumer welfare.
2. Each Party shall maintain an authority or authorities responsible for the enforcement of its competition laws.
3. The enforcement policy of the Parties' competition authorities shall be consistent with the principles of transparency, timeliness, non-discrimination, and procedural fairness.
4. Each Party shall ensure that any exemption provided under its competition laws shall be transparent and undertaken on the grounds of public policy or public interest.

ARTICLE 13.3: COOPERATION

1. The Parties recognize the importance of cooperation and coordination between their respective competition authorities to promote the effective enforcement of their competition laws and to fulfill the objectives of this Agreement.
2. Accordingly, the Parties shall cooperate in relation to the enforcement of their respective competition laws and policies, including through notification, consultation, technical assistance, and exchange of information.
3. The competition authority of a Party may request coordination from the competition authority of the other Party with respect to a specific case, when important interests of the requesting Party are substantially affected. This coordination shall not prevent the competition authority concerned from taking independent decisions.

ARTICLE 13.4: NOTIFICATIONS

1. Each Party, through its competition authority, shall notify in English the competition authority of the other Party of an enforcement activity regarding an anti-competitive practice if it considers that such enforcement activity may substantially affect important interests of the other Party.
2. Provided that it is not contrary to the Parties' competition laws and does not affect any investigation being carried out, the notification shall take place at an early stage of the enforcement activity.

ARTICLE 13.5: CONSULTATIONS

1. To foster mutual understanding between the Parties, or to address specific matters that arise under this Chapter and without prejudice to the autonomy of each Party to develop, maintain, and enforce its competition laws and policies, each Party shall, upon request of the other Party, enter into consultations on issues raised by the other Party.
2. The Party to which a request for consultations has been addressed shall give full and sympathetic consideration to the concerns of the other Party.

The Parties may provide each other with technical assistance in any area they consider appropriate, including exchange of experiences, capacity building for the implementation of their competition laws and policies, and promotion of competition culture.

ARTICLE 13.7: CONFIDENTIALITY

1. The competition authority of a Party shall, upon request of the competition authority of the other Party, endeavor to provide information to facilitate effective enforcement of the Parties' respective competition laws, provided that it does not affect any ongoing investigation and is compatible with the rules and standards of confidentiality of each Party.
2. The competition authority of a Party shall maintain the confidentiality of any information provided in confidence by the competition authority of the other Party and shall not disclose such information to any entity that is not authorized by the competition authority providing the information.

ARTICLE 13.8: COOPERATION ON CONSUMER PROTECTION

1. The Parties recognize the importance of cooperation and coordination on matters related to their consumer protection laws in order to enhance consumer welfare. Accordingly, the Parties

shall cooperate, through their competent authorities, in appropriate cases where significant interests of either Party are affected, including through consultation, technical assistance, and exchange of information related to the enforcement of their consumer protection laws.

2. Nothing in this Article shall limit the discretion of the competent authority of a Party to decide whether to take action in response to a request by the competent authority of the other Party, nor shall it preclude any of these authorities from taking action with respect to any particular matter.

3. Each Party shall endeavor to identify, in areas of mutual concern and consistent with its own important interests, obstacles to effective cooperation with the other Party in the enforcement of its consumer protection laws.

ARTICLE 13.9: STATE ENTERPRISES AND DESIGNATED MONOPOLIES

1. Nothing in this Chapter shall be construed to prevent a Party from establishing or maintaining state enterprises and/or designated monopolies.

2. The Parties shall ensure that state enterprises and designated monopolies are subject to their respective competition laws and do not adopt or maintain any anti-competitive practice that affects trade between the Parties, insofar as the application of this provision does not obstruct the performance, in law or in fact, of the particular public tasks assigned to them.

Neither Party shall have recourse to dispute settlement under this Agreement for any matter arising under this Chapter.

ARTICLE 14.1: SCOPE OF APPLICATION

1. This Chapter shall apply to any measure of a Party regarding covered procurement.
2. For purposes of this Chapter, **covered procurement** means a government procurement of goods, services, or any combination thereof:
 - (a) not procured with a view to commercial sale or resale, or for use in the production or supply of goods or services for commercial sale or resale;
 - (b) by any contractual means, including: purchase; lease; rental or hire purchase, with or without an option to buy; and build-operate-transfer contracts and public works concessions contracts;
 - (c) for which the value, as estimated in accordance with paragraphs 5 and 6, equals or exceeds the relevant threshold specified in Annex 14-A at the time of publication of a notice in accordance with Article 14.5;
 - (d) by a procuring entity; and
 - (e) that is not otherwise excluded from coverage by this Chapter or Annex 14-A.
3. This Chapter shall not apply to:
 - (a) the acquisition or rental of land, existing buildings, or other immovable property or rights thereon;
 - (b) non-contractual agreements or any form of assistance that a Party provides, including cooperative agreements, grants, loans, equity infusions, guarantees, fiscal incentives, and subsidies;

 - (i) the incurring of public indebtedness; or
 - (ii) public debt management;
 - (d) public employment contracts and related measures;

- (e) procurement conducted under the particular procedure or condition of an international agreement relating to the stationing of troops or relating to the joint implementation by the signatory countries of a project, or under the particular procedure or condition of an international organization, or funded by international grants, loans, or other assistance where the applicable procedure or condition would be inconsistent with this Chapter;
- (f) procurement for the direct purpose of providing foreign assistance; and
- (g) purchases for a procuring entity from another procuring entity.

4. Where a procuring entity, in the context of covered procurement, requires persons not listed in Annex 14-A to procure in accordance with particular requirements, Article 14.3 shall apply *mutatis mutandis* to such requirements.

Valuation

5. In estimating the value of a procurement for the purpose of ascertaining whether it is a covered procurement, a procuring entity shall:

- (a) neither divide a procurement into separate procurements nor select or use a particular valuation method for estimating the value of a procurement with the intention of totally or partially excluding it from the application of this Chapter;
- (b) include the estimated maximum total value of the procurement over its entire duration, whether awarded to one or more suppliers, taking into account all forms of remuneration, including:
 - (i) premiums, fees, commissions, interest and other revenue streams that may be provided for in the procurements; and
 - (ii) where the procurement provides for the possibility of option clauses, the estimated maximum total value of the procurement, inclusive of optional purchases; and
- (c) where the procurement is to be conducted in multiple parts, with contracts to be awarded at the same time or over a given period to one or more suppliers, base its calculation on the maximum total value of the procurement over its entire duration.

6. Where the estimated maximum total value of a procurement over its entire duration is not known, the procurement shall be covered by this Chapter.

ARTICLE 14.2: EXCEPTIONS

1. Subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties where the same conditions prevail or a disguised restriction on trade between the Parties, nothing in this Chapter shall be construed to prevent a Party from adopting or maintaining measures:

- (a) necessary to protect public morals, order, or safety;
- (b) necessary to protect human, animal, or plant life or health;
- (c) necessary to protect intellectual property; or
- (d) relating to goods or services of persons with disabilities, philanthropic institutions, or prison labor.

2. The Parties understand that paragraph 1(b) includes environmental measures necessary to protect human, animal, or plant life or health.

ARTICLE 14.3: GENERAL PRINCIPLES

National Treatment and Non-Discrimination

1. With respect to any measure covered by this Chapter, each Party, including its procuring entities, shall accord immediately and unconditionally to the goods and services of the other Party and to the suppliers of the other Party offering such goods or services, treatment no less favorable than that accorded to domestic goods, services, and suppliers.

2. With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall not:

- (a) treat a locally established supplier less favorably than another locally established supplier on the basis of degree of foreign affiliation or ownership; or
- (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party.

Use of Electronic Means

3. When conducting covered procurement by electronic means, a procuring entity shall:

- (a) ensure that the procurement is conducted using information technology systems and software, including those related to authentication and encryption of information, that are generally available and interoperable with other generally available information technology systems and software; and

- (b) maintain mechanisms that ensure the integrity of requests for participation and tenders, including establishment of the time of receipt and the prevention of inappropriate access.

Measures Not Specific to Procurement

4. Paragraphs 1 and 2 shall not apply to: customs duties and charges of any kind imposed on, or in connection with, importation; the method of levying such duties and charges; other import regulations or formalities and measures affecting trade in services other than measures governing covered procurement.

Prohibition of Offsets

5. With regard to covered procurement, a Party, including its procuring entities, shall not seek, take account of, impose, or enforce offsets at any stage of a covered procurement.

Rules of Origin

6. For purposes of covered procurement, each Party shall apply to covered procurement of goods or services imported from or supplied from the other Party the rules of origin that it applies in the normal course of trade to those goods or services.

Conduct of Procurement

7. A procuring entity shall conduct covered procurement in a transparent and impartial manner that:

- (a) is consistent with this Chapter, using methods such as open tendering, selective tendering, and limited tendering;
- (b) avoids conflicts of interest; and
- (c) prevents corrupt practices.

ARTICLE 14.4: INFORMATION ON THE PROCUREMENT SYSTEM

1. Each Party shall promptly publish its procurement laws, regulations, procedures, policy guidelines, judicial decisions, and administrative rulings of general application, relating to covered procurement, and any change or addition thereof, in an electronic or paper medium that is widely disseminated and remains accessible to the public.

2. Each Party shall promptly reply to any request from the other Party for an explanation of any matter relating to its procurement laws, regulations, procedures, policy guidelines, judicial decisions, and administrative rulings of general application.

ARTICLE 14.5: PUBLICATION OF NOTICES

Notice of Intended Procurement

1. For each covered procurement, except in the circumstances described in Article 14.10, a procuring entity shall publish a notice inviting interested suppliers to submit tenders or, where appropriate, applications for participation in the procurement. Any such notice shall be published in an electronic or paper medium that is widely disseminated and readily accessible to the public free of charge for the entire period established for tendering. Each Party shall encourage procuring entities to publish notices of intended procurement by electronic means in a single point of entry that is accessible through the Internet or a comparable network.

2. Except as otherwise provided in this Chapter, each notice of intended procurement shall include:

- (a) the name and address of the procuring entity and other information necessary to contact the procuring entity and obtain all relevant documents relating to the procurement, and their cost and terms of payment, if any;
- (b) a description of the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity;
- (c) the time-frame for delivery of goods or services or the duration of the contract;
- (d) the procurement method that will be used and whether it will involve negotiation or electronic auction;
- (e) where applicable, the address and any final date for the submission of requests for participation in the procurement;
- (f) the address and the final date for the submission of tenders;
- (g) a list and brief description of any conditions for participation of suppliers, including any requirements for specific documents or certifications to be provided by suppliers in connection therewith, unless such requirements are included in tender documentation that is made available to all interested suppliers at the same time as the notice of intended procurement;
- (h) where, pursuant to Article 14.7, a procuring entity intends to select a limited number of qualified suppliers to be invited to tender, the criteria that will be used to select them and, where applicable, any limitation on the number of suppliers that will be permitted to tender; and
- (i) an indication that the procurement is covered by this Chapter.

Notice of Planned Procurement

3. Each Party shall encourage its procuring entities to publish, prior to or as early as possible in each fiscal year, a notice regarding their procurement plans for that fiscal year. The notice should, at a minimum, include the subject-matter of the procurement and the planned date of the publication of the notice of the intended procurement.

ARTICLE 14.6: CONDITIONS FOR PARTICIPATION

1. A procuring entity shall limit any conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal, commercial, technical, and financial abilities to undertake the relevant procurement.

2. In assessing whether a supplier satisfies the conditions for participation, a procuring entity:

- (a) shall evaluate the financial, commercial, and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity;
- (b) shall base its evaluation solely on the conditions that a procuring entity has specified in advance in notices or tender documentation;
- (c) shall not impose the condition that, in order for a supplier to participate in a procurement or be awarded a contract, the supplier has previously been awarded one or more contracts by a procuring entity of that Party or that the supplier has prior work experience in the territory of that Party; and
- (d) may require prior experience where essential to meet the requirements of the procurement.

3. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:

- (a) bankruptcy;
- (b) false declarations;
- (c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;
- (d) final judgments in respect of serious crimes or other serious offences;
- (e) professional misconduct or acts or omissions that adversely reflect on the commercial integrity of the supplier; or
- (f) failure to pay taxes.

ARTICLE 14.7: REGISTRATION AND QUALIFICATION OF SUPPLIERS

Registration Systems and Qualification Procedures

1. Where a Party, including its procuring entities, requires suppliers to register or pre-qualify before being permitted to participate in a covered procurement, that Party, including its procuring entities, shall ensure that a notice inviting suppliers to apply for registration or pre-qualification is published in adequate time to enable interested suppliers to initiate and, to the extent that it is compatible with the efficient operation of the procurement process, complete the registration and/or qualification procedures.

Selective Tendering

2. Where a Party's law allows the use of selective tendering procedures, a procuring entity shall, for each intended procurement:

- (a) publish a notice inviting suppliers to apply for participation in the procurement sufficiently in advance to provide interested suppliers with time to prepare and submit applications and to enable the entity to evaluate, and make its determinations based on, such applications; and
- (b) allow all domestic suppliers and suppliers of the other Party that the entity has determined satisfy the conditions for participation to submit a tender, unless the entity has stated in the notice of intended procurement or, where publicly available, the tender documentation a limitation on the number of suppliers that will be permitted to tender and the criteria for such a limitation.

Multi-Use Lists

3. A procuring entity may establish a multi-use list, provided that the entity annually publishes or otherwise makes available continuously in an electronic form a notice inviting interested suppliers to apply for inclusion on the list. The notice shall include:

- (a) a description of the goods or services, or categories thereof, for which the list may be used;
- (b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity will use to verify a supplier's satisfaction of the conditions;
- (c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list;
- (d) the period of validity of the list and the means for its renewal or termination,

or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list; and

- (e) an indication that the list may be used for procurement covered by this Chapter.

4. A procuring entity shall allow suppliers to apply for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.

ARTICLE 14.8: TIME-PERIOD

1. A procuring entity shall provide suppliers with sufficient time to submit applications to participate in a procurement, and to prepare and submit responsive tenders, taking into account the nature and complexity of the procurement.

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.

3. Except as provided for in paragraphs 4 and 5, a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published; or
- (b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time-period for tendering set out in paragraph 3 to not less than 10 days where:

- (a) the procuring entity has published a notice in an electronic medium listed in Section K of Annex 14-A, containing the information specified in Article 14.5.3 at least 40 days and not more than 12 months in advance;
- (b) in the case of the second or subsequent publication of notices for procurement of a recurring nature; or
- (c) a state of urgency duly substantiated by the procuring entity renders such time-period impracticable.

5. A procuring entity may reduce the time-period for tendering set out in paragraph 3 by five days for each one of the following circumstances:

- (a) the notice of intended procurement is published by electronic means;

- (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
- (c) the tenders can be received by electronic means by the procuring entity.

6. The use of paragraph 5, in conjunction with paragraph 4, shall in no case result in the reduction of the time-period for tendering set out in paragraph 3 to less than 10 days from the date on which the notice of intended procurement is published.

7. Notwithstanding any other time-period in this Article, where a procuring entity purchases commercial goods or services, it may reduce the time-period for tendering set out in paragraph 3 to not less than 13 days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. In addition, where the entity accepts tenders for commercial goods or services by electronic means, it may reduce the time-period set out in paragraph 3 to not less than 10 days.

8. Where a procuring entity in Annex 14-A has selected all or a limited number of qualified suppliers, the time-period for tendering may be fixed by mutual agreement between the procuring entity and the selected suppliers. In the absence of agreement, the period shall not be less than 10 days.

ARTICLE 14.9: INFORMATION ON INTENDED PROCUREMENT

Tender Documentation

1. A procuring entity shall promptly provide, upon request, to any supplier interested in participating in a procurement tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders.

2. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

- (a) the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings, or instructional materials;
- (b) any conditions for participation of suppliers, including any financial guarantees, information, and documents that suppliers are required to submit;
- (c) all evaluation criteria to be considered in the awarding of the contract, and, except where price is the sole criterion, the relative importance of such criteria;
- (d) where the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender related to the evaluation criteria, on which the auction will be conducted;

- (e) where there will be a public opening of tenders, the date, time, and place for the opening of tenders and, where appropriate, the persons authorized to be present;
 - (f) any other terms or conditions, including terms of payment and any limitation on the means by which tenders may be submitted, such as whether on paper or by electronic means; and
 - (g) any dates for the delivery of goods or the supply of services.
3. A procuring entity shall promptly reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.
4. If, in tendering procedures, a procuring entity allows tenders to be submitted in several languages, one of those languages shall be English.

Technical Specifications

5. A procuring entity shall not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to trade between the Parties.
6. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:
- (a) specify the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specification on international standards, where such exist and are applicable to the procuring entity, except where the use of an international standard would fail to meet the entity's program requirements or would impose a greater burden than the use of a recognized national standard.
7. Where design or descriptive characteristics are used in the technical specifications, a procuring entity shall indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfill the requirements of the procurement by including words such as "or equivalent" in the tender documentation.
8. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer, or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.
9. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any

technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

10. For greater certainty, a procuring entity may, in accordance with this Article, prepare, adopt, or apply technical specifications to promote the conservation of natural resources or protect the environment.

Modifications

11. Where, prior to the award of a contract, a procuring entity modifies the criteria or technical requirements set out in a notice or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

- (a) to all the suppliers that are participating at the time of the modification, amendment, or re-issuance, if the identities of such suppliers are known, and, in all other cases, in the same manner that the original information was transmitted; and
- (b) in adequate time to allow such suppliers to modify and re-submit amended tenders, as appropriate.

ARTICLE 14.10: LIMITED TENDERING

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 14.5, 14.6, 14.7, 14.8, 14.9.1 through 14.9.4, 14.11, and 14.12 only under any of the following circumstances:

- (a) provided that the requirements of the tender documentation are not substantially modified, where:
 - (i) no tenders were submitted or no suppliers requested participation;
 - (ii) no tenders that conform to the essential requirements of the tender documentation were submitted;
 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the tenders submitted have been collusive;
- (b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:
 - (i) the requirement is for a work of art;

- (ii) the protection of patents, copyrights, or other exclusive rights; or
 - (iii) due to an absence of competition for technical reasons;
- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement, where a change of supplier for such additional goods or services:
 - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;
- (e) for goods purchased on a commodity market;
- (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. When such a contract has been fulfilled, subsequent procurements of goods or services shall be subject to a procedure consistent with this Chapter;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership, or bankruptcy, but not for routine purchases from regular suppliers;
- (h) where a contract is awarded to a winner of a design contest, provided that:
 - (i) the contest has been organized in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement; and
 - (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner; or
- (i) where additional construction services, which were not included in the initial contract but were within the objectives of the original tender documentation have, due to unforeseen circumstances, become necessary to complete the construction services described therein. In such cases, the total value of contracts awarded for additional construction services may not exceed 50 percent of the amount of the initial contract.

2. For each contract awarded under paragraph 1, a procuring entity shall prepare a written report that includes:

- (a) the name of the procuring entity;
- (b) the value and kind of goods or services procured; and
- (c) a statement indicating the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

ARTICLE 14.11: ELECTRONIC AUCTIONS

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

- (a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;
- (b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender; and
- (c) any other relevant information relating to the conduct of the auction.

ARTICLE 14.12: TREATMENT OF TENDERS AND AWARDING OF CONTRACTS

Receipt and Opening of Tenders

1. A procuring entity shall receive, open, and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process.

2. A procuring entity shall treat all tenders in confidence until at least the opening of the tenders. In particular, the procuring entity shall not provide information to particular suppliers that might prejudice fair competition between suppliers.

3. A procuring entity shall not penalise any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.

4. Where a procuring entity provides suppliers with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

5. A procuring entity shall require that, in order to be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.
6. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:
 - (a) the most advantageous tender; or
 - (b) where price is the sole criterion, the lowest price.
7. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.
8. A procuring entity may not cancel a procurement, or terminate or modify awarded contracts in a manner that circumvents this Chapter.

ARTICLE 14.13: POST-AWARD INFORMATION

1. A procuring entity shall promptly inform suppliers that have submitted tenders of its contract award decisions. A procuring entity shall, upon request, provide an unsuccessful supplier with the reasons that the entity did not select that supplier's tender and the relative advantages of the successful supplier's tender.
2. No later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice in the appropriate paper or electronic medium listed in Section K of Annex 14-A. Where the entity publishes the notice only in an electronic medium, the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:
 - (a) a description of the goods or services procured;
 - (b) the name and address of the procuring entity;
 - (c) the name and address of the successful supplier;
 - (d) the value of the successful tender;
 - (e) the date of award or the contract date; and
 - (f) the type of procurement method used, and, in cases where limited tendering was used in accordance with Article 14.10, a description of the circumstances

justifying the use of limited tendering.

3. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain:

- (a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article 14.10; and
- (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

ARTICLE 14.14: DOMESTIC REVIEW PROCEDURES

1. Each Party shall provide a timely, effective, transparent, and non-discriminatory administrative or judicial review procedure through which a supplier may challenge:

- (a) a breach of the Chapter; or
- (b) where the supplier does not have a right to challenge directly a breach of the Chapter under the laws of a Party, a failure to comply with a Party's measures implementing this Chapter,

arising in the context of a covered procurement.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage the entity and the supplier to seek resolution of the complaint through consultations. The entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or its right to seek corrective measures under the administrative or judicial review procedure.

3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

4. Each Party shall maintain at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review, in a timely, effective, transparent, and non-discriminatory manner, a challenge that a supplier of a Party submits, in accordance with the Party's law relating to a covered procurement.

5. Where a body other than an authority referred to in paragraph 4 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

6. Each Party shall ensure that a review body that is not a court shall have its decision subject to judicial review or have procedures that provide that:

- (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
- (b) the participants to the proceedings (hereinafter referred to as “participants”) shall have the right to be heard prior to a decision of the review body being made on the challenge;
- (c) the participants shall have the right to be represented and accompanied;
- (d) the participants shall have access to all proceedings;
- (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
- (f) decisions or recommendations by the review body relating to supplier challenges shall be provided, in a timely fashion, in writing, with an explanation of the basis for each decision or recommendation.

7. Each Party shall adopt or maintain procedures that provide for:

- (a) rapid interim measures to preserve the supplier’s opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
- (b) where a review body has determined that there has been a breach or a failure as referred to in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

ARTICLE 14.15: RECTIFICATIONS AND MODIFICATIONS TO COVERAGE

1. A Party may make a rectification of a purely formal nature to its coverage under this Chapter, or a minor amendment to its Schedules in Annex 14-A, provided that it notifies the other Party in writing and the other Party does not object in writing within 30 days of the receipt of the notification. A Party that makes such a rectification or minor amendment need not provide compensatory adjustments to the other Party.

2. A Party may otherwise modify its coverage under this Chapter, provided that:

- (a) it notifies the other Party in writing and simultaneously offers acceptable compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing prior to the modification, where necessary; and

- (b) the other Party does not object in writing within 30 days of the receipt of the notification.

3. A Party need not provide compensatory adjustments in those circumstances where the Parties agree that the proposed modification covers a procuring entity over which a Party has effectively eliminated its control or influence. Where a Party objects to the assertion that such government control or influence has been effectively eliminated, the objecting Party may request further information or consultations with a view to clarifying the nature of any government control or influence and reaching agreement on the procuring entity's continued coverage under this Chapter.

ARTICLE 14.16: MICRO, SMALL, AND MEDIUM ENTERPRISES' PARTICIPATION

1. The Parties recognize the importance of the participation of micro, small, and medium-sized enterprises (SMEs) in government procurement.

2. The Parties also recognize the importance of business alliances between suppliers of each Party, and in particular of SMEs, including the joint participation in tendering procedures.

3. The Parties shall endeavor to work jointly towards exchanging information and facilitating access of SMEs to government procurement procedures, methods, and contracting requirements, focusing on their special needs.

ARTICLE 14.17: COOPERATION

1. The Parties recognize the importance of cooperation with a view to achieving a better understanding of their respective government procurement systems, as well as a better access to their respective markets, in particular for SMEs.

- (a) evaluate the implementation of this Chapter, including its application, and recommend to the Parties the appropriate activities;
- (b) coordinate the cooperation activities;
- (c) evaluate and follow up the activities related to cooperation that the Parties present; and
- (d) consider further negotiations aimed at broadening the coverage of this Chapter.

3. The Committee shall meet upon request of a Party or as mutually agreed by the Parties. The meetings may also be held, as necessary, via telephone, video conference, or other means as mutually agreed by the Parties.

ARTICLE 14.19: FURTHER NEGOTIATIONS

In a case that a Party offers, after the entry into force of this Agreement, to a non-Party additional advantages with regard to its government procurement market access coverage agreed under this Chapter, it shall agree, upon request of the other Party, to enter into negotiations with a view to extending coverage under this Chapter on a reciprocal basis.

- (b) inclusion on a list of well-known marks; or
- (c) prior recognition of the mark as well-known.

6. Article 6bis of the *Paris Convention for the Protection of Industrial Property* (1967) (the Paris Convention) shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those identified by a well-known trademark⁴, whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark, and provided that the interests of the owner of the trademark are likely to be damaged by such use.

7. Each Party shall provide for appropriate measures to refuse or cancel the registration and prohibit the use of a trademark that is identical or similar to a well-known trademark, for related goods or services, if the use of that trademark is likely to cause confusion, or to cause

10. Each party shall provide a publicly available electronic database of trademark applications and trademark registrations.

11. Each Party shall provide that initial registration and each renewal of registration of a trademark shall be for a term of no less than 10 years.

5. Each Party shall provide adequate legal protection and effective legal remedies against the circumvention of any effective technological measures that authors, performers, and producers of phonograms use in connection with the exercise of their rights and that restrict unauthorized acts in respect of their works, performances, and phonograms, committed by a person knowing, or having reasonable grounds to know, that such person is pursuing that objective.

6. Each Party shall provide adequate legal protection and effective legal remedies against the manufacture, import, distribution, sale, rental, advertisement for sale or rental, or possession for commercial purposes, of devices, products, or components, or the provision of services which:

Technological measures shall be deemed effective when the use of a protected work, performance, or phonogram is controlled by the right holders through the application of an access control or protection process, such as encryption, scrambling, or other transformation of the work, performance, or phonogram, or a copy control mechanism, which achieves the objective of protection.

8. Each Party may provide for exceptions and limitations to measures implementing paragraphs 5 and 6 in accordance with its legislation and the relevant international agreements it is a party to.

Protection of Rights Management Information

9. Each Party shall provide adequate legal protection and effective legal remedies against any person knowingly performing without authority any of the following acts:

- (a) the removal or alteration of any rights management information; or
- (b) the distribution, importation for distribution, broadcasting, communication, or making available to the public, of works, performances, or phonograms, protected under this Chapter, from which rights management information has been removed or altered without authority,

10. For purposes of this Chapter, **rights management information** means any information provided by right holders, which identifies the work, performance, or phonogram referred to in this Chapter, the author, the performer, or the producer of the phonogram, or information about the terms and conditions of use of the work, performance, or phonogram, and any numbers or codes that represent such information.

11. Paragraph 10 shall apply when any of these items of information is associated with a copy of, or appears in connection with the communication to the public of, a work, performance, or phonogram referred to in this Chapter.

Protection of Encrypted Program-Carrying Satellite Signals

12. Each Party shall provide adequate legal protection and effective legal remedies against the:

- (b) willful reception⁶ or further distribution of a program-carrying signal that originated as an encrypted satellite signal, knowing that it has been decoded without the authorization of the lawful distributor of the signal.

ARTICLE 15.8: ENFORCEMENT

General Obligations

1. The Parties shall establish provisions for the enforcement of intellectual property rights in their laws, of the same level as that provided in the TRIPS Agreement, in particular Articles 41 through 61.

Presumption of Authorship or Ownership

2. Special Measures against Repetitive Copyright Infringers on the Internet

3. Each Party shall endeavor to take effective measures to curtail repetitive infringements of copyright and related rights on the Internet.

ARTICLE 15.9: SPECIAL REQUIREMENTS RELATED TO BORDER MEASURES

The requirement to provide sufficient information shall not unreasonably deter recourse to these procedures.

2. Where the competent authorities have made a determination that goods are counterfeit or pirated, a Party shall grant the competent authorities the authority to inform the right holder of the names and addresses of the consignor, the importer, and the consignee, and of the quantity of the goods in question.

3. Each Party shall provide that its competent authorities may initiate border measures *ex officio* with respect to imported, exported, or in-transit merchandise, without the need for a formal complaint from a private party or right holder. Such measures shall be used when there is a reason to believe or suspect that such merchandise is counterfeit or pirated.

- (a) **counterfeit trademark goods** means any goods, including packaging, bearing without authorization a trademark that is identical to the trademark validly registered in respect of such goods, or that cannot be distinguished in its essential aspects from such a trademark, and that thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and
- (b) **pirated copyright goods** means any goods that are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and that are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.

country, including, *inter alia*, issues such as development of human capital and legal framework.

3. Each Party shall take measures, as appropriate, to prevent or control licensing practices or conditions, pertaining to intellectual property rights, which may adversely affect the international transfer of technology and which constitute an abuse of intellectual property rights by right holders.

Cooperation

4. The Parties shall cooperate and collaborate with a view to ensuring effective protection of intellectual property rights and the prevention of trade in goods or services infringing intellectual property rights, subject to their respective legislation, rules, regulations, and government policies. TRADE AND SUSTAINABLE DEVELOPMENT

ARTICLE 16.1: CONTEXT AND OBJECTIVES

1. The Parties reaffirm their commitments to promoting the development of international trade in such a way as to contribute to the objective of sustainable development and will strive to ensure that this objective is integrated and reflected at every level of their trade relationship.
2. The Parties recognize that economic development, social development, and environmental protection are interdependent and mutually reinforcing components of sustainable development. They underline the benefits of cooperation on trade-related social and environmental issues as part of a global approach to trade and sustainable development.
3. The Parties recognize that it is not their intention in this Chapter to harmonize the environmental or labor standards of the Parties, but to strengthen their trade relations and cooperation in a way that promotes sustainable development in the context of paragraphs 1 and 2.
4. In this regard, the Parties:
 - (a) recognize their commitments to promote compliance and effective implementation of each Party's environmental and labor legislation;
 - (b) will strive to promote the conservation and sustainable use of biodiversity, and the preservation of traditional knowledge relevant to the conservation of biological diversity and the sustainable use of its components; and
 - (c) recognize their commitments towards labor principles and rights included in Article 16.6.

ARTICLE 16.2: SCOPE

Except as otherwise provided in this Chapter, this Chapter applies to measures adopted or maintained by the Parties affecting trade-related aspects of environmental and labor¹ issues in the context of Articles 16.1.1 and 16.1.2.

SECTION A: ENVIRONMENT

ARTICLE 16.3: GENERAL PRINCIPLES

¹ When labor is referred to in this Chapter, it includes the issues relevant to the *Decent Work Agenda* as agreed on in the International Labor Organization (hereinafter referred to as the "ILO") and in the *2006 Ministerial Declaration of the UN Economic and Social Council on Full Employment and Decent Work*.

2. Each Party shall endeavor to maintain its laws, regulations, and policies consistent and in compliance with multilateral environmental agreements (hereinafter referred to as "MEAs") to which it is a party, as well as with international efforts towards achieving sustainable development.
3. The Parties recognize that it is inappropriate to promote trade or investments by weakening or reducing the protections afforded in their environmental laws. Accordingly, neither Party shall waive or otherwise derogate from, or offer to waive or otherwise derogate from, such laws in a manner that weakens or reduces the protections afforded in those laws as an incentive to promote trade or investment between the Parties. The Parties recognize that it is inappropriate to use their own laws, regulations and policies in a manner that constitutes a means of arbitrary or unjustifiable discrimination between the Parties or a disguised restriction on trade or investment.
4. The Parties recognize the importance that their environmental legislations provide for a fair and transparent public participation mechanism, and therefore the Parties will promote public participation during the whole process of designing, implementing, and evaluating, environmental projects, policies, and programs, in accordance with their national legislations towards that end.

ARTICLE 16.5: BIOLOGICAL DIVERSITY

1. The Parties acknowledge paragraph 19 of the Ministerial Declaration (WT/MIN/(01)DEC/1), adopted on November 14, 2001 by the WTO Ministerial Conference, on the relationship between the TRIPS Agreement and the *Convention on Biological*

Diversity (hereinafter referred to as “CBD”) and the protection of genetic resources, traditional knowledge², and folklore.

2. The Parties recognize the value and importance of biological diversity, traditional knowledge as well as the contribution of knowledge, innovations, and practices of indigenous and local communities to the conservation and sustainable use of biological diversity. Recognizing the sovereign rights of States over their natural resources, each Party shall have the authority to determine access to genetic resources in accordance with its legislation and endeavor to create conditions to facilitate transparent access to genetic resources for environmentally sound uses.

3. Subject to their legislations and the CBD, the Parties respect knowledge, innovations, and practices of indigenous and local communities embodying traditional lifestyles relevant to the conservation and sustainable use of biological diversity and promote their wider application with the involvement and approval of the holders of such knowledge, innovations, and practices.

4. Each Party shall endeavor to seek ways to share information on patent applications based on genetic resources or traditional knowledge by providing:

- (a) publicly accessible database that contains relevant information; and
- (b) opportunities to file prior art to the appropriate examining authority in writing.

5. The Parties agree to share views and information on discussions in the WIPO Intergovernmental Committee on Intellectual Property and Genetic Resources, Traditional Knowledge, and Folklore, the WTO TRIPS Council, and any other relevant fora in addressing matters related to genetic resources and traditional knowledge.

6. The Parties acknowledge the adoption of the *Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from their Utilization to the Convention on Biological Diversity* and agree to further discuss relevant issues on genetic resources subject to future developments of multilateral agreements or their respective legislations.

SECTION B: LABOR

ARTICLE 16.6: GENERAL PRINCIPLES

The Parties reaffirm their obligations as members of the ILO and their commitments in regards with the *ILO Declaration on Fundamental Principles and Rights at Work and its Follow-Up (1998)* (hereinafter referred to as “ILO Declaration”). Each Party shall strive to adopt and maintain in its laws and regulations, and practices thereunder, the following rights as stated in the ILO Declaration:

2. Despite each Party's sovereign right to establish its own labor legislation and national priorities, and to establish, manage, and enforce its own labor laws and regulations, each Party shall not fail to effectively enforce its labor laws, through a sustained or recurring course of action or inaction, in a manner affecting trade or investment between the Parties.
3. The Parties recognize that it is inappropriate to promote trade or investment by weakening or reducing the level of protection afforded in their labor legislation.

SECTION C: GENERAL PROVISIONS

ARTICLE 16.8: ENFORCEMENT OF LAWS

Nothing in this Chapter shall be construed to empower a Party's competent authorities to carry out activities oriented towards the enforcement of environmental and/or labor legislation in the territory of the other Party.

ARTICLE 16.9: PROCEDURAL GUARANTEE

1. Each Party shall ensure that persons with a recognized interest under its law in a particular matter have appropriate access to tribunals for the enforcement of the Party's environmental and labor laws. Such tribunals may include administrative, quasi-judicial, judicial, or other relevant tribunals.
2. Each Party shall ensure that proceedings before such tribunals for the enforcement of its environmental and labor laws are fair, equitable, and transparent. Each Party shall provide that parties to such proceedings may seek remedies to ensure the enforcement of their rights under its laws.

ARTICLE 16.11: COUNCIL ON SUSTAINABLE DEVELOPMENT

1. The Parties hereby establish a Council on Sustainable Development.
2. The Council on Sustainable Development shall comprise senior officials responsible for environmental and labor matters. If the Council so agrees, the senior officials responsible for environmental and labor matters may meet on separate council meetings taking into consideration the issues to be consulted.
3. The Council shall meet within the first year of the date of entry into force of this Agreement, and thereafter as necessary to discuss matters of common interest.
4. The Council may consider any other issues within the scope of this Chapter, and may also identify possible new areas of cooperation, and take any other action under its duties whenever the Parties so agree.
5. The Council shall review the implementation and effectiveness of this Chapter, including any progress achieved in the implementation of this Agreement within the appropriate period of time to be determined at the first Council meeting after the date of entry into force of this Agreement. Thereafter, the Council will establish a new period of time for such review.
6. The Parties shall strive to resolve any issue that may affect the implementation of this Chapter, until the dialogue and consultations procedures among them are exhausted.

ARTICLE 16.12: CONTACT POINT

1. Each Party shall designate the contact points³ in the relevant ministries through whom all matters arising from this Chapter will be channeled.
2. The contact point's duties will include:
 - (a) coordinating cooperation programs and other activities;
 - (b) acting as liaison between the Parties;

³ The contact points shall be the relevant Ministries of the Parties, in charge of environmental and labor matters.

If the Parties are unable to agree on the chair of the panel within this period, they shall within the next 10 days exchange their respective list comprising four nominees who shall not be nationals of either Party. The chair shall then be appointed by lot from the lists within 10 days of exchange of lists. If a Party fails to submit its list of four nominees, the chair shall be appointed by lot from the list already submitted by the other Party.

5. If a panelist appointed under this Article becomes unable to serve on the panel, a successor shall be appointed in the same manner as prescribed for the appointment of the original panelist and the successor shall have all the powers and duties of the original panelist. In such a case, any time period applicable to the panel proceedings shall be suspended for a period beginning on the date when the original panelist becomes unable to serve and ending on the date when the new panelist is appointed.

6. Panelists shall:

- (a) be chosen strictly on the basis of objectivity, reliability, and sound judgment;
- (b) have expertise or experience in law, international trade, other matters covered by this Agreement, or the resolution of disputes arising under international trade agreements;
- (c) be independent of, and not be affiliated with or take instructions from, either Party; and
- (d) comply with the code of conduct established in Annex 20-A.

7. If a Party believes that a panelist has violated or is in violation of the code of conduct, the Parties shall consult and if they agree, the panelist shall be removed and a new panelist shall be selected in accordance with this Article.

ARTICLE 20.8: RULES OF PROCEDURE

1. Unless the Parties otherwise agree, the panel shall follow the model rules of procedure established in Annex 20-B, which shall ensure:

- (a) a right to at least one hearing before the panel;
- (b) that, subject to subparagraph (e), any hearing before the panel shall be open to the public;
- (c) an opportunity for each Party to provide initial and rebuttal submissions;
- (d) that each Party's written submissions, written versions of its oral statement, and written response to a request or questions from the panel may be made

available to the public; and

- (e) the protection of information designated by either Party for confidential treatment.

2. Unless the Parties otherwise agree, the panel shall follow the model rules of procedure and may, after consulting with the Parties, adopt additional rules of procedure not inconsistent with the model rules.

3. Unless the Parties otherwise agree within 20 days of the delivery of the request for the establishment of the panel, the panel's terms of reference shall be:

“To examine, in the light of the relevant provisions of this Agreement, the matter referenced in the request for the establishment of the panel, to make findings, determinations, and recommendations as provided in Article 20.9.1 and 20.9.2, and to present the written reports referred to in Article 20.9.1 and 20.9.4.”

4. Upon request of a Party, or on its own initiative, the panel may seek information and technical advice from any person or body that it deems appropriate, provided that the Parties so agree and subject to such terms and conditions as the Parties may agree.

5. The decisions of the panel, including the adoption of the report, shall be adopted by a majority of its members. No panel may disclose which panelists are associated with majority or minority opinions.

ARTICLE 20.9: PANEL REPORT

1. Unless the Parties otherwise agree, the panel shall, within 90 days after the chair is appointed, present to the Parties an initial report containing findings of fact and its determination as to:

- (a)
 - (i) whether the measure at issue is inconsistent with the obligations of this Agreement;
 - (ii) whether a Party has otherwise failed to carry out its obligations under this Agreement; or
 - (iii) whether the measure at issue is causing nullification or impairment in the sense of Article 20.2.1(c); and
- (b) any other matter that the Parties have jointly requested that the panel address, as well as the reasons for its findings and determinations.

2. The panel shall base its report on the relevant provisions of this Agreement and the submissions and arguments of the Parties. The panel shall consider this Agreement in accordance with customary rules of interpretation of public international law, such as the ones established in the *Vienna Convention on the Law of Treaties* (1969). The panel may, at the request of the Parties, make recommendations for the resolution of the dispute.

3. Each Party may submit written comments to the panel on its initial report within 14 days of the presentation of the report. After considering any written comments by the Parties on the initial report, the panel may modify its report and make any further examination it considers appropriate.

4. The panel shall present a final report to the Parties within 30 days of the presentation of the initial report, unless the Parties otherwise agree. The Parties shall make the final report available to the public within 15 days thereafter, subject to the protection of confidential information.

ARTICLE 20.10: IMPLEMENTATION OF THE FINAL REPORT

1. Upon receipt of the final report of a panel, the Parties shall agree on the resolution of the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel.

2. If, in its final report, the panel determines that a Party has not conformed with its obligations under this Agreement or that a Party's measure is causing nullification or impairment in the sense of Article 20.2.1(c), the resolution, whenever possible, shall be to eliminate the non-conformity or the nullification or impairment.

ARTICLE 20.11: NON-IMPLEMENTATION AND SUSPENSION OF BENEFITS

1. If a Panel has made a determinations of the type described in Article 20.10.2, and the Parties are unable to reach an agreement on a resolution pursuant to Article 20.10.1, within 30 days of receiving the final report, or such other period as the Parties may agree, the Party complained against shall enter into negotiations with the complaining Party with a view to developing mutually acceptable compensation.

2. If the Parties:

- (a) are unable to agree on compensation within 30 days after the period for developing such compensation has begun; or
- (b) have agreed on compensation or on a resolution pursuant to Article 20.10.1, and the complaining Party considers that the Party complained against has failed to observe the terms of the agreement,

the complaining Party may at any time thereafter provide written notice to the Party complained against that it intends to suspend the application to the Party complained against of benefits of equivalent effect. The notice shall specify the level of benefits that the complaining Party proposes to suspend. The complaining Party may begin suspending benefits of equivalent effect 15 days after the later of the date on which it provides notice to the other Party under this paragraph or the panel issues its determination under paragraph 5, as the case may be.

3. In considering which benefits to suspend pursuant to paragraph 2:
 - (a) the complaining Party should first seek to suspend benefits or other obligations in the same sector or sectors as those affected by the measure or other matter that the panel has found to be inconsistent with the obligations of this Agreement or to have caused nullification or impairment in the sense of Article 20.2.1(c); and
 - (b) the complaining Party that considers it is not practicable or effective to suspend benefits or other obligations in the same sector or sectors may suspend benefits in other sectors.
4. The suspension of benefits shall be temporary and be applied by the complaining Party only until the measure found to be inconsistent with the obligations of this Agreement or otherwise nullifying or impairing benefits under Article 20.2.1(c) has been brought into conformity with this Agreement, or until such time as the Parties have otherwise reached an agreement on a resolution of the dispute.
5. If the Party complained against considers that:
 - (a) the level of benefits that the complaining Party has proposed to be suspended is manifestly excessive; or
 - (b) it has eliminated the non-conformity or the nullification or impairment that the panel has found,

it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the original panel be reconvened to consider the matter. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the Parties within 90 days after it reconvenes to review a request under either subparagraph (a) or (b), or within 120 days for a request under both subparagraphs (a) and (b). If the panel determines that the level of benefits proposed to be suspended is manifestly excessive, it shall determine the level of benefits it considers to be of equivalent effect.

6. The complaining Party may suspend benefits up to the level the panel has determined under paragraph 5 or, if the panel has not determined the level, the level the Party has proposed to suspend under paragraph 2, unless the panel has determined that the Party complained against has eliminated the non-conformity or the nullification or impairment.

ARTICLE 20.12: COMPLIANCE REVIEW

1. Without prejudice to the procedures set out in Article 20.11.3, if the Party complained against considers that it has eliminated the non-conformity or the nullification or impairment that the panel has found, it may refer the matter to the panel by providing written notice to the complaining Party. The panel shall reconvene as soon as possible after delivery of the request and shall issue its report on the matter within 60 days after the Party complained against provides notice.

2. If the panel decides that the Party complained against has eliminated the non-conformity or the nullification or impairment, the complaining Party shall promptly reinstate any benefits it has suspended under Article 20.11.

ARTICLE 21.1: GENERAL EXCEPTIONS

1. For purposes of Chapters 2 (National Treatment and Market Access for Goods), 3 (Rules of Origin and Origin Procedures), 4 (Customs Administration and Trade Facilitation), 6 (Technical Barriers to Trade), 7 (Trade Remedies), and 12 (Electronic Commerce), Article XX of the GATT 1994 and its interpretive notes are incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XIV(b) of the GATS include environmental measures necessary to protect human, animal, or plant life or health. The Parties understand that the measures referred to in Article XIV(a) of the GATS include measures aimed at preserving internal public order.

ARTICLE 21.2: ESSENTIAL SECURITY

Nothing in this Agreement shall be construed:

- (a) to require a Party to furnish or allow access to any information the disclosure of which it determines to be contrary to its essential security interests; or
- (b) to preclude a Party from applying measures that it considers necessary for the fulfillment of its obligations with respect to the maintenance or restoration of international peace or security or the protection of its own essential security interests.²

ARTICLE 21.3: TAXATION

1. Except as set out in this Article, nothing in this Agreement shall apply to taxation measures.

2. Nothing in this Agreement shall affect the rights and obligations of either Party under any tax convention. In the event of any inconsistency between this Agreement and any such

¹ Article 21.1 is without prejudice to whether digital products should be classified as goods or services.

² For greater certainty, if a Party invokes Article 21.2 in an arbitral proceeding initiated under Chapter 8 (Investment) or Chapter 20 (Dispute Settlement), the tribunal or panel hearing the matter shall find that the exception applies.

convention, that convention shall prevail to the extent of the inconsistency. In the case of a tax convention between the Parties, the competent authorities under that convention shall have sole responsibility for determining whether any inconsistency exists between this Agreement and that convention.

3. Notwithstanding paragraph 2:

- (a) Article 2.2 (National Treatment) and such other provisions of this Agreement as are necessary to give effect to that Article shall apply to taxation measures to the same extent as does Article III of the GATT 1994; and
- (b) Article 2.11 (Export Taxes) shall apply to taxation measures.

4. Subject to paragraph 2:

- (a) Article 9.2 (National Treatment) shall apply to taxation measures on income, on capital gains, or on the taxable capital of corporations that relate to the purchase or consumption of particular services, except that nothing in this subparagraph shall prevent a Party from conditioning the receipt or continued receipt of an advantage relating to the purchase or consumption of particular services on requirements to provide the service in its territory; and
- (b) Article 8.3 (National Treatment) and Article 8.4 (Most-Favored Nation Treatment), and Article 9.2 (National Treatment) and Article 9.3 (Most-Favored Nation Treatment) shall apply to all taxation measures, other than those on income, on capital gains, or on the taxable capital of corporations, or taxes on estates, inheritances and gifts, and generation-skipping transfers;

except that nothing in the Articles referred to in subparagraphs (a) and (b) shall apply:

- (c) any most-favored-nation obligation with respect to an advantage accorded by a Party pursuant to a tax convention;
- (d) to a non-conforming provision of any existing taxation measure;
- (e) to the continuation or prompt renewal of a non-conforming provision of any existing taxation measure;
- (f) to an amendment to a non-conforming provision of any existing taxation measure to the extent that the amendment does not decrease its conformity, at the time of the amendment, with any of those Articles;
- (g) to the adoption or enforcement of any taxation measure aimed at ensuring the equitable or effective imposition or collection of taxes (as permitted by Article XIV(d) of the GATS); or
- (h) to a provision that conditions the receipt, or continued receipt, of an advantage relating to the contributions to, or income of, a pension trust or pension plan

on a requirement that the Party maintain continuous jurisdiction over the pension trust or pension plan.

5. Subject to paragraph 2 and without prejudice to the rights and obligations of the Parties under paragraph 3, Article 8.9 (Performance Requirements) shall apply to taxation measures.

6. (a) Article 8.7 (Expropriation and Compensation) and Article 8.17 (Settlement of Dispute between a Party and an Investor of the Other Party) shall apply to a taxation measure alleged to be an expropriation or a breach of an investment agreement or investment authorization. However, no investor may invoke Article 8.7 (Expropriation and Compensation) as the basis for a claim where it has been determined pursuant to this subparagraph that the measure is not an expropriation.³ An investor that seeks to invoke Article 8.7 (Expropriation and Compensation) with respect to a taxation measure must first refer to the competent authorities, at the time that it gives its notice of intent under Article 8.17 (Settlement of Dispute between a Party and an Investor of the Other Party), the issue of whether that taxation measure involves an expropriation. If the competent authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation within a period of 180 days of such referral, the investor may submit its claim to arbitration under Article 8.17 (Settlement of Dispute between a Party and an Investor of the Other Party); and

(b) For purposes of this paragraph, **competent authorities** means:

- (i) for Korea, the Deputy Minister for Tax and Customs, *Ministry of Strategy and Finance*; and
- (ii) for Colombia, the Legal Advisory Office of the *Ministry of Finance and Public Credit (Oficina Asesora Jurídica del Ministerio de Hacienda Crédito Público)*.

7. For purposes of this Article,

(a) “taxes” and “taxation measures” do not include:

³ The determination of whether a taxation measure, in a specific fact situation, constitutes an expropriation requires a case-by-case, fact-based inquiry that considers all relevant factors relating to the investment, including the factors listed in Annex 8-B (Expropriation) and the following considerations:

- (a) the imposition of taxes does not generally constitute an expropriation. The mere introduction of a new taxation measure or the imposition of a taxation measure in more than one jurisdiction in respect of an investment generally does not in and of itself constitute an expropriation;
- (b) a taxation measure that is consistent with internationally recognized tax policies, principles, and practices should not constitute an expropriation. In particular, a taxation measure aimed at preventing the avoidance or evasion of taxation measures generally does not constitute an expropriation;
- (c) a taxation measure that is applied on a non-discriminatory basis, as opposed to a taxation measure that is targeted at investors of a particular nationality or at specific taxpayers, is less likely to constitute an expropriation; and
- (d) a taxation measure generally does not constitute an expropriation if it was already in force when the investment was made and information about the measure was publicly available.

- (i) a customs duty as defined in Article 1.3 (Definitions); or
 - (ii) the measures listed in exceptions (b), (c), (d), and (e) of that definition;
and
- (b) **tax convention** means a convention for the avoidance of double taxation or other international taxation agreement or arrangement.

ARTICLE 21.4: DISCLOSURE OF INFORMATION

Nothing in this Agreement shall be construed to require a Party to furnish or allow access to confidential information the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice the legitimate commercial interests of particular enterprises, public or private.

2. Where this Agreement is applied by the Parties pending its entry into force in accordance with paragraph 1, any reference in the provisions of this Agreement to the date of

entry into force of this Agreement shall be understood to refer to the date of provisional application in accordance with paragraph 1.

- (a) Article 8.3 (National Treatment) or 9.2 (National Treatment);
- (b) Article 8.4 (Most-Favored-Nation Treatment) or 9.3 (Most-Favored-Nation Treatment);
- (c) Article 9.5 (Local Presence);
- (d) Article 8.9 (Performance Requirements);
- (e) Article 8.10 (Senior Management and Boards of Directors); or
- (f) Article 9.4 (Market Access).

2. Each Schedule entry sets out the following elements:

- (a) **Sector** refers to the sector for which the entry is made;
- (b) **Obligations Concerned** specifies the article(s) referred to in paragraph 1 that, pursuant to Articles 8.13.1(a) and 9.6.1(a), do not apply to the non-conforming aspects of the law, regulation, or other measure, as set out in paragraph 3;
- (c) **Measures**¹ identifies the laws, regulations, or other measures for which the entry is made. A measure cited in the **Measures** element:
 - (i) means the measure as amended, continued, or renewed as of the date of entry into force of this Agreement; and
 - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and
- (d) **Description** sets out commitments, if any, for liberalization on the date of entry into force of this Agreement, and the remaining non-conforming aspects of the measure for which the entry is made.

3. In the interpretation of a Schedule entry, all elements of the entry shall be considered. An entry shall be interpreted in light of the relevant articles of the Chapters against which the entry is made. To the extent that:

- (a) the **Measures** element is qualified by a liberalization commitment from the **Description** element, the **Measures** element as so qualified shall prevail over all other elements; and

¹ For greater certainty, a change in the level of government at which a measure is administered or enforced does not, by itself, decrease the conformity of the measure with the obligations referred to in Article 8.13.1 and Article 9.6.1.

- (b) the **Measures** element is not so qualified, the **Measures** element shall prevail over all other elements, unless any discrepancy between the **Measures** element and the other elements considered in their totality is so substantial and material that it would be unreasonable to conclude that the **Measures** element should prevail, in which case the other elements shall prevail to the extent of that discrepancy.

4. In accordance with Articles 8.13.1(a) and 9.6.1(a), and subject to Articles 8.13.1(c) and 9.6.1(c), the articles of this Agreement specified in the **Obligations Concerned** element of an entry do not apply to the non-conforming aspects of the law, regulation, or other measure identified in the **Measures** element of that entry.

5. Where a Party maintains a measure that requires that a service provider be a citizen, permanent resident, or resident of its territory as a condition to the provision of a service in its territory, a Schedule entry for that measure taken with respect to Article 9.2 (National Treatment), 9.3 (Most-Favored-Nation Treatment), or 9.5 (Local Presence) shall operate as a Schedule entry with respect to Article 8.3 (National Treatment), 8.4 (Most-Favored-Nation Treatment), or 8.9 (Performance Requirements) to the extent of that measure.

6. For greater certainty, Local Presence (Article 9.5) and National Treatment (Article 9.2) are separate disciplines and a measure that is only inconsistent with Local Presence (Article 9.5) need not be reserved against National Treatment (Article 9.2).
