CHAPTER 2
NATIONAL TREATMENT AND MARKET ACCESS FOR GOODS

Article 2.1: Scope and Coverage

Except as otherwise provided in this Agreement, this Chapter applies to trade in goods between the Parties.

Section A: Definitions

Article 2.2: Definitions

For purposes of this Chapter:

consular transactions means requirements that goods of a Party intended for export to the territory of the other Party must first be submitted to the supervision of the consul of the importing Party in the territory of the exporting Party for purposes of obtaining consular invoices or consular visas for commercial invoices, certificates of origin, manifests, shippers' export declarations, or any other customs documentation required on or in connection with importation;

duty-free means free of customs duty; and

import licensing means an administrative procedure requiring the submission of an application or other documentation (other than that generally required for customs clearance purposes) to the relevant administrative body as a prior condition for importation into the territory of the importing Party.

Section B: National Treatment

Article 2.3: National Treatment

Each Party shall accord national treatment to the goods of the other Party in accordance with Article III of GATT 1994. To this end, the provisions of Article III of GATT 1994 shall be incorporated into and form an integral part of this Agreement, *mutatis mutandis*.

Section C: Tariff Reduction or Elimination

Article 2.4: Reduction or Elimination of Customs Duties

1. Except as otherwise provided in this Agreement, neither Party shall increase any existing customs duty, or adopt any new customs duty, on an originating good.

2. Except as otherwise provided in this Agreement, each Party shall gradually reduce or eliminate its customs duties on originating goods in accordance with its Schedule in Annex 2-A.

3. On the request of either Party, the Parties shall consult to consider accelerating the reduction or elimination of customs duties set out in their Schedules in Annex 2-A. An agreement by the Parties to accelerate the reduction or elimination of a customs duty on an originating good shall supersede any duty rate or staging category determined pursuant to their Schedules in Annex 2-A for that good when approved by each Party in accordance with its applicable legal procedures.

4. A Party may unilaterally accelerate the reduction or elimination of customs duties set out in its Schedule in Annex 2-A at any time if it so wishes. The Party shall notify the other Party through a diplomatic note immediately after completion of the internal procedures required for the amendments to enter into force.

5. In accordance with the WTO Agreement, originating goods of the other Party shall be eligible, at the time of importation, for the most-favored-nation (hereinafter referred to as "MFN") applied rate of customs duty for those goods in a Party, where that rate is lower than the rate of customs duty provided for in that Party's Schedule in Annex 2-A. Each Party shall make publicly available any amendments to the MFN rate on the internet.

6. For greater certainty, a Party may:

(a) raise a customs duty to the level established in its Schedule in Annex 2-A following a unilateral reduction or elimination; or

(b) maintain or increase a customs duty as authorized by the Dispute Settlement Body of the WTO.

Article 2.5: Customs Valuation

For purposes of determining the customs value of goods traded between the Parties, the provisions of Article VII of GATT 1994, and the provisions of Part I and the Interpretative Notes of Annex I of the Customs

Valuation Agreement shall apply, *mutatis mutandis*.

Section D: Special Regimes

Article 2.6: Temporary Admission of Goods

1. Each Party shall allow, as provided for in its laws and regulations, goods to be brought into its customs territory conditionally relieved, totally or partially, from payment of customs duties and taxes if such goods are brought into its customs territory for a specific purpose, are intended for re-exportation within a specific period, and have not undergone any change except normal depreciation and wastage due to the use made of them.

2. Each Party shall, at the request of the person concerned and for reasons its customs authority considers valid, extend the time limit for temporary admission provided for in paragraph 1 beyond the period initially fixed.

3. Neither Party shall condition the temporary admission of a good provided for in paragraph 1, other than to require that the good:

(a) be used solely by or under the personal supervision of a national or resident of the other Party in the exercise of the business activity, trade, profession, or sport of that person;

(b) not be sold or leased while in its territory;

(c) be accompanied by a security or guarantee in an amount no greater than the customs duties, taxes, fees, and charges that would otherwise be owed on entry or final importation, releasable on the exportation of the good;

(d) be capable of identification when imported and exported;

(e) be exported on the departure of the person referred to in subparagraph (a), or within such other period related to the purpose of the temporary admission as the Party may establish, unless extended;

(f) be admitted in no greater quantity than is reasonable for its intended use; and

(g) be otherwise admissible into the Party's territory under its laws and regulations.

4. If any condition that a Party imposes under paragraph 3 has not been fulfilled, the Party may apply the customs duty and any other charge that would normally be owed on the good in addition to any other charges or penalties provided for under its laws and regulations.

5. Each Party shall permit a good temporarily admitted under this Article to be re-exported through a customs port other than that through which it was admitted.

Article 2.7: Duty-Free Entry of Samples of No Commercial Value

Each Party shall grant duty-free entry to samples of no commercial value, imported from the territory of the other Party subject to its laws and regulations, regardless of their origin.

Section E: Non-Tariff Measures

Article 2.8: Application of Non-Tariff Measures

1. A Party shall not adopt or maintain any non-tariff measure on the importation of any good of the other Party or on the exportation of any good destined for the territory of the other Party, except in accordance with its WTO rights and obligations or this Agreement.

2. Each Party shall ensure the transparency of its non-tariff measures permitted in paragraph 1 and shall ensure that any such measures are not prepared, adopted or applied with a view to, or with the effect of, creating unnecessary obstacles to trade between the Parties.

Article 2.9: General Elimination of Quantitative Restrictions

1. Except as otherwise provided in this Agreement, neither Party shall adopt or maintain any prohibition or restriction other than duties, taxes or other charges, whether made effective through quotas, import or export licenses or other measures, on the importation of any good of the other Party or on the exportation of any good destined for the territory of the other Party, except in accordance with its rights and obligations under the relevant provisions of the WTO Agreement. To this end, Article XI of GATT 1994 is incorporated into and made part of this Agreement, *mutatis mutandis*.

2. Where a Party adopts an export prohibition or restriction in

accordance with subparagraph 2(a) of Article XI of GATT 1994, the Party shall, upon request:

(a) inform the other Party of such prohibition or restriction and its reasons together with its nature and expected duration, or publish such prohibition or restriction; and

(b) provide the other Party with a reasonable opportunity for consultation with respect to matters related to such prohibition or restriction.

Article 2.10: Technical Consultations on Non-Tariff Measures

1. A Party may request technical consultations with the other Party (hereinafter referred to as the "requested Party") on a measure the Party considers to be adversely affecting its trade. The request shall be in writing and shall clearly identify the measure and the concerns as to how the measure adversely affects trade between the Party requesting technical consultations (hereinafter referred to as the "requesting Party") and the requested Party.

2. Where the measures are covered by another Chapter, its Chapter-specific consultation mechanism shall be used, unless otherwise agreed between the Parties.

3. Except as provided in paragraph 2, the requested Party shall respond and enter into technical consultations within 60 days after the receipt of the written request referred to in paragraph 1, unless otherwise determined by the Parties, with a view to reaching a mutually satisfactory solution within 180 days of the request. Technical consultations may be conducted via any means mutually agreed by the Parties.

4. If the requesting Party considers that the matter is urgent or involves perishable goods, it may request that technical consultations take place within a shorter time frame than that provided for under paragraph 3. Nothing in this paragraph shall be construed to prevent a Party from applying sanitary and phytosanitary (hereinafter referred to as "SPS") measures.

5. The technical consultations under this Article shall be without prejudice to the rights and obligations pertaining to dispute settlement proceedings under Chapter Ten (Dispute Settlement) and the WTO Agreement.

Article 2.11: Import Licensing

1. Each Party shall ensure that all automatic and non-automatic import

licensing procedures are implemented in a transparent and predictable manner, and applied in accordance with the *Agreement on Import Licensing Procedures*, in Annex 1A to the WTO Agreement (hereinafter referred to as the "Import Licensing Agreement"). Neither Party shall adopt or maintain a measure that is inconsistent with the Import Licensing Agreement.

2. Promptly after entry into force of this Agreement, each Party shall notify the other Party of any existing import licensing procedures. The notification shall include the information specified in Article 5.2 of the Import Licensing Agreement. A Party shall be deemed to be in compliance with this paragraph if:

(a) it has notified that procedure to the WTO Committee on Import Licensing provided for in Article 4 of the Import Licensing Agreement together with the information specified in Article 5.2 of the Import Licensing Agreement; and

(b) in the most recent annual submission due before the date of entry into force of this Agreement for that Party to the WTO Committee on Import Licensing in response to the annual questionnaire on import licensing procedures described in Article 7.3 of the Import Licensing Agreement, it has provided, with respect to that procedure, the information requested in that questionnaire.

3. Before applying any new or modified import licensing procedure, a Party shall publish the new procedure or modification on an official government internet site. To the extent possible, the Party shall do so at least 21 days before the new procedure or modification takes effect.

4. The notification required under paragraph 2 is without prejudice to whether the import licensing procedure is consistent with this Agreement.

5. No application shall be refused for minor documentation errors which do not alter the basic data contained therein. Minor documentation errors may include, but are not limited to, formatting errors (for instance, the width of a margin or the font used) and errors with spelling which are obviously made without fraudulent intent or gross negligence.

6. Each Party shall, to the extent possible, answer within 60 days all reasonable enquiries from the other Party with regard to the criteria employed by its respective licensing authorities in granting or denying import licenses. The importing Party shall publish sufficient information for the other Party and traders to know the basis for granting or allocating import licenses.

7. If a Party denies an import license application with respect to a good

of the other Party, it shall, on the request of the applicant and within a reasonable period after receiving the request provide the applicant with an explanation of the reason for the denial.

Article 2.12: Fees and Formalities Connected with Importation and Exportation

1. Each Party shall ensure, in accordance with Article VIII:1 of GATT 1994 that all fees and charges of whatever character (other than import or export duties, charges equivalent to an internal tax or other internal charge applied consistently with Article III:2 of GATT 1994, and antidumping and countervailing duties) imposed on or in connection with importation or exportation are limited in amount to the approximate cost of services rendered and do not represent an indirect protection to domestic goods or a taxation on imports or exports for fiscal purposes.

2. Each Party shall promptly publish details of the fees and charges that it imposes on or in connection with importation or exportation and shall make such information available on the internet.

3. Neither Party shall require consular transactions, including related fees and charges, in connection with the importation of a good of the other Party. Neither Party shall require that any customs documentation supplied in connection with the importation of any good of the other Party be endorsed, certified or otherwise sighted or approved by the importing Party's overseas representatives, or persons or entities with authority to act on the importing Party's behalf, nor impose any related fees or charges.

Article 2.13: Sanitary and Phytosanitary Measures

1. The Parties reaffirm their existing rights and obligations with respect to each other under the *Agreement on the Application of Sanitary and Phytosanitary Measures*, in Annex 1A to the WTO Agreement taking into account relevant decisions of the WTO Committee on Sanitary and Phytosanitary Measures and international standards, guidelines and recommendations.

2. The Parties shall encourage technical cooperation and communication in the field of SPS issues subject to the availability of appropriate resources.

3. Chapter Ten (Dispute Settlement) shall not be applied to any SPS matter arising under this section.

Article 2.14: Technical Barriers to Trade

1. The Parties reaffirm their existing rights and obligations with respect to each other under the *Agreement on Technical Barriers to Trade*, in Annex 1A to the WTO Agreement.

2. The Parties shall strengthen their cooperation in the fields of standards, technical regulations, and conformity assessment procedures with a view to increasing the mutual understanding of their respective systems and facilitating access to their respective markets. The Parties will seek to identify, develop, and promote trade facilitating initiatives regarding standards, technical regulations, and conformity assessment procedures that are appropriate for particular issues or sectors as agreed upon by the Parties on the mutually determined terms and conditions.

Section F: Institutional Provisions

Article 2.15: Committee on Trade in Goods

1. For purposes of the effective implementation and operation of this Chapter and Chapter Five (Trade Remedies), the function of the Committee on Trade in Goods (hereinafter referred to in this Article as the "Committee") established in accordance with Article 12.4 (Committees and Subsidiary Bodies) shall include:

(a) reviewing and monitoring the implementation and operation of this Chapter and Chapter Five (Trade Remedies) and, if appropriate, making a report and recommendation;

(d) addressing any issues related to measures to update each Party's Schedule of tariff concessions to reflect amendments of the Harmonized System, including the transposition of the Parties' Schedules of tariff concessions and exchanging transposed Schedules of tariff concessions and correlation

tables in a timely manner; and

(e) discussing any matter arising under this Chapter and Chapter Five (Trade Remedies) as agreed.

2. The Committee shall meet on the request of a Party or the Joint Committee to consider matters arising under this Chapter and Chapter Five (Trade Remedies).

CHAPTER 3
RULES OF ORIGIN AND ORIGIN PROCEDURES

Section A: Rules of Origin

Article 3.1: Definitions

For purposes of this Chapter:

CIF means the value of the good imported, and includes the cost of freight and insurance up to the port or place of entry into the country of importation. The valuation shall be made in accordance with Article VII of GATT 1994 and Customs Valuation Agreement;

exporter means a natural or juridical person located in an exporting Party from where a good is exported by such a person;

FOB means the free-on-board value of a good, inclusive of the cost of transport from the producer to the port or site of final shipment abroad. The valuation shall be made in accordance with Article VII of GATT 1994 and Customs Valuation Agreement;

Generally Accepted Accounting Principles means the recognized consensus or substantial authoritative support in the territory of a Party with respect to the recording of revenues, expenses, costs, assets, and liabilities, the disclosure of information, and the preparation of financial statement. Generally Accepted Accounting Principles may encompass broad guidelines for general application, as well as detailed standards, practices and procedures;

identical and interchangeable goods or materials means goods or materials being of the same kind and commercial quality, possessing the same technical and physical characteristics, and which once they are incorporated into the finished good cannot be distinguished from one another for origin purposes by virtue of any markings, etc.;

importer means a natural or juridical person located in the territory of a Party from where a good is imported by such a person;

materials shall include ingredients, raw materials, parts, components, sub-assemblies used in the production process;

non-originating goods means products or materials that do not qualify as originating under this Chapter;

packing materials and containers for transportation means the goods used to protect a good during its transportation, different from those materials or containers used for its retail sale;

producer means a natural or juridical person who carries out production in the territory of a Party;

Product Specific Rules means the rules that specify that the materials have undergone a change in tariff classification or a specific manufacturing or processing operation, or satisfy a regional value content/qualifying value content[1] or a combination of any of these criteria; and

production means methods of obtaining a good including growing, mining, harvesting, raising, breeding, extracting, gathering, collecting, capturing, fishing, trapping, hunting, manufacturing, processing or assembling a good.

Article 3.2: Origin Criteria

1. For purposes of this Agreement, a good imported into the territory of a Party shall be deemed to be originating and eligible for preferential tariff treatment if it conforms to the origin requirements under any one of the following:

(a) a good which is wholly obtained or produced entirely in the territory of the exporting Party as set out and defined in Article 3.3;

(b) a good which is produced entirely in the territory of the exporting Party exclusively from originating materials; or

(c) a good which is produced entirely in the territory of the exporting Party using non-originating materials, provided the good satisfies the applicable requirements set out in Annex 3-A.

2. Except as provided for in Article 3.6, the conditions for acquiring originating status set out in this Chapter must be fulfilled without interruption in the territory of the exporting Party.

[1] Regional value content (hereinafter referred to as "RVC") and qualifying value content (hereinafter referred to as "QVC") bear the same meaning and are fully interchangeable. For greater certainty, RVC is a percentage that indicates to what extent a good is produced in Korea or Indonesia.

Article 3.3: Wholly Obtained or Produced Goods

Within the meaning of Article 3.2.1(a), the following shall be considered to be wholly obtained or produced entirely in the territory of a Party:

(a) plants and plant products grown and harvested there;

(b) live animals born and raised there;

(c) goods obtained from live animals referred to in subparagraph (b);

(d) goods obtained by hunting or trapping within the land territory, or fishing or aquaculture conducted within the internal waters or within the territorial sea of a Party;

(e) minerals and other naturally occurring substances, not included in subparagraphs (a) through (d), extracted or taken from the territory of a Party;

(f) goods of sea-fishing and other marine life taken from the sea, seabed, or subsoil outside the territorial sea of a Party by vessels registered with a Party and flying its flag, provided that Party has rights to exploit such sea, seabed, or subsoil in accordance with the international law[2];

(g) goods produced or made on board factory ships registered with a Party and entitled to fly its flag, exclusively from products referred to in subparagraph (f);

(h) goods taken by a Party or a person of a Party from the seabed or subsoil outside the territory of a Party, provided that Party has rights to exploit such seabed or subsoil in accordance with the international law[3];

(i) goods taken from outer space provided that they are obtained by the Party or a person of that Party;

(j) articles collected from there which can no longer perform their original purpose nor are capable of being restored or repaired and are fit only for the disposal or recovery of parts or raw materials, or for recycling purposes;

[2, 3] "The international law" refers to generally accepted international law such as the *United Nations Convention on the Law of the Sea*.

(k) waste and scrap derived from:

(i) production there; or

(ii) used goods collected there, provided that such goods are fit only for the recovery of raw materials; and

(l) goods obtained or produced in the territory of the Party solely from goods referred to in subparagraphs (a) through (k).

Article 3.4: Calculation of Regional/Qualifying Value Content

For purpose of Article 3.2.1(c), the Parties shall provide that the importer, exporter, or producer may calculate regional/qualifying value content based on one or the other of the following methods:

(a) Build-Up Method

$$\text{RVC or QVC} = \frac{\text{VOM}}{\text{FOB}} \times 100\%$$

VOM means value of originating materials, which includes the value of originating materials, direct labour cost, direct overhead cost, transportation cost and profit.

(b) Build-Down Method

$$\text{RVC or QVC} = \frac{\text{FOB - VNM}}{\text{FOB}} \times 100\%$$

VNM means value of non-originating materials, which shall be: (i) the CIF value at the time of importation of the materials, parts or goods; or (ii) the earliest ascertained price paid for the materials, parts or goods of undetermined origin in the territory of the Party where the working or processing has taken place.

Article 3.5: Treatment for Certain Goods

1. Treatment for Certain Goods shall be governed by Rule 6 of Annex 3 to *the Agreement on Trade in Goods under the Framework Agreement on Comprehensive Economic Cooperation among the Governments of the Republic of Korea and the Member Countries of the Association of Southeast Asian Nations*, and the Exchange of Notes between the Republic of Korea and the ASEAN Member Countries regarding the Implementation and Monitoring of Rule 6 dated 27 February 2009 (hereinafter referred to as "Exchange of Notes"), which are hereby incorporated into and made part of this Chapter.

2. The list of goods subject to treatment under paragraph 1 shall be the list of goods attached to the Exchange of Notes referred to in paragraph 1. The Parties shall revise or amend the aforementioned list of goods through a further exchange of notes within one year from the date of entry into force of this Agreement, unless otherwise agreed.

Article 3.6: Accumulation

Unless otherwise provided for in this Chapter, a good originating in the territory of a Party, which is used in the territory of the other Party as material for a finished good eligible for preferential tariff treatment, shall be considered to be originating in the territory of the latter Party where working or processing of the finished good has taken place.

Article 3.7: Non-Qualifying Operations

1. Notwithstanding any provisions in this Chapter, a good shall not be considered to be originating in the territory of a Party if the following operations are undertaken exclusively by itself or in combination in the territory of that Party:

(a) preserving operations to ensure that the good remains in good condition during transport and storage;

(b) changes of packaging, breaking-up and assembly of packages;

(c) simple[4] washing, cleaning, removal of dust, oxide, oil, paint

[4, 5, 6] "simple" generally describes an activity which does not need special skills, machines, apparatus or equipment especially produced or installed for carrying out the activity.
[7] "simple mixing" generally describes an activity which does not need special skills, machines, apparatus or equipment especially produced or installed for carrying out the activity.

or other coverings;

(d) ironing or pressing of textiles;

(e) simple[5] painting and polishing operations;

(f) husking, partial or total bleaching, polishing and glazing of cereals and rice;

(g) operations to colour sugar or form sugar lumps;

(h) simple[6] peeling, stoning, or un-shelling;

(i) sharpening, simple grinding, or simple cutting;

(j) sifting, screening, sorting, classifying, grading, matching;

(k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;

(l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;

(m) simple mixing[7] of products, whether or not of different kinds;

(n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;

(o) simple[8] testing or calibrations; or

(p) slaughtering of animals[9].

2. A good originating in the territory of a Party shall retain its initial originating status, when exported from the other Party, where operations undertaken have not gone beyond those referred to in paragraph 1.

However, “simple mixing” does not include chemical reaction. Chemical reaction means a process (including a biochemical process) which result in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

[8] "simple" generally describes an activity which does not need special skills, machines, apparatus or equipment especially produced or installed for carrying out the activity.

[9] “Slaughtering” means the mere killing of animals and subsequent processes such as cutting, chilling or freezing, for purposes of preservation for storage and transport.

Article 3.8: Intermediate Goods[10]

1. When an originating good is used in the subsequent production of another good, no account shall be taken of the non-originating materials contained in the originating good for purposes of determining the originating status of the subsequently produced good.

2. When a non-originating good is used in the subsequent production of another good:

(a) for purposes of calculating the value of the non-originating materials of the subsequently produced good, an account shall be taken only of the non-originating materials contained in the non-originating good; and

(b) for purposes of calculating the value of the originating materials of the subsequently produced good, an account shall be taken of the originating materials contained in the non-originating good.

Article 3.9: Direct Consignment

1. Preferential tariff treatment shall be applied to a good satisfying the requirements of this Chapter and which is transported directly between the territories of the exporting Party and the importing Party.

2. Notwithstanding paragraph 1, a good of which transport involves transit through one or more intermediate third countries, other than the territories of the exporting Party and the importing Party, shall be considered to be consigned directly, provided that:

(a) the transit is justified for geographical reason or by consideration related exclusively to transport requirement;

(b) the good has not entered into trade or consumption there; and

(c) the good has not undergone any operation other than unloading and reloading or any operation required to keep it in good condition.

3. For purposes of implementing paragraph 2, where transportation is effected through the territory of one or more intermediate countries, other than

[10] For greater certainty, this Article applies only to production processes within a Party.

that of the both Parties, the following shall be produced to the relevant government authorities of the importing Party:

(a) a through Bill of Lading issued in the territory of the exporting Party, which includes combination of any transport documents covering the entire transport route of a good from the exporting Party to the importing Party; or

(b) other relevant supporting documents, if any, as evidence that the requirements of paragraph 2 are being complied with.

Article 3.10: De Minimis

1. A good that does not satisfy an applicable change in tariff classification requirement set out in Annex 3-A shall be considered as originating if:

(a) for a good, other than that provided for in Chapters 50 through 63 of the Harmonized System, the value of all non-originating materials used in its production that do not undergo the required change in tariff classification does not exceed 10 percent of the FOB value of the good;

(b) for a good provided for in Chapters 50 through 63 of the Harmonized System, the weight of all non-originating materials used in its production that do not undergo the required change in tariff classification does not exceed 10 percent of the total weight of the good;

and the good specified in subparagraphs (a) and (b) meets all other applicable criteria set forth in this Chapter for qualifying as an originating good.

2. The value of non-originating materials referred to in paragraph 1 shall, however, be included in the value of non-originating materials for any applicable RVC/QVC requirement for the good.

Article 3.11: Treatment of Packaging and Packing Materials

1. (a) If a good is subject to the RVC/QVC criterion, the value of the packaging and packing materials for retail sale shall be taken into account in its determination of origin, where the packaging and packing materials are considered to be forming a whole with the good.

(b) Where subparagraph (a) is not applicable, the packaging and packing materials for retail sale, if classified together with the packaged good, shall be disregarded in determining whether all the non-originating materials used in the production of the good fulfil criterion corresponding to a change in tariff classification of the said good.

2. Packing materials and containers for transportation of a good shall not be taken into account in determining the origin of the good.

Article 3.12: Accessories, Spare Parts and Tools

1. The Parties shall provide that a good's standard accessories, spare parts, or tools delivered with the good shall be considered originating goods if the good is an originating good and shall be disregarded in determining whether all the non-originating materials used in the production of the good satisfy the applicable change in tariff classification requirement set out in Annex 3-A, provided that:

(a) the accessories, spare parts, or tools are classified with and not invoiced separately from the good; and

(b) the quantities and value of the accessories, spare parts, or tools are customary for the good.

2. Notwithstanding paragraph 1, if a good is subject to a RVC/QVC requirement, the value of the accessories, spare parts, or tools described in paragraph 1 shall be taken into account as originating or non-originating materials as the case may be, in calculating the RVC/QVC of the good.

Article 3.13: Neutral Elements

In order to determine whether a good originates, it shall not be necessary to determine the origin of the following which might be used in its production and not incorporated into the good:

(a) fuel and energy;

(b) tools, dies and moulds;

(c) spare parts and materials used in the maintenance of equipment and buildings;

(d) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings;

(e) gloves, glasses, footwear, clothing, safety equipment and supplies;

(f) equipment, devices and supplies used for testing or inspecting the good; and

(g) any other goods that are not incorporated into the good but of which use in the production of the good can reasonably be demonstrated to be a part of that production.

Article 3.14: Identical and Interchangeable Goods or Materials

1. Whether identical and interchangeable goods or materials are originating can be determined by:

(a) physical segregation of each good or material; or

(b) generally accepted accounting principles of inventory management practiced in the territory of the exporting Party.

2. Once a decision has been taken on the inventory management method, that method shall be used throughout the fiscal year.

Section B: Origin Procedures

Article 3.15: Proof of Origin

1. Goods originating in a Party shall, on importation into the other Party, benefit from preferential tariff treatment under this Agreement on the basis of a Proof of Origin.

2. Any of the following shall be considered as a Proof of Origin:

   (a) a Certificate of Origin issued by an issuing body referred to in Article 3.16;

   (b) an Origin Declaration made out by an approved exporter; and

   (c) an Origin Declaration by an exporter or producer.

3. Notwithstanding paragraph 1, originating goods within the meaning of this Chapter, in the cases specified in Article 3.19 may benefit from preferential tariff treatment without any of the documents referred to in paragraph 2.

4. Both Parties shall implement the Origin Declaration by exporter or producer referred to in paragraph 2(c) within 10 years after the date of entry into force of this Agreement.

5. Notwithstanding paragraph 4, a Party may elect to seek a longer extension period, up to a maximum of 10 years in which to implement the provision.

6. The Parties may implement the Proof of Origin referred to in paragraph 2(b) and 2(c) after both Parties conclude negotiations on regulations and formats through the Committee on Customs and Trade Facilitation referred to in Article 4.12 (Committee on Customs and Trade Facilitation) within two years from the date of entry into force of this Agreement, unless otherwise agreed by the Parties.

7. Paragraph 6 shall apply only after the exporting Party has notified the importing Party, that it shall implement this paragraph.

8. Each Party shall provide that a Proof of Origin remains valid for one year from the date on which it is issued or made out.

Article 3.16: Certificate of Origin[11]

1. A Certificate of Origin shall be issued by issuing bodies of the exporting Party in accordance with its domestic laws and regulations, on application by the producer or exporter or, under his responsibility, by his authorized representative.

2. For purposes of this Agreement, a Certificate of Origin is any of:

   (a) a certificate of origin in paper format; or

   (b) an electronic certificate of origin.

3. A Certificate of Origin in paper format shall:

---

[11] If all the information of a Certificate of Origin is exchanged between the customs authority of each Party in accordance with Article 3.25, the customs authority of each Party may not require the importer to submit the Certificate of Origin on importation. Nevertheless, the customs authority of each Party reserves the right to require the importer to submit the Certificate of Origin, when it deems necessary. This footnote shall be without prejudice to any other requirements under this Chapter.

[12] "a printed format" means a Certificate of Origin manually or electronically signed, stamped, and issued in the exporting Party directly from the issuing body system and printed by issuing body, producer or exporter, or his authorized representative.

5. A Certificate of Origin shall be issued prior to or at the time of shipment, or within seven calendar days[13] after the date of shipment. In exceptional cases where a Certificate of Origin has not been issued prior to or at the time of shipment, or within seven calendar days after shipment due to involuntary errors, omissions, or other valid causes, a Certificate of Origin may be issued retroactively but within one year from the date of shipment, bearing the words "ISSUED RETROACTIVELY."

6. The exporter applying for the issuance of a Certificate of Origin shall be prepared to submit at any time, at the request of the issuing body of the exporting Party issuing the Certificate of Origin, all appropriate documents proving the originating status of the products concerned including statements from the suppliers or producers in accordance with its domestic laws and regulations as well as the fulfillment of the other requirements of this Chapter.

7. In the event of theft, loss, or destruction of a Certificate of Origin, the producer or exporter or his authorized representatives may apply to the issuing bodies of the exporting Party for issuing a certified true copy, provided that the original copy previously issued has been verified not to be used. This copy shall bear the words "CERTIFIED TRUE COPY" in box 4 in Annex 3-B-1. This copy shall bear the date of issuance of the original Certificate of Origin in box 12 in Annex 3-B-1. The certified true copy of a Certificate of Origin shall be issued within one year from the date of issuance of the original Certificate of Origin.

8. Neither erasures nor superimpositions shall be allowed on a Certificate of Origin. Any alteration shall be made by striking out the erroneous materials and making any addition required. Such alterations shall be certified by the issuing body. Unused spaces shall be crossed out to prevent any subsequent addition. Alternatively, a new Certificate of Origin may be issued to replace the erroneous Certificate of Origin. The issuing body shall specify the date of issuance of the originally issued Certificate of Origin in the new Certificate of Origin.

[13] For greater certainty, "seven calendar days" shall include the date of shipment itself.

Article 3.17: Issuing Body

1. Each Party shall maintain an updated register of the names and seals of its issuing bodies.

2. Each Party shall notify the other Party of the names and specimen signatures and specimen of official seals of its issuing bodies through the contact point. Any changes in the said list shall be promptly provided in the same manner.

3. Each Party shall provide that a Proof of Origin shall be valid for one year after the date it was issued.

4. Each Party, subject to its laws and regulations, shall provide that where a good would have qualified as an originating good when it was imported into the territory of that Party, the importer of the good may, within a period specified by the laws and regulations of the importing Party, after the date on which the good was imported, apply for a refund of any excess duties, deposit, or guarantee paid as a result of the good not having been accorded preferential tariff treatment, on presentation of the following to the customs authority of the importing Party:

Article 3.19: Waiver of Proof of Origin

1. Each Party shall provide that a Proof of Origin shall not be required where:

(a) the customs value of the importation does not exceed US$200 FOB or the equivalent amount in the currency of the importing Party, or such higher amount as may be established by the importing Party, unless the importing Party considers the importation to be part of a series of importations carried out or planned for purposes of evading compliance with the Party's laws and regulations governing claims for preferential tariff treatment under this Agreement; or

(b) it is a good for which the importing Party does not require the importer to present a Proof of Origin.

2. Notwithstanding paragraph 1, the importing Party may require the importer to submit a Proof of Origin and such other documentation related to the origin of the good where there is doubt as to the veracity of the originating status of the good.

Article 3.21: Discrepancies and Formal Errors

1. The discovery of slight discrepancies between the statements made in a Proof of Origin and those made in the documents submitted to the customs authority of the importing Party for purpose of carrying out the formalities for importing the goods shall not *ipso facto* render the Proof of Origin null and void if it is duly established that such documents do correspond to the goods imported.

2. Obvious formal errors such as typing errors on a Proof of Origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

3. For multiple items declared under the same Proof of Origin, a problem encountered with one of the items listed shall not affect or delay the granting of preferential tariff treatment and customs clearance of the remaining items listed in that Proof of Origin.

Article 3.22: Non-Party Invoice

The importing Party shall not reject a Proof of Origin only for the reason that the invoice was issued in the territory of a non-Party.

Article 3.23: Verification

1. The importing Party may request the issuing body[14] of the exporting Party to conduct a retroactive check at random or when the importing Party has reasonable doubt as to the authenticity of the document or as to the accuracy of the information regarding the true origin of the good in question or of certain parts thereof, subject to the following procedures:

(a) the request of the importing Party for a retroactive check shall be accompanied with the Proof of Origin concerned and shall specify the reasons and any additional information suggesting that the particulars given on the said Proof of Origin may be inaccurate, unless the retroactive check is requested on a random basis;

(b) the issuing body of the exporting Party receiving a request for retroactive check shall respond to the request promptly and reply the result within two months after receipt of the request;

(c) If the customs authority of the importing Party considers necessary, it may require additional information relating to the origin of the good. If additional information is requested by the customs authority of the importing Party, the issuing body of the exporting Party shall provide the information requested in a period not exceeding four months after the date of receipt of the request; and

(d) the customs authority of the importing Party may suspend provision of preferential tariff treatment while awaiting the result of verification. However, it may release the good to the importer subject to any administrative measures deemed necessary, provided that they are not held to be subject to import prohibition or restriction and there is no suspicion of fraud.

2. The customs authority of the importing Party may request an importer for information or documents relating to the origin of an imported good in accordance with its domestic laws and regulations before requesting the retroactive check pursuant to paragraph 1.

[14] In the case of Korea, the issuing body of origin verification refers to the customs authority in accordance with its customs laws and regulations. In the case of Indonesia, issuing body of origin verification refers to its laws and regulations.

3. If the importing Party is not satisfied with the outcome of the retroactive check, it may, under exceptional circumstances, request verification visits to the exporting Party.

4. Prior to conducting a verification visit pursuant to paragraph 3:

(a) an importing Party shall deliver a written notification of its intention to conduct the verification visit simultaneously to:

(i) the producer or exporter whose premises are to be visited;

(ii) the issuing body of the Party in the territory of which the verification visit is to occur;

(iii) the customs authority of the Party in the territory of which the verification visit is to occur; and

(iv) the coverage of the proposed verification visit, including reference to the good subject to the verification; and

(v) the names and designation of the officials performing the verification visit;

(c) an importing Party shall obtain the written consent of the producer or exporter whose premises are to be visited;

(d) when a written consent from the producer or exporter is not obtained within 30 days from the date of receipt of the notification pursuant to subparagraph (a), the notifying Party

may deny preferential tariff treatment to the good referred to in the said Proof of Origin that would have been subject to the verification visit; and

(e) the issuing body receiving the notification may postpone the proposed verification visit and notify the importing Party of such intention within 15 days from the date of receipt of the notification. Notwithstanding any postponement, any verification visit shall be carried out within 60 days from the date of such receipt, or a longer period as the Parties may agree.

5. The Party conducting the verification visit shall provide the producer or exporter, whose good is subject to such verification, and the relevant issuing body with a written determination of whether or not the good subject to such verification qualifies as an originating good.

6. Any suspended preferential tariff treatment shall be reinstated upon the written determination referred to in paragraph 5 that the good qualifies as an originating good.

7. The producer or exporter shall be allowed 30 days from the date of receipt of the written determination to provide in writing comments or additional information regarding the eligibility of the good for preferential tariff treatment. If the good is still found to be non-originating, the final written determination shall be communicated to the relevant issuing body within 30 days from the date of receipt of the comments or the additional information from the producer or exporter.

8. The verification visit process, including the actual visit and the determination under paragraph 5 whether the good subject to such verification is originating or not, shall be carried out and its results shall be communicated to the relevant issuing body within a maximum period of six months from the first day the initial verification visit was conducted. While the process of verification is being undertaken, subparagraph 1(d) shall be applied.

Article 3.24: Denial of Preferential Tariff Treatment

1. The customs authority of the importing Party may deny preferential tariff treatment without verification of a Proof of Origin, in accordance with its laws and regulations, as the Proof of Origin can be considered as inapplicable when:

(a) the requirements on direct consignment of Article 3.9 have not been fulfilled;

(b) the Proof of Origin is produced subsequently for goods that were initially imported fraudulently;

(c) the Proof of Origin has been issued in a non-Party to this Agreement;

(d) the importer fails to submit the Proof of Origin to the customs authorities of the importing Party within the period specified in the domestic laws and regulations of the importing Party; or

(e) such other matters arise as the Parties may agree.

2. During verification procedures, the customs authority of the importing Party may deny preferential tariff treatment when the issuing body of the exporting Party, exporter, or producer fail to comply with Article 3.20 or Article 3.23.

Article 3.25: Electronic Origin Data Exchange System

The Parties may develop an electronic system for origin information exchange to ensure the effective and efficient implementation of this Chapter.

Article 3.26: Transitional Provisions for Goods in Transit and Storage

(a) was being transported to that Party in accordance with the Direct Consignment provisions in Article 3.9; or

Section A: Safeguard Measures

Article 5.1: Definitions

For purposes of Section A:

competent authority means:

(a) for Korea, the Korea Trade Commission, or its successor; and

(b) for Indonesia, the Ministry of Trade, or its successor;

domestic industry means, with respect to an imported good, the producers as a whole of the like or directly competitive good operating in the territory of a Party, or those whose collective output of the like or directly competitive good constitutes a major proportion of the total domestic production of that good;

safeguard measure means a measure described in Article 5.2;

serious injury means a significant overall impairment in the position of a domestic industry;

substantial cause means a cause that is important and not less than any other cause;

threat of serious injury means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

transition period means the ten-year period following the date of entry into force of this Agreement, except that for any good for which the Schedule in Annex 2-A (Reduction or Elimination of Custom Duties) of the Party applying the safeguard measure provides for the Party to eliminate its tariffs on the good over a period of more than ten years, **transition period** means the tariff elimination period for the good set out in that Schedule.

Article 5.2: Application of a Safeguard Measure

If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that the imports of such originating good of the other Party constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good, the Party may:

(a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement;

(b) increase the rate of customs duty on the good to a level not to exceed the lesser of:

(i) the most-favoured-nation (hereinafter referred to as "MFN") applied rate of duty on the good in effect at the time the measure is taken; or

(ii) the base rate of customs duty specified in the Schedules in Annex 2-A (Reduction or Elimination of Customs Duties) pursuant to Article 2.4 (Reduction or Elimination of Customs Duties); or

(iii) the MFN applied rate of duty on the good in effect on the day immediately preceding the date of entry into force of this Agreement.

Article 5.3: Conditions and Limitations

1. A Party shall notify the other Party in writing immediately after the initiation of an investigation described in paragraph 2, and should conduct a public hearing and consultations after the initiation as practicable with a view to reviewing the information arising from the initiation of the investigation.

2. A Party shall apply a safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.

3. In the investigation described in paragraph 2, the Party shall comply with the requirements of Article 4.2(a) of the Safeguards Agreement, and to

this end, Article 4.2(a) of the Safeguards Agreement is incorporated into and made a part of this Agreement, *mutatis mutandis*.

4. Each Party shall ensure that its competent authorities complete any such investigation within six months of its date of initiation.

5. Neither Party may apply a safeguard measure:

(a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;

(b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years; or

(c) beyond the expiration of the transition period, except with the consent of the other Party.

6. A Party shall not apply a safeguard measure more than once on the same good until a period of time equal to the duration of the previous safeguard measure, including any extension, has elapsed commencing from the termination of the previous safeguard measure, provided that the period of non-application is at least two years.

7. Where the expected duration of the safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.

8. When a Party terminates a safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule in Annex 2-A (Reduction or Elimination of Custom Duties), would have been in effect but for the measure.

Article 5.4: Provisional Measures

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a safeguard measure on a provisional basis pursuant to a preliminary determination by its competent

authorities that there is clear evidence that imports of an originating good of the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.

2. Before a Party's competent authorities may make a preliminary determination, the Party shall publish a public notice in its official journal setting forth how interested parties, including importers and exporters, may obtain a non-confidential copy of the application requesting a provisional safeguard measure, and shall provide interested parties at least 20 days after the date it publishes the notice to submit evidence and views regarding the application of a provisional measure. A Party may not apply a provisional measure until at least 45 days after the date its competent authorities initiate an investigation.

3. The applying Party shall notify the other Party before applying a safeguard measure on a provisional basis, and shall initiate consultations immediately after applying the measure.

4. The duration of any provisional measure shall not exceed 180 days, during which time the Party shall comply with the requirements of Articles 5.3.2 and 5.3.3.

5. The Party shall promptly refund any tariff increases if the investigation described in Article 5.3.2 does not result in a finding that the requirements of Article 5.2 are met. The duration of any provisional measure shall be counted as part of the period described in Article 5.3.5(b).

Article 5.5: Compensation

1. Within 30 days after a Party applies a safeguard measure, the Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to agree on compensation through consultations under paragraph 1 within 30 days after the consultations begin, the Party against whose originating good the measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the safeguard measure.

3. The right of suspension referred to in paragraph 2 shall not be exercised for the first two years that the safeguard measure is in effect, provided that the safeguard measure has been taken as a result of an absolute increase in imports and that such a measure conforms to the provisions of this Section.

4. The applying Party's obligation to provide compensation under paragraph 1 and the other Party's right to suspend concessions under paragraph 2 shall terminate on the date the safeguard measure terminates.

5. Any compensation shall be based on the total period of application of the provisional safeguard measure and of the safeguard measure.

Article 5.6: Global Safeguard Measures

1. Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to measures taken under Article XIX of GATT 1994 and the Safeguards Agreement, except that a Party taking a global safeguard measure may exclude imports of an originating good of the other Party if such imports are not a substantial cause of serious injury or threat thereof.

2. At the request of the other Party, the Party intending to take a global safeguard measure may provide immediately ad hoc written notification of all pertinent information on the initiation of a safeguard investigation, the preliminary determination and the final finding of the investigation.

3. Neither Party may apply, with respect to the same good, at the same time:

(a) a safeguard measure; and

(b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

Notwithstanding the provisions of this Article, neither Party may impose a safeguard measure on a good to which a measure is being applied pursuant to Article XIX of GATT 1994 and the Safeguards Agreement. When a Party intends to apply, pursuant to Article XIX of GATT 1994 and the Safeguards Agreement, a measure on a good to which a safeguard measure is being applied, it shall terminate the safeguard measure prior to the imposition of the measure to be applied pursuant to Article XIX of GATT 1994 and the Safeguards Agreement.

Section B: Anti-Dumping and Countervailing Duties

Article 5.7: General Provisions

1. Except as otherwise provided for in this Agreement, each Party retains its rights and obligations under the WTO Agreement with regard to the application of anti-dumping and countervailing duties.

2. The Parties shall ensure, immediately after any imposition of provisional measures and in any case before the final determination, full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply measures, without prejudice to Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement. Disclosures shall be made in writing, and interested parties shall be allowed sufficient time to make their comments.

3. The Parties shall observe the following practices in anti-dumping or countervailing cases between them in order to enhance transparency in the implementation of the WTO Agreement:

(a) when anti-dumping margins are established, assessed, or reviewed under Articles 2, 9.3, 9.5, and 11 of the Anti-Dumping Agreement regardless of the comparison bases under Article 2.4.2 of the Anti-Dumping Agreement, all individual margins, whether positive or negative, should be counted toward the average;

(b) if a decision is taken to impose an anti-dumping duty pursuant to Article 9.1 of the Anti-Dumping Agreement, the Party taking such a decision may apply the 'lesser duty' rule, by imposing a duty which is less than the dumping margin where such lesser duty would be adequate to remove the injury to the domestic industry;

(c) When a Party considers imposing an anti-dumping or countervailing duty, careful consideration should be given to the interests of the other Party; and

(d) The investigating Party shall request an exporter or producer in the territory of the other Party for a timely response to its questionnaires. When the investigating Party finds major deficiency in information in a questionnaire response from relevant exporter or producer received before the deadline or requires clarifications for

purposes of investigation, the investigating Party shall demand missing information or request clarification of information concerning the answers to the questionnaires. This procedure shall not be used to cause unwarranted delays in the investigation or to circumvent the deadlines.

Article 5.8: Notification and Consultations

1. Upon receipt by a Party's competent authorities of a properly documented anti-dumping application with respect to imports from the other Party, and no later than 15 days before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application.

2. Upon receipt by a Party's competent authorities of a properly documented countervailing duty application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other Party a meeting to consult with its competent authorities regarding the application.

3. The Parties affirm their rights and obligations under Annex II of the Anti-Dumping Agreement and in particular its paragraph 5, and under Articles 12.7 and 12.8 of the SCM Agreement. In the event the investigating authorities intend to make a determination on the basis of the facts available pursuant to Article 6.8 of the Anti-Dumping Agreement and Article 12.7 of the SCM Agreement, the investigating authorities shall provide a reasoned and adequate explanation of:

(a) indication of conditions under which the use of facts available is applicable;

(b) the information which interested parties have failed to submit to the investigating authorities; and

(c) the facts with which the investigating authorities decided to replace the information referred to in subparagraph (b).

Article 5.9: Investigation after Termination Resulting from a Review

A Party shall examine, with special care, any application for initiation of an anti-dumping investigation on an originating good of the other Party on which anti-dumping measures have been terminated in the previous 12 months as a result of a review. Unless this pre-initiation examination indicates that the

circumstances have changed, the investigation shall not proceed.

Article 5.10: Cumulative Assessment

When imports from more than one country are simultaneously subject to an anti-dumping or countervailing duty investigation, a Party shall examine, with special care, whether the cumulative assessment of the effect of the imports from the other Party is appropriate in light of the conditions of competition between the imported goods and the conditions of competition between the imported goods and the like domestic goods.

Article 5.11: Cooperation in Anti-Circumvention Investigations

1. The Parties agree to cooperate in preventing circumvention in accordance with Articles 5 and 6 of the Anti-Dumping Agreement.

2. The Parties agree to carry out anti-circumvention investigations in a transparent way and to respect the right of all interested parties to defend their concerns in every step of the anti-circumvention investigation.

3. At the request of the other Party, the Party conducting an anti-circumvention investigation shall provide non-confidential information regarding the companies under investigation to the other Party.

4. In any proceedings in which a Party determines to conduct an on-site verification in the territory of the other Party, it shall notify the companies under investigation in advance.

5. The Party conducting an anti-circumvention investigation shall inform, before the final determination, all interested parties in the territory of the other Party of the essential facts under consideration, which form the basis for the assessment on whether to apply the measure or to grant an exemption. The Party will provide adequate opportunity for all interested parties to make comments on such assessment. Such disclosure of the essential facts should take place within a reasonable period of time for interested parties to defend their interests. Interested parties may also apply to be heard.

Such treatment shall be extended to the presence through which the service is supplied and need not be extended to any other parts of the supplier located outside the territory where the service is supplied.

Article 6.3: National Treatment

1. In the sectors inscribed in its Schedule, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favorable than that it accords, in like circumstances, to its own services and service suppliers[3].

2. The treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to services and service suppliers of the Party of which it forms a part.

3. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of the other Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

4. Formally identical or formally different treatment shall be considered to be less favorable if it modifies the conditions of competition in favor of services or service suppliers of the Party compared to like services or service suppliers of the other Party.

Article 6.4: Most-Favored-Nation Commitments

1. The Parties shall, in respect of the services sectors and subsectors listed in their Schedules to Annex 6-D and 6-E that are identified with an

[2] The sole fact of requiring a visa for natural persons of certain countries and not for those of others shall not be regarded as nullifying or impairing benefits under a specific commitment.

[3] Specific commitments assumed under this Article shall not be construed to require any Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

'MFN', and subject to any conditions and qualifications set out therein, accord to services and service suppliers of the other Party treatment no less favorable than that it accords to like services and service suppliers of a non-Party.

2. Notwithstanding paragraph 1, each Party reserves the right to adopt or maintain any measure that accords differential treatment to services and service suppliers of a non-Party under any bilateral or multilateral international agreement in force or signed prior to the date of entry into force of this Agreement.

3. Notwithstanding paragraph 1, Indonesia reserves the right to adopt or maintain any measure that accords differential treatment to services and service suppliers of any other ASEAN Member State Party taken under an agreement on the liberalization of trade in goods or services or investment as part of a wider process of economic integration between or among ASEAN Member States.

4. The provisions of this Chapter shall not be construed as to prevent any Party from conferring or according advantages to adjacent countries in order to facilitate exchange limited to contiguous frontier zones of services that are both locally produced and consumed.

Article 6.5: Market Access

1. With respect to market access through the modes of supply identified in Article 6.1, a Party shall accord services and service suppliers of the other Party treatment no less favorable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule.[4]

2. In sectors where market-access commitments are undertaken, the measures which a Party shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule, are defined as:

(a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;

[4] If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in Article 6.1 **trade in services** (a) and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in Article 6.1 **trade in services** (c), it is thereby committed to allow related transfers of capital into its territory.

(b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

(c) limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;[5]

(d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;

(e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

(f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

Article 6.6: Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Article 6.3 or Article 6.5, including those regarding qualifications, standards or licensing matters. Such commitments shall be inscribed in a Party's Schedule.

Article 6.7: Schedules of Specific Commitments

1. Each Party shall set out in its Schedule the specific commitments it undertakes under Article 6.3, Article 6.5, and Article 6.6. With respect to sectors where such commitments are undertaken, each Schedule shall specify:

4. The Schedules shall be annexed to this Chapter and shall form an integral part thereof.

5. Neither Party may adopt new, or more, discriminatory measures with regard to services and service supplier of the other Party in comparison with treatment accorded pursuant to the specific commitments undertaken in conformity with paragraph 1.

6. Each Party shall identify in its schedule sectors or sub-sectors for future liberalization with an 'FL'. In these sectors and subsectors, any applicable terms, conditions, limitations, qualifications and undertakings referred to in paragraph 1 shall be limited to measures that the Party maintains on the date of entry into force of this Agreement.

7. If a Party amends a measure referred to in paragraph 6 in a manner that reduces or eliminates the inconsistency of that measure with Article 6.3 or 6.5, as it existed immediately before the amendment, that Party shall not subsequently amend that measure in a way that increases the measure's inconsistency with Article 6.3 or 6.5.

Article 6.8: Modification of Schedules

1. Notwithstanding article 6.7, if a Party requests a consultation to discuss the possibility of modifying or withdrawing a commitment, and to reach any necessary compensatory adjustment, the other Party shall enter into consultation with the requesting Party. The requesting Party may not modify or withdraw its commitment until the Parties reach an agreement on the compensatory adjustment.

2. In achieving a compensatory adjustment, the Parties shall ensure that the general level of mutually advantageous commitment is not less favorable to trade than provided for in the Schedules prior to such negotiations.

3. If the Parties concerned are unable to reach an agreement on the compensatory adjustment, the matter shall be resolved by arbitration in accordance with Chapter Ten (Dispute Settlement) of this Agreement. The modifying Party may not modify or withdraw its commitment until it has made compensatory adjustments in conformity with the findings of the arbitration.

4. If the modifying Party implements its proposed modification or withdrawal and does not comply with the findings of the arbitration, the other Party that participated in the arbitration may modify or withdraw substantially equivalent benefits in conformity with those findings. Such a modification or withdrawal may be implemented solely with respect to the modifying Party.

Article 6.9: Transparency

1. The Parties recognize that transparent measures governing trade in services are important in facilitating the ability of service suppliers to gain access to, and operate in, each other's markets. Each Party shall promote regulatory transparency in trade in services.

2. Each Party shall publish promptly and, except in emergency situations, at the latest by the time of their entry into force:

(a) all relevant measures of general application affecting trade in services; and

(b) all international agreements pertaining to, or affecting, trade in services to which a Party is a signatory.

3. To the extent possible, each Party shall make the measures and international agreements of the kind referred to in paragraph 2 available on the internet and, to the extent provided for under its domestic legal framework, in the English language.

4. Where publication referred to in paragraphs 2 and 3 is not practicable, such information[6] shall be made otherwise publicly available.

5. Each Party shall respond promptly to all requests by the other Party

[6] For greater certainty, the Parties agree that such information may be published in each Party's chosen language.

for specific information on any of its measures of general application or international agreements within the meaning of paragraph 2. Each Party shall also establish one or more enquiry points to provide specific information to the other Party, upon request, on all such matters as well as those subject to the notification requirement in paragraph 6. Such enquiry points shall be established within two years from the date of entry into force of this Agreement.

6. Each Party shall promptly and at least annually inform the Joint Committee of the introduction of any new, or any changes to existing, laws, regulations or administrative guidelines which significantly affect trade in services covered by its specific commitments under this Chapter.

7. Each Party may notify to the Joint Committee any measure, taken by the other Party, which it considers affects the operation of this Chapter.

Article 6.10: Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. (a) Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

(b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

3. Where a Party requires authorization for the supply of a service on which a specific commitments has been made, it shall ensure that its competent authorities:

(a) ensure that any authorization fees charged for the completion of relevant application procedures are reasonable, transparent and do not in themselves restrict the supply of a service. For purposes of this sub-paragraph, authorization fees do not

include fees for the use of natural resources, payment for auctions, tendering, or other non-discriminatory means of awarding concessions, or mandated contribution to universal services provision;

(b) within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application;

(c) to the extent practicable establish an indicative timeframe for processing of an application;

(d) at the request of the applicant, provide, without undue delay, information concerning the status of the application;

(e) in the case of an incomplete application, at the request of the applicant, where practicable, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;

(f) if an application is terminated or denied, to the extent possible, inform the applicant in writing, and without undue delay, the reasons for such action. The applicant will have the possibility of resubmitting, at its discretion, a new application;

(g) to the extent permissible under its domestic laws and regulations, do not require physical presence in the territory of a Party for the submission of an application for a license or qualification;

(h) endeavor to accept applications in electronic format under the equivalent conditions of authenticity as paper submissions in accordance with domestic laws and regulations; and

(i) where they deem appropriate, accept copies of documents authenticated in accordance with domestic laws and regulations, in place of original documents.

4. If the results of the negotiations related to Article VI (4) of the GATS enter into effect, the Parties shall jointly review the results of such WTO negotiations and shall amend this Article, as appropriate, after consultation between the Parties to bring the results of such WTO negotiations into effect under this Chapter. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing

requirements do not constitute unnecessary barriers to trade in services, while recognizing the right to regulate and to introduce new regulations on the supply of services in order to meet its policy objectives, each Party shall endeavor to ensure that any such measures that it adopts or maintains are:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service; and

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

5. (a) In sectors in which a Party has undertaken specific commitments, pending the entry into force of disciplines developed in these sectors pursuant to paragraph 4, the Party shall not apply licensing and qualification requirements and technical standards that nullify or impair such specific commitments in a manner which:

(i) does not comply with the criteria outlined in subparagraphs 4(a), (b) or (c); and

(ii) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.

(b) In determining whether a Party is in conformity with the obligation under paragraph 5(a), account shall be taken of international standards of relevant international organizations[7] applied by that Party.

6. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.

Article 6.11: Recognition

1. For purposes of fulfillment of their respective standards or criteria for the authorization, licensing or certification of services suppliers, and subject to paragraph 4 of this Article, each Party may recognize the education

[7] The term "relevant international organizations" refers to international bodies whose membership is open to the relevant bodies of at least all Members of the WTO.

or experience obtained, requirements met, or licenses or certifications granted in the other Party. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement between the Parties or the relevant competent bodies or may be accorded autonomously.

2. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in the other Party's territory should be recognized.

3. Nothing in Article 6.4 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the other Party.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing or certification of services suppliers, or a disguised restriction on trade in services.

5. Each Party shall endeavor:

(a) within 12 months from the date on which this Agreement takes effect for it, to inform the Joint Committee of its existing recognition measures and state whether such measures are based on agreements or arrangements of the type referred to in paragraph 1;

(b) to promptly inform the Joint Committee as far in advance as possible of the opening of negotiations on an agreement or arrangement of the type referred to in paragraph 1 in order to provide adequate opportunity to the other Party to indicate their interest in participating in the negotiations before they enter a substantive phase; and

(c) to promptly inform the Joint Committee when it adopts new recognition measures or significantly modifies existing ones and state whether the measures are based on an agreement or arrangement of the type referred to in paragraph 1.

6. Wherever appropriate, recognition should be based on multilaterally agreed criteria. In appropriate cases, the Parties shall work in cooperation

with relevant intergovernmental and non-governmental organizations towards the establishment and adoption of common international standards and criteria for recognition and common international standards for the practice of relevant services trades and professions.

7. As set out in Annex 6-C, the Parties shall endeavor to facilitate trade in professional services.

Article 6.12: Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's commitments under this Chapter.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated juridical person, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has a reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraph 1 or 2, that Party may request the other Party establishing, maintaining or authorizing such supplier to provide specific information concerning the relevant operations.

4. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect,

(a) authorizes or establishes a small number of service suppliers; and

(b) substantially prevents competition among those suppliers in its territory.

Article 6.13: Business Practices

1. The Parties recognize that certain business practices of service suppliers, other than those falling under Article 6.12, may restrain competition and thereby restrict trade in services.

2. Each Party shall, at the request of the other Party (the "Requesting Party"), enter into consultations with a view to eliminating practices referred

to in paragraph 1. The Party addressed (the "Requested Party"), shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The Requested Party shall also provide other information available to the Requesting Party, subject to its domestic law and to the conclusion of satisfactory agreement concerning the safeguarding of its confidentiality by the Requesting Party.

Article 6.14: Safeguard Measures

1. The Parties shall review the incorporation of safeguard measures pending any further developments in the multilateral fora pursuant to Article X of GATS.

2. In the event that after the entry into force of this Agreement, a Party encounters difficulties in the implementation of commitments in this Chapter, that Party may request consultation with the other Party to address such difficulties.

Article 6.15: Payments and Transfers[8]

1. Each Party shall permit all transfers and payments relating to its commitments in the trade in services to be made freely and without delay into and out of its territory.

2. Each Party shall permit such transfers and payments relating to the trade in services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws and regulations relating to:

(a) bankruptcy, insolvency, or the protection of the rights of creditors;

(b) issuing, trading, or dealing in securities, futures, options, or derivatives;

(c) criminal or penal offences;

(e) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;

(f) taxation; or

(g) severance entitlement of employees.

Article 6.16: Denial of Benefits

1. A Party may deny the benefits of this Chapter to a service supplier of the other Party that is a juridical person of the other Party, if:

(a) person of a non-Party own or control the juridical person; and

(b) the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the juridical person or that would be violated or circumvented if the benefits of this Chapter were accorded to the juridical person.

2. A Party may deny the benefits of this Chapter in the case of the supply of a maritime transport service, if it establishes that the service is supplied:

(a) by a vessel registered under the laws of a non-Party; and

(b) by a person of a non-Party which operates and/or uses the vessel in whole or in part.

3. A Party may deny the benefits of this Chapter to a service supplier of the other Party if the service supplier is a juridical person owned or controlled by persons of a non-Party or of the denying Party that has no substantial business activities in the territory of the other Party. If, before denying the benefits of this Chapter, the denying Party knows that the juridical person has no substantial business activities in the territory of the other Party and that persons of a non-Party, or of the denying Party, own or control the juridical person, the denying Party shall, to the extent practicable, notify the other Party before denying the benefits.

Article 6.17: Progressive Liberalization

The Parties shall, at the reviews pursuant to Article 13.5 (Review of the Agreement) enter into successive rounds of negotiations to negotiate further packages of specific commitments under this Chapter so as to progressively liberalize trade in services between the Parties.

Article 6.18: Cooperation

The Parties shall strengthen cooperation efforts in services sectors, including sectors which are not covered by existing cooperation arrangements. The Parties shall discuss and mutually agree on the sectors for cooperation and develop cooperation programs in these sectors in order to improve their domestic capacities, efficiencies and competitiveness.

[1] The measures to ensure the stability of the exchange rate including to prevent speculative capital flows shall not be adopted or maintained for the purposes of protecting a particular sector.

(a) where such measures do not conform with the provisions of this Agreement, they shall not be used as a means of avoiding the Party's commitments or obligations under this Agreement;

6. Nothing in this Agreement shall be construed to require a Party to disclose information relating to the affairs and accounts of individual customers or any confidential or proprietary information in the possession of public entities.

Recognition

7. A Party may recognize prudential measures of the other Party in determining how the Party's measures relating to financial services shall be applied. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the non-Party or may be accorded autonomously.

8. A Party that is a party to such an agreement or arrangement referred to in paragraph 7, whether future or existing, shall afford adequate opportunity for the other Party to negotiate its accession to such agreements or arrangements, or to negotiate comparable ones with it, under circumstances in which there would be equivalent regulation, oversight, implementation of such regulation, and, if appropriate, procedures concerning the sharing of information between the parties to the agreement or arrangement. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that such circumstances exist.

9. Where a Party is contemplating according recognition to prudential measures of the non-Party, Article 6.11.5 (b) shall not apply.

CHAPTER 7
INVESTMENT

Article 7.1: Definitions

covered investment means, with respect to a Party, an investment in its territory of an investor of the other Party in existence as of the date of entry into force of this Agreement or established, acquired or expanded thereafter and which, where applicable, has been admitted according to its laws and regulations.[1]

disputing parties means a disputing investor and a disputing Party;

disputing Party means a Party against which a claim is made under Article 7.19;

disputing party means a disputing investor or a disputing Party;

enterprise of a Party means an enterprise constituted or organized under the law of a Party, and a branch located in the territory of that Party and carrying out business activities[2,3,4]

freely usable currency means any currency that is widely used to make payments for international transactions and is widely traded in the principal exchange markets as determined by International Monetary Fund under its *Articles of Agreement* and any amendment thereto;

ICSID Additional Facility Rules means the *Rules Governing the Additional Facility for the Administration of Proceedings by the Secretariat of the International Centre for Settlement of Investment Disputes*;

investment[5,6,7] means every kind of asset that an investor owns or controls,

---

[1] For greater certainty, in the case of Indonesia, "admitted according to its laws and regulations" may include a requirement for specific approval in writing.
[2] A branch of an enterprise shall not make any claim against a Party under this Agreement.
[3] For greater certainty, the inclusion of a "branch" in the definitions of "enterprise of a Party" is without prejudice to a Party's ability to treat a branch under its laws as an entity that has no independent legal existence and is not separately organised.
[4] A branch of a legal entity of a non-Party shall not be considered as an enterprise of a Party
[5] Where an asset lacks the characteristics of an investment, that asset is not an investment regardless of the form it may take.
[6] The term "investment" does not include an order or judgment entered in a judicial or administrative action.
[7] For purpose of the definition of investment in this Article, returns that are invested shall be treated as investments and any alteration of the form in which assets are invested or reinvested shall not affect their character as investments.

that has the characteristics of an investment, including such characteristics as the commitment of capital or other resources, the expectation of gain or profit, or the assumption of risk. Forms that an investment may take include:

(a) an enterprise;

(b) shares, stock and other forms of equity participation in an enterprise;

(c) bonds, debentures, other debt instruments, and loan[8, 9];

(d) turnkey, construction, management, production, concession, revenue-sharing, and other similar contracts;

(e) intellectual property rights;

(f) licenses, authorizations, permits, and similar rights conferred pursuant to a Party's law[10]; and

(g) other tangible or intangible, movable or immovable property, and related property rights, such as leases, mortgages, liens, and pledges[11].

For greater certainty, investment does not mean claims to money that arise solely from:

(a) commercial contracts for sale of goods or services; or

(b) the extension of credit in connection with such commercial contracts.

investor of a non-Party means, with respect to a Party, an investor that has made an investment in the territory of that Party, that is not an investor of

[8] Some forms of debt, such as bonds, debentures and long-term notes, are more likely to have the characteristics of an investment, while other forms of debt, such as claims to payment that are immediately due and result from the sale of goods or services, are less likely to have such characteristics.

[9] A loan issued by one Party to the other Party is not an investment.

[10] Whether a particular type of license, authorization, permit or similar instrument (including a concession to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the Party's law. Among such instruments that do not have the characteristics of an investment are those that do not create any rights protected under the Party's law. For greater certainty, the foregoing is without prejudice to whether any asset associated with such instruments has the characteristics of an investment.

[11] For greater certainty, market share, market access, expected gains, and opportunities for profit-making are not, by themselves, investments.

either Party;

investor of a Party means a natural person or an enterprise of a Party that is seeking to make[12], is making, or has made an investment in the territory of the other Party;

non-disputing Party means the Party that is not a party to an investment dispute; and

UNCITRAL Arbitration Rules means the arbitration rules of the *United Nations Commission on International Trade Law* adopted by *United Nations General Assembly* on 28 April 1976.

Article 7.2: Scope and Coverage

1. This Chapter shall apply to measures adopted or maintained by a Party relating to:

   (a) investors of the other Party; and

   (b) covered investments.

2. For greater certainty, this Chapter does not bind either Party in relation to any act or fact that took place or any situation that ceased to exist before the date of entry into force of this Agreement.

3. For purposes of this Chapter, measures adopted or maintained by a Party means measures adopted or maintained by:

   (a) central, regional, or local governments and authorities; and

   (b) non-governmental bodies in the exercise of powers delegated by central, regional, or local governments or authorities.

4. This Chapter does not apply to:

   (a) government procurement;

   (b) subsidies or grants provided by a Party;

   (c) any taxation measure, except under Article 7.11 and Article

[12] For greater certainty, the Parties understand that an investor that "is seeking to make" an investment refers to an investor of a Party that has taken active steps to initiate a notification or approval process, where applicable, for making an investment.

7.12;

(d) services supplied in the exercise of governmental authority such as law enforcement, correctional services, income security or insurance, social security or insurance, social welfare, public education, public training, health, and child care, provided that such services are supplied neither on a commercial basis, nor in competition with one or more service suppliers; or

(e) measures adopted or maintained by a Party to the extent that they are covered by Chapter Six (Trade in Services).

5. Notwithstanding paragraph 4(e), Article 7.6, Article 7.7, Article 7.11, Article 7.12[13], Article 7.13, and Article 7.19 shall apply, *mutatis mutandis*, to any measure affecting the supply of service by a service supplier of a Party through commercial presence[14] in the territory of the other Party pursuant to the provisions of Chapter Six (Trade in Services), only to the extent that they constitute a covered investment.[15]

Article 7.3: Relations to Other Chapters

1. In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of the inconsistency.

2. A requirement by a Party that a service supplier of the other Party post a bond or other form of financial security as a condition of the cross-border supply of a service does not of itself make this Chapter applicable to measures adopted or maintained by the Party relating to such cross-border supply of the service. This Chapter applies to measures adopted or maintained by the Party relating to the posted bond or financial security, to the extent that such bond or financial security is a covered investment.

3. This Chapter does not apply to measures adopted or maintained by a Party to the extent that they are covered by Chapter Six (Trade in Services).

Article 7.4: National Treatment

[13] For greater certainty, Annex 7-B applies to Article 7.12.
[14] For greater certainty, commercial presence shall have the same meaning as that in Chapter Six (Trade in Services).
[15] For greater certainty, this paragraph shall not be interpreted as extending the scope and coverage of application of Article 7.19.

1. Each Party shall accord to investors of the other Party, and to covered investments of investors of the other Party, treatment no less favorable than that it accords, in like circumstances,[16] to its own investors and investments with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. The treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to investors, and to investments of investors, of the Party of which it forms a part.

Article 7.5: Most-Favored-Nation Treatment[17]

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments.

3. For greater certainty, the treatment referred to in this Article does not encompass international dispute resolution procedures or mechanisms, such as those included in Article 7.19.

Article 7.6: Treatment of Investment[18]

1. Each Party shall accord to covered investments fair and equitable treatment and full protection and security, in accordance with customary international law minimum standard of treatment of aliens.

---

[16] For greater certainty, whether the treatment is accorded in "like circumstances" under Article 7.4 or Article 7.5 depends on the totality of the circumstances including, but not limited to, whether the relevant treatment distinguishes between investors or investments on the basis of legitimate public welfare objectives.

[17] For greater certainty, Article 7.5 shall not apply to investor-state dispute settlement mechanisms such as those set out in Article 7.19.

[18] Article 7.6 shall be interpreted in accordance with Annex 7-A.

2. For greater certainty:

(a) fair and equitable treatment requires each Party not to deny justice in any legal or administrative proceedings;

(b) full protection and security require each Party to take such measures as may be reasonably necessary to ensure the physical protection and security of the covered investment; and

(c) the concepts of "fair and equitable treatment" and "full protection and security" do not require treatment to covered investments in addition to or beyond that which is required under customary international law minimum standard of treatment of aliens, and do not create additional substantive rights.

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

Article 7.7: Compensation for Losses

1. A Party shall accord to investors of the other Party whose covered investment suffered losses due to war or other armed conflict, state of national emergency, riot or other civil strife, treatment no less favorable than that accorded, in like circumstances, to its own investors or investors of a non-Party whichever is more favorable, relating to restitution, indemnification, compensation or any other forms of settlement.

2. An investor of a Party who in any of the events referred to in paragraph 1 suffers loss resulting from:

(a) requisitioning of its investment or part thereof by the forces or authorities of the other Party; or

(b) destruction of its investment or part thereof by the forces or authorities of the other Party, which was not required by the necessity of the situation;

shall in any case be accorded by the latter Party restitution or compensation which in either case shall be prompt, adequate and effective and, with respect to compensation, shall be accordance with Article 7.12.

Article 7.8: Performance Requirements[19, 20, 21]

1. Neither Party shall impose or enforce any of the following requirements, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party:

(a) to achieve a given level or percentage of domestic content;

(b) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;

(c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with investments of the investor;

(d) to restrict sales of goods in its territory that such investment of the investor produces or provides by relating such sales in any way to the volume or value of its exports or foreign exchange earnings;

(e) to export a given level or percentage of goods;

(f) to transfer a particular technology, a production process, or other proprietary knowledge to a person in its territory; or

(g) to supply exclusively from the territory of the Party the goods that such investment produces to a specific regional market or to the world market.

2. Paragraph 1 does not preclude either Party from conditioning the receipt or continued receipt of an advantage, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party, on compliance with any of the requirements set forth in subparagraphs 1(e) through (g).

Article 7.9: Senior Management and Boards of Directors

[19] This Article shall not preclude enforcement of any requirement between private parties, if a Party did not impose the requirement. For purposes of this Article, private parties include designated monopolies or state enterprises, if such entities are not exercising delegated governmental authority.

[20] For greater certainty, paragraphs 1 and 2 shall not apply to any requirement other than those set out in those paragraphs.

[21] This Article shall not be subject to Article 7.19.

1. A Party shall not require an enterprise of that Party that is a covered investment appoint to senior management positions natural persons of any particular nationality.

2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment, be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

Article 7.10: Non-Conforming Measures

1. Articles 7.4, Article 7.5, Article 7.8, and Article 7.9 shall not apply to:

(a) any existing non-conforming measure that is maintained by a Party at:

(i) the central level of government as set out by that Party in its Schedule to Annex I;

(ii) a regional level of government as set out by that Party in its Schedule to Annex I; or

(iii) a local level of government[22];

(b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

(c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed at the date of entry into force of the Party's Schedule to Annex I with Article 7.4, Article 7.5, Article 7.8, and Article 7.9.

2. Article 7.4, Article 7.5, Article 7.8, and Article 7.9 shall not apply to any measures that a Party adopts or maintains with respect to sectors, sub-sectors or activities, as set out in its Schedule to Annex II.

3. Neither Party may, under any measure adopted after the date of entry into force of this Agreement and covered by its Schedule to Annex II, require

[22] For Korea, local level of government means a local government as defined in the *Local Autonomy Act*.

an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective and, where applicable, unless otherwise specified in the initial approval by the relevant authorities.

4. Nothing in this Chapter shall be construed so as to derogate from rights and obligations under international agreements in respect of protection of intellectual property rights to which the Parties are party, including the TRIPS Agreement and other treaties concluded under the auspices of the World Intellectual Property Organization.

Article 7.11: Transfers[23]

1. Each Party shall permit all transfers relating to a covered investment to be made freely and without delay into and out of its territory. Such transfers shall include:

(a) the initial capital and additional amounts to maintain or increase an investment;

(b) profits, dividends, interest, capital gains, royalty payments, license fees, technical assistance fees, management fees and other current income accruing from any covered investment;

(c) proceeds from the total or partial sale or liquidation of all or any part of the covered investment;

(d) payments made under a contract, including a loan agreement;

(e) payments made pursuant to Article 7.7 and Article 7.12; and

(f) payments arising out of the settlement of a dispute.

2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent a transfer through the equitable, non-discriminatory, and good faith application of its laws and regulations relating to:

(a) bankruptcy, insolvency, or the protection of the rights of creditors;

[23] For greater certainty, Annex 7-C applies to this Article.

(b) issuing, trading, or dealing in securities, futures, options, or derivatives;

(c) criminal or penal offences;

(d) ensuring compliance with the judgments in judicial or administrative proceedings;

(e) financial reporting or record keeping of transfers including capital movements and payments when necessary to assist law enforcement or financial regulatory authorities;

(f) taxation; or

(g) severance entitlement of employees.

Article 7.12: Expropriation and Compensation

1. A Party shall not nationalize or expropriate covered investments of an investor of the other Party, either directly or through measures equivalent to expropriation or nationalization (referred hereto as "expropriation"), except:

(a) for public purpose;

(b) in accordance with due process of law;

(c) on a non-discriminatory basis; and

(d) upon payment of prompt, adequate and effective compensation.

2. For purposes of paragraph 1(d), compensation shall:

(a) be equivalent to the fair market value of the expropriated investment at the time when the expropriation was publicly announced, or immediately before or when the expropriation occurred, whichever is applicable;[24]

(b) not reflect any change in value occurring because the intended expropriation had become known earlier;

[24] Where there is a dispute about whether a government conduct amounts to indirect expropriation within the meaning of this Article, the fact that compensation has not been paid while that dispute remains unresolved does not render that conduct inherently unlawful if it is subsequently found to constitute indirect expropriation within the meaning of this Article.

(c) be settled and paid without undue delay[25]; and

(d) be effectively realizable and freely transferable between the territories of the Parties.

3. The compensation referred to in paragraph 1(d) shall include appropriate interest.

4. This Article does not apply to the issuance of compulsory licenses granted in relation to intellectual property rights under the TRIPS Agreement.

Article 7.13: Subrogation

1. If a Party or designated agency of a Party makes a payment to an investor of that Party under a guarantee, a contract of insurance or other form of indemnity it has granted on non-commercial risk in respect of a covered investment, the other Party in whose territory the covered investment was made shall recognize the subrogation or transfer of any rights the investor would have possessed under this Chapter with respect to the covered investment but for the subrogation, and the investor shall be precluded from pursuing these rights to the extent of the subrogation.

2. The subrogated or transferred right or claim shall not be greater than the original right or claim of the investor.[26]

Article 7.14: Special Formalities and Treatment of Information

1. Nothing in Article 7.4 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with establishment of investments by investors of the other Party, such as the requirement that investments be legally constituted under the laws or regulations of the Party and compliance with registration requirements, provided that such formalities do not materially impair the rights afforded by a Party to investors of the other Party and investments of investors of the other Party pursuant to this Agreement.

[25] The Parties understand that there may be legal and administrative processes that need to be observed before payment can be made.

[26] This, however, does not necessarily imply recognition of the latter Party of the merits of any case or the amount of any claims arising therefrom.

2. Notwithstanding Article 7.4 and Article 7.5, a Party may require an investor of the other Party, or its investment in its territory, to provide routine information concerning that investment solely for information or statistical purposes. The Party shall protect any confidential information which has been provided from any disclosure that would prejudice legitimate commercial interests of the investor and its covered investment, or the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

Article 7.15: Denial of Benefits

A Party may deny the benefits of this Chapter:

(a) to an investor of the other Party that is an enterprise of the other Party and to investments of that investor if:

  (i) persons of a non-Party, or of the denying Party own or control the enterprise; and

  (ii) the enterprise has no substantial business activities in the territory of the other Party;

(b) to an investor of the other Party that is an enterprise of the other Party and to investments of that investor if:

  (i) persons of a non-Party own or control the enterprise; and

  (ii) the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments; or

(c) to an investor of the other Party if a person of a non-Party owns or controls the enterprise and the denying Party does not maintain diplomatic relations with that non-Party.

Article 7.16: Environmental Measures

Each Party recognizes that it is inappropriate to encourage investments by investors by relaxing its environmental measures. To this effect, each Party should not waive or otherwise derogate from such environmental measures as an encouragement for establishment, acquisition or expansion of investments in its territory.

Article 7.17: Investment Promotion

The Parties recognize the importance of promoting cross-border investment and technology flows as a means for achieving economic growth and development through, *inter alia*:

(a) identifying investment opportunities and providing information on investment regulations;

(b) sharing of experiences and best practices on investment promotion;

(c) the furthering of a legal environment conducive to increased investment flows; and

(d) developing investments partnership, in particular with small and medium enterprises.

Article 7.18: Corporate Social Responsibility

Each Party reaffirms the importance of encouraging enterprises operating within its territory to voluntarily incorporate into their internal policies those internationally recognized standards, guidelines, and principles of corporate social responsibility that have been endorsed or are supported by that Party.

Article 7.19: Investor-State Dispute Settlement

1. This Article shall apply to investment disputes between a Party and an investor of the other Party concerning an alleged breach of Article 7.4, Article 7.5, Article 7.6, Article 7.7, Article 7.9, Article 7.11 and Article 7.12which causes loss or damage by reason of, or arising out of, that breach to:

(a) the investor in relation to its covered investments; or

(b) the covered investment that has been made by that investor, relating to the management, conduct, operation or sale or other disposition of a covered investment.

2. An investment may not make a claim under this Article.

3. Without prejudice to the scope of any applicable exceptions, non-conforming measures, principles of international law or the disputing Party's ability to rely on such exceptions, non-conforming measures or principles of international law during the proceedings, no claim may be brought under this Article:

(a) in relation to an alleged breach of Most-Favored-Nation treatment as referred to in Article 7.5 on the basis that another international agreement contains more favorable rights or obligations. For greater certainty, this shall not prevent a claim challenging measures of a Party, including measures taken pursuant to another international agreement, on the basis that those measures breach Article 7.5 and have resulted in loss or damage to the disputing investor;

(b) in relation to a measure that is designed and implemented to protect or promote public health;[27]

(c) in relation to an investment that has been established through illegal conduct including fraudulent misrepresentation, concealment or corruption. For greater certainty, this exclusion does not apply to investments established through minor or technical breaches of law;

(d) in relation to investment disputes which have occurred prior to the entry into force of this Agreement;

(e) if the claim is frivolous or manifestly without merit;

(f) by a natural person possessing the nationality or citizenship of a disputing Party.

4. In the event of an investment dispute arising under this Article, the disputing parties shall as far as possible resolve the dispute through consultation and negotiation, a request of which shall be made in writing, with a view towards reaching an amicable settlement.

5. The written request for consultations shall contain information regarding the legal and factual basis for the investment dispute, including the name and address of the disputing investor, the provisions of this Agreement

[27] For Indonesia, measures include those comprising or relating to the Indonesia Health Service Scheme.

alleged to have been breached, the relief sought and the estimated amount of damages claimed, and evidence establishing that the claimant is an investor of the other Party and that it owns or controls the investments.

6. In the case that consultations take place in accordance with this Article, the consultations shall commence, unless the disputing parties agree to a longer period, within 60 days of the submission of the request for consultations. The place of consultation shall be Seoul where the disputing Party is Korea or Jakarta where the disputing Party is Indonesia.

7. If the dispute cannot be resolved within 180 days from the receipt by the disputing Party of the written request for consultations, the disputing Party may initiate a mediation process, which shall be mandatory for the disputing investor, with a view towards reaching an amicable settlement. Such a mediation process shall be initiated by a written request delivered by the disputing Party to the disputing investor.

8. The mediation process under this Article can only be initiated by a written request delivered by the disputing Party within 180 days from the receipt by the disputing Party of the written request for consultations.

9. Expenses incurred in relation to the mediation process shall be borne equally by the disputing parties. Each disputing party shall bear its own legal expenses.

10. Any such dispute which has not been resolved by consultations in accordance with paragraph 5 and paragraph 6 or by mediation in accordance with paragraph 7 to paragraph 9 may be submitted to the courts or administrative tribunals of the disputing Party provided that such courts or tribunals have jurisdictions over such claims or to arbitration. In the latter event, the investor has the choice among any of the following:

(a) the ICSID Convention and the ICSID Rules of Procedure for Arbitration Proceedings, provided that both the disputing Party and the non-disputing Party are parties to the ICSID Convention;

(b) the ICSID Additional Facility Rules, provided that either the disputing Party or the non-disputing Party, but not both, is a party to the ICSID Convention;

(c) the UNCITRAL Arbitration Rules; or

(d) any other arbitration institution or any other arbitration rules, if the disputing parties so agree.

11. The applicable arbitration rules shall govern the arbitration set forth in paragraph 10 unless they are modified by this Article.

12. Once the investor has submitted the dispute to either the courts or administrative tribunals of the disputing Party or any of the arbitration mechanisms provided for in paragraph 10, the choice of forum shall be final.

13. The submission of a dispute to arbitration under paragraph 10 shall be conditional upon:

(a) the submission of the dispute to such arbitration taking place within three years and six months of the time at which the disputing investor become aware, or should reasonably have become aware, of a breach of an obligation under this Agreement and, of the loss or damage incurred by the disputing investor in relation to its covered investment or by the covered investment;

(b) the disputing investor providing written notice, which shall be delivered at least 90 days before the claim to arbitration is submitted, to the disputing Party of its intent to submit the dispute to such arbitration and which:

(i) states the name and address of the disputing investor and the covered investment;

(ii) nominates one of the fora in paragraph 10(a), (b), (c), or (d) as the forum for dispute settlement;

(iii) waives its right to initiate any proceedings, before any of the other dispute settlement procedures referred to in paragraph 10 in relation to the matter under dispute; and

(iv) briefly summaries the alleged breach of the disputing Party under this Agreement (including the articles alleged to have been breached) and the loss or damage allegedly caused to the investor in relation to its covered investment or caused to the covered investment; or

(c) the disputing parties spending at least 120 days on that process and the disputing investor providing written notice, which shall be delivered at least 60 days before the claim to arbitration is submitted, to the disputing Party of its intent to submit the dispute to such arbitration and which specifies the

information referred to paragraph 13(b), should the disputing Party initiate a mediation process in accordance with paragraph 7.

14. Notwithstanding paragraph 13(b), the disputing investor may initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages or resolution of the substance of the matter in dispute before a court or administrative tribunals of the disputing Party, provided that the action is brought for the sole purpose of preserving the disputing investor's rights and interests during the pendency of the arbitration.

15. An investor of a Party may not initiate or continue a claim under this Article if a claim involving the same measure or measures alleged to constitute a breach under paragraph 1 and arising from the same events or circumstances is initiated or continued pursuant to an agreement between the disputing Party and a non-Party by:

(a) a person of a non-Party that owns or controls, directly or indirectly, the investor of a Party; or

(b) a person of a non-Party that is owned or controlled, directly or indirectly, by the investor of a Party.

16. Each Party consents to the submission of a claim to arbitration under this Article in accordance with this Agreement. The consent and the submission of a claim to arbitration under this Article shall be deemed to satisfy the requirement of:

(a) Chapter II of the ICSID Convention (Jurisdiction of the Centre) and the ICSID Additional Facility Rules for written consent of the parties to the dispute; and

(b) Article II of the New York Convention for an "agreement in writing".

17. The arbitral tribunal established under paragraph 10 shall decide the issues in dispute in accordance with this Agreement, any relevant rules of international law applicable in the relations between the Parties and, if applicable, any relevant domestic law of the disputing Party when it is relevant to the claim as a matter of fact.

18. If issues relating to jurisdiction or admissibility are raised as preliminary objections, the tribunal shall decide the matter before proceeding to the merits. The disputing parties shall be given a reasonable opportunity to present their views and observations to the tribunal. If the tribunal decides that the claim is manifestly without merit, or is otherwise not within the

jurisdiction or competence of the tribunal, it shall render an award to that effect.

19. Unless the disputing parties otherwise agree, the arbitral tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties. If a tribunal has not been constituted within 75 days from the date a claim is submitted to arbitration under this Article, the Appointing Authority[28], at the request of a disputing party, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed. The Appointing Authority shall not appoint a national of either Party as the presiding arbitrator, unless the disputing parties otherwise agree.

20. Arbitrators shall have expertise or experience in public international law, international trade or international investment rules and be independent of, and not be affiliated with or take instructions from the disputing Party, the non-disputing Party or disputing investor.

21. For purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:

(a) the disputing Party agrees to the appointment of each individual member of a tribunal established under the ICSID Convention or the ICSID Additional Facility Rules;

(b) the disputing investor may submit a claim to arbitration under this Article, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the disputing investor agrees in writing to the appointment of each individual member of the tribunal.

22. Unless the disputing parties otherwise agree, the tribunal shall determine the place of arbitration in accordance with the applicable arbitration rules, provided that the place shall be in the territory of a State that is a party to the New York Convention.

23. Subject to subparagraphs (a) and (b), the disputing parties shall make publicly available all awards and decisions produced by the tribunal.

---

[28] Appointing Authority means:
(i) in the case of arbitration under Article 7.5, the Secretary General of ICSID;
(ii) in the case of arbitration under Article 7.5, the Secretary General of the Permanent Court of Arbitration; or
(iii) any person as agreed between the disputing parties.

(a) Any of the disputing parties that intend to use information designated as confidential information in a hearing shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect the information from disclosure.

(b) Any information specifically designated as confidential that is submitted to the tribunal or the disputing parties shall be protected from disclosure to the public.

24. A disputing party may disclose to persons directly connected with the arbitral proceeding such confidential information as it considers necessary for the preparation of its case, but it shall require such confidential information is protected.

25. The tribunal shall not require a Party to furnish or allow access to information the disclosure of which would impede law enforcement or would be contrary to the Party's law or which it determines to be contrary to its essential security.

26. The non-disputing Party shall be entitled, at its cost, to receive from the disputing Party a copy of the notice of arbitration, no later than 30 days after the date that such document has been delivered to the disputing Party. The disputing Party shall notify the other Party of the receipt of the notice of arbitration within 30 days thereof.

27. The disputing Party may not assert as a defense, counter-claim, right of set-off or for any other reason, that the disputing investor has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract, except with respect to any subrogation as provided for in Article 7.13.

28. If a tribunal makes a final award against either of the disputing parties, the tribunal may award, separately or in combination only:

(a) monetary damages and any applicable interest; and

(b) restitution of property, in which case the award shall provide that the disputing Party may pay monetary damages and any applicable interest in lieu of restitution.

29. A tribunal may also award costs and attorney's fees in accordance with this Article and the applicable arbitration rules.

30. A Party shall not give diplomatic protection, or bring an international claim, in respect of a dispute which one of its investors and the other Party have submitted to arbitration under this Article, unless the other Party has

failed to abide by and comply with the award rendered in such dispute. Diplomatic protection, for purposes of this paragraph, shall not include informal diplomatic exchanges for the sole purpose of facilitating a settlement of the dispute.

31. An award made by a tribunal shall be final and binding upon the disputing parties. An award shall have no binding force except between the disputing parties and in respect of the particular case.

32. Subject to paragraph 33 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.

33. A disputing party shall not seek enforcement of a final award until:

(a) in the case of a final award made under the ICSID Convention,

(i) 120 days have elapsed from the date the award was rendered and no disputing party has requested revision or annulment of the award; or

(ii) revision or annulment proceedings have been completed; or

(b) in the case of a final award under the ICSID Additional Facility Rules, the UNCITRAL Arbitration Rules, or the rules selected pursuant to paragraph 10(d),

(i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside, or annul the award; or

(ii) a court has dismissed or allowed an application to revise, set aside, or annul the award and there is no further appeal.

34. Each Party shall provide for the enforcement of an award in its territory.

ANNEX 7-A
Customary International Law

The Parties confirm their shared understanding that "customary international law" generally and as specifically referenced in Article 7.6, including in relation to the customary international law minimum standard of treatment, results from a general and consistent practice of States that they follow from a sense of legal obligation.

ANNEX 7-B
Expropriation

The Parties confirm their shared understanding that:

1 An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right in an investment.

2 Article 7.12.1 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.

3 The second situation addressed by Article 7.12.1 is indirect expropriation, where an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.

(a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:

(i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;

(ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations[29]; and

(iii) the character of the government action, including its objectives, context and whether the action is disproportionate to the public purpose[30] .

[29] For greater certainty, whether investors of investment-backed expectations are reasonable depends, to the extent relevant, on factors such as whether the government provided the investors with binding written assurances, and the nature and extent of governmental regulations or the potential for governmental regulations in the relevant factors.

[30] For Korea, a relevant consideration could include whether the investor bears a disproportionate burden such as a special sacrifice that exceeds what the investor or investment should be expected to endure for the public interest.

(b) Non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, the environment, and real estate price stabilization do not constitute indirect expropriations[31].

[31] For greater certainty, the list of "legitimate public welfare objectives" in paragraph 3(b) is not exhaustive.

ANNEX 7-C
Temporary Safeguard Measures

1. Nothing in this Chapter, Chapter Six (Trade in Services), or Annex 6-A (Financial Services) shall be construed to prevent a Party from adopting or maintaining temporary safeguard measures with regard to transfer, including payment and capital movements, or restrictions on trade in services on which it has undertaken specific commitments:

(a) in the event of serious balance of payments and external financial difficulties or under threat thereof; or

(b) in cases where, in exceptional circumstances, payments and capital movements cause or threaten to cause serious economic or financial disturbance or serious difficulties for the operation of monetary or exchange rate policies in the Party concerned[32].

2. The measures referred to in paragraph 1:

(a) are in effect for a period not to exceed one year, and can be renewed should the conditions in paragraph 1 continue to exist;

(b) are not confiscatory;

(c) do not constitute a dual or multiple exchange rate practice;

(d) shall not be adopted or maintained solely for purpose of affecting investor's ability to earn a market rate of return in the territory of the Party[33];

(e) shall be consistent with the Articles of Agreement of the International Monetary Fund, as may be amended;

(f) avoid unnecessary damage to the commercial, economic and financial interests of the other Party;

(g) avoid unnecessary damage to investors and covered investments of the other Party;

[32] For greater certainty, any measures taken to ensure the stability of the exchange rate including to prevent speculative capital flows shall not be adopted or maintained for purpose of protecting a particular sector.

[33] For greater certainty, any inadvertent impact of the measures referred to in paragraph 1 on the economic value of an investment, standing alone, shall not be considered as affecting investor's ability to earn a market rate of return.

(h) shall not exceed those necessary to deal with the circumstances described in paragraph 1;

(i) are temporary and phased out progressively as the situation specified in paragraph 1 improves;

(j) are applied in a manner consistent with a non-discriminatory basis such that no Party is treated less favorably than a non-Party, and on a national treatment basis; and

(k) shall be promptly notified to the other Party.

Nothing in this Chapter, Chapter Six (Trade in Services), or Annex 6-A (Financial Services) shall be regarded as altering the rights enjoyed and obligation undertaken by a Party as a party to the *Articles of Agreement of the International Monetary Fund*.

If, in any case, each period of the suspension of the work of the arbitration panel exceeds 12 months, the authority of the arbitration panel shall lapse unless the Parties otherwise agree. If, in its final report, the arbitration panel determines that the Party complained against has not conformed to its obligations under the relevant provisions of this Agreement, unless the Parties otherwise agree, the Party complained against shall eliminate the non-conformity immediately, or if this is not practicable, within a reasonable period of time.

3. The reasonable period of time referred to in paragraph 2 shall be mutually agreed by the Parties. Where the Parties fail to agree on the reasonable period of time within 45 days of the date of issuance of the final report of the arbitration panel, either Party may refer the matter to the original arbitration panel, which shall determine the reasonable period of time.

4. The Party complained against shall notify to the complaining Party the implementing measures that it has taken to comply with the determinations of the arbitration panel, before the expiry of the reasonable period of time agreed by the Parties or determined by the original arbitration panel in accordance with paragraph 3. Where there is disagreement between the Parties as to whether the Party complained against has eliminated the non-conformity as determined in the final report of the arbitration panel within the reasonable period of time as determined pursuant to paragraph 3, either Party may refer the matter to the original arbitration panel.

5. The arbitration panel that is established for purposes of this Article shall, wherever possible, have, as its arbitrators, the arbitrators of the original arbitration panel. If this is not possible, then the arbitrators of the arbitration panel that is established for purposes of this Article shall be appointed pursuant to Article 10.9. The arbitration panel shall issue its report to the Parties within 20 days on the reasonable period of time and 45 days on the other issues after the date when the matter is referred to it. 2. If there is no agreement on satisfactory compensation within 20 days of the date of receipt of the request mentioned in paragraph 1, the complaining Party may, at any time, provide written notice to the Party complained against that it intends to suspend the application to the Party complained against of concessions or other obligations under this Agreement. The complaining Party may begin suspending concessions or other obligations 30 days after the notification of such suspension.

3. The compensation referred to in paragraph 1 and the suspension referred to in paragraph 2 shall be temporary measures. Neither compensation nor suspension is preferred to full elimination of the non-conformity as determined in the report of the arbitration panel. The suspension shall only be applied until such time as the non-conformity is fully eliminated or a mutually satisfactory solution is reached.

4. In considering what concessions or other obligations to suspend pursuant to paragraph 2:

(a) the complaining Party should first seek to suspend concessions or other obligations with respect to the same sector or sectors as that in which the report of the

arbitration panel referred to in Article 10.13 has found a failure to comply with the obligations under this Agreement;

(b) if the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to the same sector or sectors, it may suspend concessions or other obligations with respect to other sectors. The notification of such suspension pursuant to paragraph 2 shall indicate the reasons on which it is based; and

(c) the level of suspension referred to in paragraph 2 shall be equivalent to the level of the nullification or impairment.

5. If the Party complained against considers that the requirements for the suspension of concessions or other obligations by the complaining Party set out in paragraph 2, 3, or 4 have not been met, it may refer the matter to an arbitration panel.

6. The arbitration panel that is established for purposes of this Article shall, wherever possible, have, as its arbitrators, the arbitrators of the original arbitration panel. If this is not possible, then the arbitrators of the arbitration panel that is established for purposes of this Article shall be appointed pursuant to Article 10.9. The arbitration panel established under this Article shall issue its report to the Parties within 45 days after the date when the matter is referred to it. When the arbitration panel considers that it cannot issue its report within the aforementioned periods, the relevant period may be extended by the arbitration panel for a maximum of 30 days with the consent of the Parties. The report shall be binding on the Parties.

CHAPTER 11
EXCEPTIONS

Article 11.1: General Exceptions

1. For purposes of Chapter Two (National Treatment and Market Access for Goods), Chapter Three (Rules of Origin and Origin Procedures), Chapter Four (Customs Procedures and Trade Facilitation), and Chapter Five (Trade Remedies), Article XX of GATT 1994 and its interpretative notes are incorporated into and made part of this Agreement, *mutatis mutandis*.

2. For purposes of Chapters Six (Trade in Services) and Seven (Investment), Article XIV of GATS (including its footnotes) is incorporated into and made part of this Agreement, *mutatis mutandis.*

Article 11.2: Security Exceptions

Nothing in this Agreement shall be construed to:

(a) require a Party to furnish any information, the disclosure of which it considers contrary to its essential security interests;

(b) prevent a Party from taking any action which it considers necessary for the protection of its essential security interests:

(i) relating to the traffic in arms, ammunition and implements of war and to such traffic in other goods and materials or relating to the supply of services as carried on, directly or indirectly, for the purposes of supplying or provisioning a military establishment;

(ii) relating to fissionable and fusionable materials or the materials from which they are derived;

(iii) taken so as to protect critical public infrastructure, including communications, power and water infrastructures, from deliberate attempts intended to disable or degrade such infrastructure; or

(iv) taken in time of domestic emergency, or war or other emergency in international relations; or

(c) prevent a Party from taking any action in pursuance of its obligations under the *United Nations Charter* for the maintenance of international peace and security.

Article 11.3: Taxation Measures

1. Except as provided in this Article, nothing in this Agreement shall apply to taxation measures.

2. This Agreement shall only grant rights or impose obligations with respect to taxation measures where:

(a) corresponding rights and obligations are also granted or imposed under Article III of GATT 1994;

(b) they are granted or imposed under Article 7.11 (Transfers); or

(c) they are granted or imposed under Article 7.12 (Expropriation and Compensation).

3. Where paragraph 2(b) or (c) apply, Article 7.19 (Investor-State Dispute Settlement) shall also apply in respect of taxation measures.

4. (a) Where an investor claims that the disputing Party has breached Article 7.11 (Transfers) or Article 7.12 (Expropriation and Compensation) by the adoption or enforcement of a taxation measure, the competent authorities of the disputing Party shall request consultations with the competent authorities of the non-disputing Party at the time that the disputing Party receives the investor's notice of intent under Article 7.19 (Investor-State Dispute Settlement). The competent authorities of the Parties shall hold consultations with a view to determining whether Article 7.11 (Transfers) has been breached or whether the taxation measure in question has an effect equivalent to expropriation. Any tribunal that may be established in accordance with Article 7.19 (Investor-State Dispute Settlement) shall accept as binding the decision of the competent authorities under this paragraph.

(b) If the competent authorities of the Parties fail to determine whether Article 7.11 (Transfers) has been breached or

whether the taxation measure has an effect equivalent to expropriation within 180 days of the date of receipt of the request for consultations by the non-disputing Party, the investor may submit its claim to arbitration under Article 7.19 (Investor-State Dispute Settlement).

(c) For purposes of this paragraph, **competent authorities** means:

(i) with respect to Korea, the Deputy Minister for Tax and Customs, Ministry of Economy and Finance; and

(ii) with respect to Indonesia, the Minister of Finance or his or her authorised representative;

or their respective successors.

5. In assessing whether a measure related to taxation constitutes expropriation, the following considerations shall be taken into account:

(a) the imposition of taxes does not generally constitute an expropriation. The mere introduction of a new taxation measure or the imposition of taxes in more than one jurisdiction in respect of an investment generally does not in and of itself constitute an expropriation;

(b) enforcement activities of the tax laws including seizure of property for the purpose of tax collection generally do not constitute expropriation;

(c) a taxation measure that is consistent with internationally recognized tax policies, principles, and practices does not constitute an expropriation. In particular, a taxation measure aimed at preventing the avoidance or evasion of taxes generally does not constitute an expropriation;

(d) a taxation measure that is applied on a non-discriminatory basis, as opposed to being targeted at investors of a particular nationality or specific individual taxpayers[1], is not likely to constitute an expropriation; and

[1] For greater certainty, the term "individual taxpayers" includes natural person, juridical person, and enterprise.

(e) a taxation measure generally does not constitute an expropriation if it was already in force when the investment was made and information about the measure was made public or otherwise made publicly available.

6. Nothing in this Agreement shall affect the rights and obligations of either Party under any tax convention. In the event of any inconsistency relating to a taxation measure between this Agreement and any such tax convention, that convention shall prevail to the extent of the inconsistency. The competent authorities under that convention shall have sole responsibility for jointly determining whether any inconsistency exists between this Agreement and that convention.

7. Nothing in this Agreement shall oblige a Party to extend to the other Party the benefit of any treatment, preference or privilege arising from any tax convention by which the Party is bound.

8. For purposes of this Article:

(a) **tax convention** means a convention for the avoidance of double taxation or other international taxation agreement or arrangement; and

(b) taxes and taxation measures do not include customs duty as defined in Article 1.1 (General Definitions) and measures listed as exceptions in subparagraphs (b), (c), (d), and (e) of that definition.

Article 11.4: Confidentiality of Information

1. Nothing in this Agreement shall require a Party to furnish or allow access to information that would be contrary to its law or impede law enforcement, or otherwise be contrary to the public interest or that would be prejudice the legitimate commercial interests of any particular enterprises, public or private.

2. Unless otherwise provided in this Agreement, where a Party provides information to the other Party in accordance with this Agreement and designates the information as confidential, the Party receiving the information shall maintain the confidentiality of the information. The information shall be used only for the purposes specified by the Party providing the information. It shall not be disclosed without the specific written permission of the Party providing the information, except where the disclosure of information is necessary to comply with the legal requirements of a Party.
